War, Baby Kevin Mitchell, 2011-10-31 25th February 1995 The Dark Destroyer vs the G-Man Nigel Benn and Gerald McClellan Two men with a reputation to defend - a reputation for brutal, unforgiving combat both in the ring and outside it. Ostensibly, they were fighting for a world title and a lot of money, the stuff of professional boxing. But this fight was different. It was a rare collision of wills, and few present had seen anything like it. After ten of the most gruelling and vicious rounds that the sport of boxing has ever witnessed McClellan finally was defeated. He knelt in his corner on one knee in submission. And he never got up. This is the story of what brought these two men together on the night of 25th February 1995 and how that night changed them forever. It's a story too about those associated with the promotion of public fist-fighting, who bend morality to suit their needs. It's a story that attempts to unravel the glamour of violence. William Hill Sports Book of the Year Finalist.

The Matrix Explained Maxime Drouin,2019-01-03 It's amazing how dominant information is in the modern world. In fact, it's so dominant that it begs the question, "What if information does not only define and shape our world—what if it is in fact reality"? The 1999 film The Matrix and its sequels were predicated on just this idea. Of late, the sultans of Silicon Valley have become obsessed with this idea, which is known as the simulation hypothesis. Elon Musk himself has remarked, "There's a billion-to-one chance we're living in base reality." Perhaps information doesn't just define and shape our reality. Perhaps it's entangled in the fabric of reality through the mind of the observer. Consider the philosophical thought experiment: if a tree falls in the forest and no one is there to hear it, does it make a sound? It takes a mind to experience reality. In this book, I chronicle the journey that led me to discover the missing link between science and spirituality: the information-bit. Legendary theoretical physicist John Wheeler's "it-from-bit" theory and my own Quantum Mind model are ultimately rooted in the same thing: data. Wheeler suggested that the reality of physics—the "it"—is based on patterns of information, or "bits." I theorize that our actions in the real world unfold in sync with the underlying information-thought blueprints that exist in our mind. Buddha once said, "The mind is everything. What you think, you become." This bi-directional dialogue across the mind-body connection may well occur at the Planck scale, where the transition between quantum physics—the bit—and classical physics—the it—operates. But where do the mind and body meet? Purpose, which emerges from knowing oneself, unifies the wisdom of the East with the pragmatism of the West. The energy derived from what has meaning to the self is the fuel that allows individuals to manifest in the physical reality (via the body) the bit arrangement contained in the micro realm of their mind. If its point of origin is love, this route leads to inner peace and harmony and draws a vector unifying the mind, heart, and body.

Whither Class? Xueping Zhong, 2025-02-24 This book argues that the revolutionary, anti-revolutionary, counter-revolutionary, and post-revolutionary dialectics in modern Chinese history since the early-20th century characterizes modern and contemporary Chinese literature the most. Central to these dialectics are issues of class. The book contends that one cannot fully understand modern and contemporary Chinese literature without understanding the class character of Chinese revolutionary and counter-revolutionary struggles, including literary practices and their various contradictions. Considering literature via the notion of “the event” and focusing on three specific historical junctures, this project explores how, as a major cultural form, literature has played an outsize role in China's struggle for liberation and quest for modernity. It highlights the need to understand class and the extent to which it shapes literary and artistic forms and expressions as well as the on-going debates over the relationship between politics and aesthetics.

Bollywood Horrors Ellen Goldberg,Aditi Sen,Brian Collins,2020-11-12 Bollywood Horrors is a wide-ranging collection that examines the religious aspects of horror imagery, representations of real-life horror in the movies, and the ways in which Hindi films have projected cinematic fears onto the screen. Part one, "Material Cultures and Prehistories of Horror in South Asia" looks at horror movie posters and song booklets and the surprising role of religion in the importation of Gothic tropes into Indian films, told through the little-known story of Sir Devendra Prasad Varma. Part two, "Cinematic Horror, Iconography and Aesthetics" examines the stereotype of the tantric magician found in Indian literature beginning in the medieval period, cinematic representations of the myth of the fearsome goddess Durga's slaying of the Buffalo Demon, and the influence of epic mythology and Hollywood thrillers on the 2002 film Raaz. The final part, "Cultural Horror," analyzes elements of horror in Indian cinema's depiction of human trafficking, shifting gender roles, the rape-revenge cycle, and communal violence. This book also features images (colour in the hardback, black and white in the paperback).

Ruined Sinners to Reclaim David Gibson,Jonathan Gibson,2024-04-22 Examining the Doctrine of Human Depravity in Scripture and throughout Church History For centuries, theologians have debated the doctrine of total depravity—the belief that people are wholly and naturally corrupt due to original sin. Reformed theology upholds this truth, acknowledging it to be essential for understanding the gospel and humanity's need for a Savior. Ruined Sinners to Reclaim persuasively reaffirms the doctrine of total depravity from biblical, historical, theological, and pastoral perspectives, drawing on the debates of

Haykin, Gray Sutanto, Garry Williams, Mark Jones, Daniel Strange, and R. Albert Mohler Jr.—to help readers understand the reality of our sinful nature, its debilitating effects, and the Holy Spirit's role in salvation. This is the second book in the Doctrines of Grace series, which explores the central points of the Canons of Dort, providing a framework for understanding each doctrine in all its historical, biblical, theological, and pastoral richness. Defends the Doctrine of Total Depravity: Including sin's origin, spread, nature, and scope, as well as its effects on free will Comprehensive: Explores theological ideas throughout church history, including from the patristic, medieval, Reformation and post-Reformation periods, and viewpoints of the Pelagians and Semi-Pelagians, Arminians, Rationalists, Romanists, and Evolutionists Part of the Doctrines of Grace Series: Along with From Heaven He Came and Sought Her, this volume explores a central tenet of Reformed theology Well-Researched: Includes contributions from Michael A.
