Great Britain. Competition Commission

Global Connect Myron Manley, 2005

Vodafone, O2, Orange and T-Mobile: Appendices Great Britain. Competition Commission, 2003 This investigation concerned the call termination charges which O2, Vodafone, Orange and T-Mobile levy on each other for terminating calls on their respective networks ('off-net calls') and on fixed network operators (FNOs), of which the largest is BT, for terminating fixed-to-mobile calls on their networks. Call termination charges are incurred by the MNOs and FNOs as costs at the wholesale level, and are taken into account in the retail prices which they set for their own customers. FNOs' call termination charges are separately regulated and are much lower than the termination charges levied by the MNOs. Calls to mobiles from FNOs accounted for a much larger proportion (70 per cent) of termination minutes than off-net calls (about 30 per cent) in 2001/02 (mobile-to-mobile, or on-net calls, do not attract termination charges), and provided nearly all the MNOs' net revenue from call termination charges in that year. We found that each MNO has a monopoly of call termination on its own network. The Commission concluded that the termination charges of O2, Vodafone, Orange and T-Mobile operate against the public interest, with the adverse effects that termination charges on 2002/3 are 30 to 40 per cent in excess of the Commission's estimation of the fair charge. In the absence of a charge control on them, the termination charges may be expected to operate against the public interest, with the adverse effect that termination charges may be expected to be up to double the level of the fair charge by 2005/6, if such charges were retained at their current levels in real terms. Recommendations include: For each of O2, Vodafone, Orange and T-Mobile, there should be two price caps, set at the same level, one regulating termination charges for fixed-to-mobile calls and the other, termination charges for off-net calls. In this way, the MNOs cannot load charges disproportionately on to one or other call type. Also O2, Vodafone, Orange and T-Mobile should each be required to reduce the level of its average termination charge by 15 per cent in real terms before 25 July 2003. That O2 and Vodafone should be subject to further reductions in their average termination charges of RPI-15 in each of the periods 25 July 2003 to 31 March 2004; 1 April 2004 to 31 March 2005; and 1 April 2005 to 31 March 2006. And Orange and T-Mobile should be subject to further reductions in their average termination charges of RPI-14 in each of the periods 25 July 2003 to 31 March 2004; 1 April 2004 to 31 March 2005 and 1 April 2005 to 31 March 2006.
