**Padayon** Beth Salazar Villarin, 2025-02-06 Padayon, means to “carry on” in Cebuano, a language in Philippines. It is a memoir of the author’s parents, Engr. Doroteo “Dodo” Monte de Ramos Salazar and Mrs. Zenaida “Naiding” Figuracion Salazar. Starting with a narration of the sudden and tragic death of her dad, the author writes introspectively about the painful experience about losing a dad, the pillar of their family. It continues with the abrupt turn-over of the businesses to the immediate heirs, his children. The rest of the book describes the family’s modest business and family beginnings including local and foreign travels. In 1983, the couple founded Salazar Colleges of Science and Institute of Technology, SCSIT, a school for the poor and marginalized. It was originally named Salcon Institute of Technology. Accepting the plea of the folks of Madridejos, Cebu, the couple entered politics, risking their lives just to make the community a better place to live in.

The original inhabitants came from various parts of Southeast Asia, and outlying areas preserve many of their unique and interesting customs. In the age of exploration the Europeans came. The hopes of the Filipino people were finally realized when, on July 4 1946, the flag of the Philippine was raised. Author, Galdys Zabilka has created an informal and interesting compilation for the overseas traveler or the armchair tourist. The reader will be introduced to quaint Filipino customs, tourist attractions, folk songs, foods, and sports along with a general review of Philippine history and racial background. Almost every aspect of Filipino life is touched upon in this handy little volume. Delightful illustrations for each chapter were done by M. Kuwata. *Low Cost Carriers* Stephen Ison, 2017-07-05 Low cost carriers (LCCs) represent one of the most exciting and dynamic yet often contentious developments in recent commercial aviation history. Formed as a direct result of policies of airline deregulation and liberalisation that were initiated in the United States in the late 1970s before being implemented in certain European, Australasian, Latin American and other world markets from the mid-1990s onwards to encourage competition, LCCs have been responsible for progressively reconfiguring the spatial patterns, operational practices and passenger experiences of flight. In the process, they have enabled growing numbers of people to fly to more places, more frequently,

and at lower cost than had been previously possible. In so doing, however, they have generated a number of socio-economic and environmental challenges. The 23 essays included in this volume provide a detailed insight into the emergence, expansion and evolution of the low cost carrier sector worldwide. The volume covers deregulation and liberalisation of the global airline sector, the business models and operating characteristics of low cost carriers, the changing nature of the airline/airport relationship, LCC network characteristics, issues of pricing and competition and the current impacts and likely future trajectories.
