Resolana Miguel Montiel, Tomás Atencio, E. A. "Tony" Mares, 2022-03-29 Villagers in northern New Mexico refer to the south-facing side of a wall as la resolana, meaning "the place where the sun shines." Every culture has a resolana, a place where the resolaneros—the villagers—gather, dialogue, and reflect on society, culture, and politics. The buried knowledge that emerges from this process may be "pure gold," or el oro del barrio, a metaphor for the culturally contextualized knowledge gathered at the resolana. Coming from diverse backgrounds in social work, sociology, public administration, literature, history, and education, three modern resolaneros take the twin concepts of resolana and el oro del barrio on a breathtaking journey from their rural roots to their application in an urban setting and on to a holistic view of globalization. The authors offer a humane perspective on transborder cultures and all communities struggling to maintain their cultural and linguistic identities. They share an optimistic view of how ordinary people everywhere can take back control of their own destinies. This book is about uncovering subjugated knowledge—el oro del barrio—through resolana, a dynamic process of thought and action. Resolana will inspire dialogue and creativity from those interested in sociology, political science, social work, and Chicano studies, as well as public-policy makers and the general public.

Liberty, Individuality, and Democracy in Jorge Luis Borges Alejandra M. Salinas, 2016-10-26 This book seeks to fill a double lacuna in Borges scholarship. For one, this scholarship has been largely developed through the lens of literary and cultural studies, and not by political theorists who bring a distinct disciplinary perspective into the reading of literary works. Secondly, mainstream interpreters have overlooked or have not analyzed enough Borges's political sympathies. This book does not evaluate if these sympathies are truthful to political and historical facts or philosophical theories; rather, she shows in which aspects and around which topics Borges finds inspiration and gives literary form to the political. His texts abound with concepts and events such as liberty, individuality, war, and revolution, and they deal with topics such as the legitimacy of authority, the limits of reason, and the principle of representation, among others. This book also addresses Borges's democratic sensitivity and his critique of populism and militarism as related to salient national and global historical events that inspired his works. Above all, it calls attention to Borges's belief in the pre-eminence of individual liberty, his rejection of political oppression, and his warning against civic indifference brought about by an isolated individualism. This book may be of interest to students and professors of politics, philosophy and literature. It may also interest literary critics and readers

who want to approach Borges's works with a political rather than a literary or a cultural lens.

The New Latin America Fernando Calderón, Manuel Castells, 2020-08-04 Latin America has experienced a profound transformation in the first two decades of the 21st century: it has been fully incorporated into the global economy, while excluding regions and populations devalued by the logic of capitalism. Technological modernization has gone hand-in-hand with the reshaping of old identities and the emergence of new ones. The transformation of Latin America has been shaped by social movements and political conflicts. The neoliberal model that dominated the first stage of the transformation induced widespread inequality and poverty, and triggered social explosions that led to its own collapse. A new model, neo-developmentalism, emerged from these crises as national populist movements were elected to government in several countries. The more the state intervened in the economy, the more it became vulnerable to corruption, until the rampant criminal economy came to penetrate state institutions. Upper middle classes defending their privileges and citizens indignant because of corruption of the political elites revolted against the new regimes, undermining the model of neo-developmentalism. In the midst of political disaffection and public despair, new social movements, women, youth, indigenous people, workers, peasants, opened up avenues of hope against the background of darkness invading the continent. This book, written by two leading scholars of Latin America, provides a comprehensive and up-to-date account of the new Latin America that is in the process of taking shape today. It will be an indispensable text for students and scholars in Latin American Studies, sociology, politics and media and communication studies, and anyone interested in Latin America today.

Cuaderno urbano 19 - Espacio, cultura, sociedad Eudene, 2021-09-13 Cuaderno urbano es una publicación científica con arbitraje internacional dirigida a la difusión de artículos y ensayos que se ocupan desde las disciplinas científicas a la cuestión urbana -en el sentido más amplio del término-, combinando trabajos de caracteres empíricos, teóricos y ensayísticos que den cuenta de problemáticas locales, regionales y universales. La intención de la publicación es favorecer y promover la generación de ensayos y artículos de jóvenes investigadores con las reglas del arbitraje científico, colaborando en la producción editorial de sus ideas; como también divulgar el aporte de científicos ya consagrados en su especialidad disciplinar. La dimensión social ha sido comúnmente reconocida como el pilar más débil y el menos desarrollado del concepto

de sostenibilidad. El presente artículo muestra los resultados de una investigación que profundiza en la identificación de indicadores que permitan medir la sostenibilidad social en conjuntos habitacionales. Para ello analiza tres conjuntos en el Gran Concepción con características tipológicas diferentes y representativas de los modelos de crecimiento urbano. Los resultados obtenidos en esta investigación permiten identificar los principales indicadores de medición de la sostenibilidad social, actualmente discutidos en la disciplina, y su aplicabilidad en la evaluación de tres conjuntos habitacionales. Los resultados invitan a revisar la forma en la cual estamos construyendo paradigmas urbanos, en general en relación con los modelos de crecimiento y, en particular, sobre las tipologías de conjuntos residenciales y las políticas públicas asociadas.

Seguridad nacional, amenazas y respuestas Luis De la Corte Ibáñez, 2014 La seguridad es una aspiración universal a la que ningún país puede renunciar. En un mundo en permanente transformación, las fuentes de tensión y riesgo se suceden y multiplican incesantemente: terrorismo, conflictos armados, amenazas cibernéticas, crisis financieras y energéticas, criminalidad organizada, espionaje, armas de destrucción masiva, piratería, catástrofes naturales o riesgos ambientales, entre otras muchas. La persistencia de estos peligros demuestra que la seguridad plena no está garantizada por sí sola. Por ese motivo, en los últimos años el concepto de seguridad nacional ha sido reincorporado a las directrices que orientan la acción de Estados y Gobiernos, incluidos los de España. En Seguridad nacional, amenazas y respuestas, un equipo de especialistas académicos españoles y de profesionales del ámbito de la seguridad y de la defensa ahonda en la problemática de la seguridad nacional y revisa sus principales interrogantes: ¿qué dimensiones la integran?; ¿cuál debe ser la arquitectura institucional de un sistema de seguridad nacional adaptado a los tiempos y circunstancias actuales y futuras?; ¿cuáles son las principales amenazas que pueden poner en peligro la seguridad de las naciones, particularmente de España y de todas las personas que viven en nuestro país? y, finalmente, ¿qué estrategias y líneas de acción deberían aplicarse para hacer frente a esas amenazas?

Solidarities Beyond Borders Pascale Dufour, Dominique Masson, Dominique Caouette, 2010-08-01 Scholars of social movements tend to overlook the achievements and political significance of women's movements. Through theoretical discussions and empirical examples, Solidarities Beyond Borders demonstrates the creativity and dynamism of transnational feminist and women's groups around the world. These timely case studies from North America, Latin America, and Southeast Asia explore the benefits and challenges of extending ties beyond national borders and disciplinary boundaries. The contributors not only bring to light the opportunities and challenges that globalization poses for transnationalizing women's movements, they offer important strategic, conceptual, and methodological lessons for all social movements.

Marketing responsable Ramiro Restrepo González, 2018-10-01 Este libro ofrece al lector una visión del marketing desde la perspectiva del desarrollo sostenible. En ese sentido, propone una doble mirada: - En primer lugar, una mirada crítica frente a las prácticas del marketing tradicional que no solo han ido a contracorriente de los más elementales principios de la sostenibilidad, sino que han modelado una sociedad de consumo plagada de exceso, distorsiones, vicios, desperdicios y contaminación. una sociedad enfermiza, por decir lo menos. - En segundo lugar, una mirada propositiva, a partir de una infinidad de iniciativas y casos que están configurando una renovada filosofía y práctica del marketing en el contexto global, esta vez basadas en los principios del desarrollo sostenible. De esta manera, este libro es una invitación a cambiar nuestra visión del desarrollo, expresada en ese motor de las sociedades conformado por la producción, la distribución y el intercambio de bienes y servicios.

The Routledge Handbook of Digital Media and Globalization Dal Yong Jin, 2021-05-12 In this comprehensive volume, leading scholars of media and communication examine the nexus of globalization, digital media, and popular culture in the early 21st century. The book begins by interrogating globalization as a critical and intensely contested concept, and proceeds to explore how digital media have influenced a complex set of globalization processes in broad international and comparative contexts. Contributors address a number of key political, economic, cultural, and technological issues relative to globalization, such as free trade agreements, cultural imperialism, heterogeneity, the increasing dominance of American digital media in global cultural markets, the powers of the nation-state, and global corporate media ownership. By extension, readers are introduced to core theoretical concepts and practical ideas, which they can apply to a broad range of contemporary media policies, practices, movements, and technologies in different geographic regions of the world—North America, Europe, Africa, the Middle East, Latin America, and Asia. Scholars of global media, international communication, media industries, globalization, and popular culture will find this to be a singular resource for understanding the interconnected relationship between digital media and globalization.

Perspectives on Western Sahara Anouar Boukhars, Jacques Roussellier, 2013-12-18 The ongoing conflict in Western Sahara is one of the more intractable legacies of European colonization in North Africa. Following the withdrawal of Spain, this territorial dispute escalated in 1975 into a war of independence between the Sahrawi people of the Polisario Front, who were backed by Algeria, and the states of Mauritania and Morocco. In 1976, the Polisario Front established the Sahrawi Arab

Democratic Republic, which was not admitted in the UN but won recognition by a few states. After multiple peace efforts, the conflict reemerged in 2005 as the “independence Intifada.” Today, the Polisario Front controls about 20% of Western Sahara. At the heart of the conflict lie geopolitical interests and incompatible claims aggravated by the use of military force and decades of mostly unproductive diplomatic maneuvers by international bodies and regional or foreign powers. This thorough, impartial survey brings together some of the best experts on the Sahara question to provide a broad-based analysis of the problem, from a range of perspectives. Featuring new research, the chapters examine the roots of the conflict, its dynamics, and potential solutions. This groundbreaking text also addresses questions of law, human rights, natural resources from an analytical point of view. Contributed by scholars from North Africa, Europe, and the U.S., it is an essential contribution to the literature of Middle East and African studies.

Imagina lo imposible: manual práctico & caja de herramientas para la innovación Gerard J Prins III, 2024-10-01 Innovar siempre va a acompañado de crear algo nuevo que sea capaz de sorprender y lograr el cometido de su autor. Este no es solo impactar, sino también entregar a lo creado un lugar de importancia y utilidad. El propósito de este libro es explicar la creatividad aplicada –entendida como «el proceso de tener ideas originales que tienen valor»– como un fenómeno social en las organizaciones, el rol que tiene o debería tener en un contexto estratégico corporativo e identificar y describir herramientas que podrían ser útiles para que los líderes corporativos del siglo XXI puedan volver a inspirar a través de la creativización de su manera de pensar y accionar, de sus estrategias y de los procesos para la ideación colaborativa y educación en sus organizaciones. Debido a que la creatividad y la personalidad creativa han sido sujeto de estudio desde los años veinte del siglo pasado, en un amplio rango de campos –desde las ciencias cognitivas hasta las de los negocios–, estamos parados sobre los hombros de mujeres y hombres mucho más grandes en un intento de construir el caso para la creatividad aplicada como el motor fundamental de la innovación en la empresa exitosa del siglo XXI.

Urban Socio-Economic Segregation and Income Inequality Maarten van Ham, Tiit Tammaru, Rūta Ubarevičienė, Heleen Janssen, 2021-03-29 This open access book investigates the link between income inequality and socio-economic residential segregation in 24 large urban regions in Africa, Asia, Australia, Europe, North America, and South America. It offers a unique global overview of segregation trends based on case studies by local author teams. The book shows important global trends in segregation, and proposes a Global Segregation Thesis. Rising inequalities lead to rising levels of socio-economic segregation almost everywhere in the world. Levels of inequality and segregation are higher in cities in lower income countries, but the growth in inequality and segregation is faster in cities in high-income countries. This is causing convergence of segregation trends. Professionalisation of the workforce is leading to changing residential patterns. High-income workers are moving to city centres or to attractive coastal areas and gated communities, while poverty is increasingly suburbanising. As a result, the urban geography of inequality changes faster and is more pronounced than

changes in segregation levels. Rising levels of inequality and segregation pose huge challenges for the future social sustainability of cities, as cities are no longer places of opportunities for all.

Beyond Repair? Alison Crosby, M. Brinton Lykes, 2019-05-10 Winner of the 2021 Raphael Lemkin Book Award from the Institute for the Study of Genocide Honorable Mention, 2020 CALACS Book Prize *Beyond Repair?* explores Mayan women's agency in the search for redress for harm suffered during the genocidal violence perpetrated by the Guatemalan state in the early 1980s at the height of the thirty-six-year armed conflict. The book draws on eight years of feminist participatory action research conducted with fifty-four Q'eqchi', Kaqchikel, Chuj, and Mam women who are seeking truth, justice, and reparation for the violence they experienced during the war, and the women's rights activists, lawyers, psychologists, Mayan rights activists, and researchers who have accompanied them as intermediaries for over a decade. Alison Crosby and M. Brinton Lykes use the concept of "protagonism" to deconstruct dominant psychological discursive constructions of women as "victims," "survivors," "selves," "individuals," and/or "subjects." They argue that at different moments Mayan women have been actively engaged as protagonists in constructivist and discursive performances through which they have narrated new, mobile meanings of "Mayan woman," repositioning themselves at the interstices of multiple communities and in their pursuit of redress for harm suffered.

Women's Health and the World's Cities Afaf Ibrahim Meleis, Eugenie L. Birch, Susan M. Wachter, 2011-08-19 Growing urbanization affects women and men in fundamentally different ways, but the relationship between gender and city environments has been ignored or misunderstood. Women and men play different roles, frequent different public areas, and face different health risks. Women suffer disproportionately from disease, injury, and violence because their access to resources is often more limited than that of their male counterparts. Yet, when women are healthy and safe, so are their families and communities. Urban policy makers and public health professionals need to understand how conditions in densely populated places can help or harm the well-being of women in order to serve this large segment of humanity. *Women's Health and the World's Cities* illuminates the intersection of gender, health, and urban environments. This collection of essays examines the impact of urban living on the physical and psychological states of women and girls in Africa, Asia, Latin

America, and the United States. Urban planners, scholars, medical practitioners, and activists present original research and compelling ideas. They consider the specific needs of subpopulations of urban women and evaluate strategies for designing spaces, services, and infrastructure in ways that promote women's health. *Women's Health and the World's Cities* provides urban planners and public health care providers with on-the-ground examples of projects and policies that have changed women's lives for the better.

The Limitations of the Law of Armed Conflicts: New Means and Methods of Warfare Pablo Antonio Fernández-Sánchez, 2022-05-09 In the law of armed conflicts, one of the elements that has changed the most has been the means and methods of warfare. Yet there are few legal answers for the many questions these changes pose. This volume, therefore, seeks to identify the limitations of current international law on this double plane, the means and methods of combat, and to offer insights about how to address them. Topics include the use of nuclear energy, which without being a weapon, can have the same effect as one, chemical and biological weapons, autonomous artificial intelligence weapons, and biobots. Similarly, fake news, the hostile use of cyberspace, lawfare, the use of big data, terrorism as a combat method, premeditated poisoning, sexual humiliation, the impact of such news on the armed forces and the reorganization needed to face the new scenarios are all situations not contemplated in classical law and which require new legal and operational responses.

A Beginner's Guide to Building Better Worlds Levi Gahman, Nasha Mohamed, Filiberto Penados, Johannah-Rae Reyes, Atiyah Mohamed, Shelda-Jane Smith, 2022-05-31 This ambitious book offers radical alternatives to conventional ways of thinking about the planet's most pressing challenges, ranging from alienation and exploitation to state violence and environmental injustice. Bridging real-world examples of resistance and mutual aid in Zapatista territory with big-picture concepts like critical consciousness, social reproduction and decolonisation, the authors encourage readers to view themselves as co-creators of the societies they are a part of – and 'be Zapatistas wherever they are'. Written by a diverse team of first-generation authors, this book offers an emancipatory set of anti-colonial ideas related to both refusing liberal bystanding and collectively constructing better worlds and realities.
