Describing himself as a e; fornicating, gin-soaked, dope-head, e; Leeteg took on the elite of the art establishment of Honolulu Academy of Arts in 1938 and shamed them in the press. Always the shrewd promoter and a creative genius, Edgar Leeteg possessed many titles, astounding fans and antagonizing critics. His insatiable lust for life led the author James Michener to label him e; Leeteg the Legende; in his book, Rascals in Paradise (1957). This is a biography of the artist Leeteg, who left California in 1933 bound for the South Pacific. His home in Tahiti allowed him to paint nudes, drink, and party with sensual vahines from the beaches to the bars of Tahiti. He was a wealthy artist and legend in his lifetime, a goal few can achieve. e; Cook's work is entertaining and knowledgeable. The breadth of its featured cast, quotes, and remembrances make this biography lively. Tahiti, its people, roistering ex-pats, and luminous landscapes vibrate like personal memories. Leeteg's landscapes appear alongside Paul Gauguin's, questions the fine and arbitrary line that separates e; popular; art from work acclaimed e; great. e; -Foreword Reviews

And a few go directly opposite to how most people study figures.

Winslow,2015-08-04 This essential companion book to the bestselling Classic Human Anatomy provides artists and art students with a deeper understanding of human anatomy and different types of motion, inspiring more realistic and energetic figurative art. Fine-art instruction books do not usually focus on anatomy as it relates to movement, despite its great artistic significance. Written by a long-time expert on drawing and painting human anatomy, Classic Human Anatomy in Motion offers artists everything they need to realistically draw the human figure as it is affected by movement. Written in a friendly style, the book is illustrated with hundreds of life drawing studies (both quick poses and long studies), along with charts and diagrams showing the various anatomical and structural components. This comprehensive manual features 5 distinct sections, each focusing on a different aspect of the human figure: bones and joint movement, muscle groups, surface form and soft tissue characteristics, structure, and movement. Each chapter builds an artistic understanding of how motion transforms the human figure and can create a sense of expressive vibrancy in one's art.
