Mao's Road to Power: Revolutionary Writings, 1912-49: v. 1: Pre-Marxist Period, 1912-20 Zedong Mao, Stuart Schram, 2015-06-03 Revolution in its Leninist guise has been a dominant force in the world for most of the 20th century, and the Chinese revolution has been, with the Russian revolution, one of its two most important manifestations. Mao Zedong, the architect of victory in China in 1949, stands out as one of the dominant figures of the century. Guerilla leader, strategist, conqueror, ruler, poet and philosopher, he placed his imprint on China, and on the world. Even though today communism is widely seen as bankrupt, Mao Zedong's achievements as an innovative disciple of Lenin and Stalin in the most populous nation on earth guarantees his place in history. Whatever the ultimate fate of communism in China, the fact of Mao's influence on events during more than five decades, and its resonance after his death, will remain. This edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought. It has been compiled from all available Chinese sources, including not only the 20-volume edition published in Tokyo years ago, but many new materials issued in China since 1978, both openly and for internal circulation. The editors have pursued a threefold goal: firstly, to translate every text by Mao which could be obtained, so as to make this English version as complete as possible; secondly, to annotate the materials in sufficient detail to make them accessible to the non-specialist reader; and thirdly, to combine accuracy with a level of literary quality which is intended to make the volumes agreeable as well as instructive to read. Volume 1 includes translations of the entire contents of the authoritative Mao Zedong Zaoqi Wengao 1912.6-1920.11 (Draft writings from Mao Zedong's early period, June 1912-November 1920), published in Beijing in 1990, plus some 15 additional texts for the same period which have been attributed to Mao. Among the items thus made available in English are his first surviving work, a middle school essay of 1912 in praise of Shang Yang; his very extensive Classroom Notes of late 1913 on the lectures of his most influential teachers, Yang Changji and Yuan the Big Beard; a dozen letters to his then close friend Xiao Zisheng (Siao-yu), who described a shared odyssey in Mao-Tse-tung and I were Beggars; his marginal annotations of 1918 to the German philosopher Friedrich Paulsen's work on ethics, in which Mao proclaimed himself a believer in individualism and an admirer of Nietzsche; and many important letters, articles, and other writings documenting his evolution from liberalism to anarchism and finally to Marxism in 1919-1920.

The Rhetoric of Mao Zedong Xing Lu, 2022-04-13 This thorough examination of Mao's speeches and writings and how

they reshaped a nation is critical to an understanding of modern China (Choice). Mao Zedong fundamentally transformed China from a Confucian society characterized by hierarchy and harmony into a socialist state guided by communist ideologies of class struggle and radicalization. It was a transformation made possible largely by Mao's rhetorical ability to attract, persuade, and mobilize millions of Chinese people. In this book, Xing Lu analyzes Mao's speeches and writings over a span of sixty years, tracing the sources and evolution of his discourse, analyzing his skills as an orator and mythmaker, assessing his symbolic power and continuing presence in contemporary China, and observing that Mao's rhetorical legacy has been commoditized, culturally consumed, and politically appropriated since his death. Applying both Western rhetorical theories and Chinese rhetorical concepts to reach a more nuanced and sophisticated understanding of his rhetorical legacy, Lu shows how Mao employed a host of rhetorical appeals and strategies drawn from Chinese tradition and how he interpreted the discourse of Marxism-Leninism to serve foundational themes of his message. She traces the historical contexts in which these themes, his philosophical orientations, and his political views were formed and how they transformed China and Chinese people. Lu also examines how certain ideas are promoted, modified, and appropriated in Mao's rhetoric. His appropriation of Marxist theory of class struggle, his campaigns of transforming common people into new communist advocates, his promotion of Chinese nationalism, and his stand on China's foreign policy all contributed to and were responsible for reshaping Chinese thought patterns, culture, and communication behaviors.

Illness and Image Sander L. Gilman, 2018-01-16 The humanities in higher education are too often labeled as impractical and are not usually valued in today's marketplace. Yet in professional fields, such as the health sciences, interest in what the humanities can offer has increased. Advocates claim the humanities offer health care professionals greater insight into how to work with those who need their help. *Illness and Image* introduces undergraduates and professionals to the medical humanities, using a series of case studies, beginning with debates about male circumcision from the ancient world to the present, to the meanings of authenticity in the face transplantation arena. The case studies address the interpretation of mental illness as a disability and the new category of mental illness, self-harm. Sander L. Gilman shows how medicine projects such categories' existence into the historical past to show that they are not bound in time and space and, therefore, are real. *Illness and Image* provides students and researchers with models and possible questions regarding categories often assumed to be either trans-historical or objective, making it useful as a textbook.

Stand Up Straight! Sander L. Gilman, 2018-02-15 Our bodies are not fixed. They expand and contract with variations in diet, exercise, and illness. They also alter as we age, changing over time to be markedly different at the end of our lives from what they were at birth. In a similar way, our attitudes to bodies, and especially posture—how people hold themselves, how they move—are fluid. We interpret stance and gait as healthy or ill, able or disabled, elegant or slovenly, beautiful or ugly. In *Stand Up Straight!*, Sander L. Gilman probes these shifting concepts of posture to explore how society's response to our

bodies' appearance can illuminate how society views who we are and what we are able to do. The first comprehensive history of the upright body at rest and in movement, *Stand Up Straight!* stretches from Neanderthals to modern humans to show how we have used our understanding of posture to define who we are—and who we are not. Gilman traverses theology and anthropology, medicine and politics, discarded ideas of race and the most modern ideas of disability, theories of dance and concepts of national identity in his quest to set straight the meaning of bearing. Fully illustrated with an array of striking images from medical, historical, and cultural sources, *Stand Up Straight!* interweaves our developing knowledge of anatomy and a cultural history of posture to provide a highly original account of our changing attitudes toward stiff spines, square shoulders, and flat tummies through time.

Mao Zedong and China in the Twentieth-Century World Rebecca E. Karl, 2010-08-13 Describes Mao Zedong's life and thought in relation to the Chinese revolution and twentieth-century history.

Pearls of Wisdom Mamutty Chola, 2019-07-09 The book — *Pearls of wisdom* presents a historical and panoramic view of human civilization. It is a compilation of quotes /sayings of prophets, philosophers, thinkers, poets, emperors, politicians and business tycoons; on various aspects of human lives; be it religions, ethics, morals, business, principles of governance, evolution of science and technology, besides quotes on Nature, Earth, Soul, Love, Beauty, Human Minds, Human Hearts, and Eyes. There are quotes about the qualities of animals; like Dog, Horse, Lion and their influence on human lives. There are in all 26 sections chapters as reflected in the Index. On perusal of these quotes following facts emerge: 1) The human race loves to live in peace. The religions, though was intended to achieve peace in society, have unfortunately been one of the main reasons for wars, crimes, destruction, and genocides because of the intolerance among the believers since faith is blind. Rationality had been and is the first casualty. 2) All the religions are the gifts of the East. The gifts of the west are communism and Atheism. 3) Things once considered as blasphemies have come to be accepted as truth. The example of Galileo Galilei is remarkable. 5) The governing principles have been evolutionary. There can never be a uniformed pattern of governance as peoples differ in their thinking and beliefs for that reasons there have been clashes of civilization down the ages. 6) The exploration of our solar systems is the result of endless and insatiable urge in man to unravel nature. The achievements of science and technology belong to the whole of humanity. I have tried to present a snapshot profile of March of human civilization through the voices of the great minds ever walked on mother earth. This compilation will serve as ready reckoner

Chinese Martial Arts: Changing Views and Practices Michael DeMarco, Since ancient times, some observant people have made the revered Book of Change (Yijing) their lifelong study. Change is the fundamental principle found in every aspect of our lives. Change is the Way of the universe. Confucian and Daoist texts are filled with anecdotal and philosophic discourse related to this theme. There is little wonder why we find the concept of change in the diverse Chinese martial traditions. This anthology presents articles from the Journal of Asian Martial Arts that are related to the theme of change. This does not mean that the authors are writing solely about philosophic ideas such as yin-yang, taiji, five phases (wuxing), or the eight hexagrams (bagua). From the content of these articles you will see how the views, needs, purposes and understandings of Chinese martial arts have changed over the centuries. By expounding on these themes, each author demonstrates how the actual practice of martial arts has changed in tandem with these fluctuating views. Supported by in depth research, interviews, and field experience, the nine articles included here offer us a view of Chinese martial arts from many angles. Of course effectiveness is one of the criteria for skills that are valued as being truly martial. To improve the effectiveness, some leading practitioners gained insights from nature, particularly from the animal kingdom. Also, in both ancient and modern times, Chinese practitioners borrowed from other styles. The concept of "mixed martial arts" is nothing new. There have been spinoffs to the warrior arts. Even centuries ago the martial arts were utilized in entertaining "flowery" performances, as in Peking opera. The variety of martial movements were certainly conducive for good health so there is a long tradition of incorporating these in exercises practices solely for health and longevity. In the early twentieth century, martial arts became a political tool for boosting the spirit of country, vitalizing the "sick man of Asia." Perhaps the most notable change in Chinese martial arts can be seen in the modern sportification of it. Motivated by rank, trophies, and money, the combative elements have been forsaken in favor of competition and show. Originally practical, techniques have been transformed into pure acrobatics. This special anthology provides an encompassing overview of the development and variety of Chinese martial arts. You will come to appreciate the ancient roots and the forces that have influenced how and why these arts are

practiced today.

Performance Art in China Thomas J. Berghuis,2006 Performance Art in China takes as its subject one of the most dynamic and controversial areas of experimental art practice in China. In his comprehensive study, Sydney-based theorist and art historian Thomas J. Berghuis introduces and investigates the idea of the role of the mediated subject of the acting body in art, a notion grounded in the realization that the body is always present in art practice, as well as its subsequent, secondary representations. Through a series of in-depth case studies, Berghuis reveals how, during the past 25 years, Chinese performance artists have acted out their art, often in opposition to the principles governing correct behavior in the public domain. In addition to a 25-year chronology of events, a systematic index of places, names and key terms, as well as a bibliography and a glossary in English and Chinese, this study also offers the reader numerous previously unpublished photos and documents.
