The book delves into how these narratives reflect, anticipate, and sometimes influence our perception of science and technology. It examines recurring themes like cyber warfare, artificial intelligence, and biotechnology, revealing how these fictional scenarios mirror and shape public opinion regarding technological advancements. Under the Literary Microscope Sina Farzin, Susan M. Gaines, Roslynn D. Haynes, 2021-04-20 “Science in fiction,” “geek novels,” “lab-lit”—whatever one calls them, a new generation of science novels has opened a space in which the reading public can experience and think about the powers of science to illuminate nature as well as to generate and mitigate social

change and risks. *Under the Literary Microscope* examines the implications of the discourse taking place in and around this creative space. Exploring works by authors as disparate as Barbara Kingsolver, Richard Powers, Ian McEwan, Ann Patchett, Margaret Atwood, and Michael Crichton, these essays address the economization of scientific institutions; ethics, risk, and gender disparity in scientific work; the reshaping of old stereotypes of scientists; science in an evolving sci-fi genre; and reader reception and potential contributions of the novels to public understandings of science. *Under the Literary Microscope* illuminates the new ways in which fiction has been grappling with scientific issues—from climate change and pandemics to artificial intelligence and genomics—and makes a valuable addition to both contemporary literature and science studies courses. In addition to the editors, the contributors include Anna Auguscik, Jay Clayton, Carol Colatrella, Sonja Fückler, Raymond Haynes, Luz María Hernández Nieto, Emanuel Herold, Karin Hoepker, Anton Kirchhofer, Antje Kley, Natalie Roxburgh, Uwe Schimank, Sherryl Vint, and Peter Weingart.

Contemporary European Crime Fiction Monica Dall'Asta, Jacques Migozzi, Federico Pagello, Andrew Pepper, 2023-04-20 This book represents the first extended consideration of contemporary crime fiction as a European phenomenon. Understanding crime fiction in its broadest sense, as a transmedia practice, and offering unique insights into this practice in specific European countries and as a genuinely transcontinental endeavour, this book argues that the distinctiveness of the form can be found in its related historical and political inquiries. It asks how the genre's excavation of Europe's history of violence and protest in the twentieth century is informed by contemporary political questions. It also considers how the genre's progressive reimagining of new identities forged at the crossroads of ethnicity, gender, and sexuality is offset by its bleaker assessment of the corrosive effects of entrenched social inequalities, political corruption, and state violence. The result is a rich, vibrant collection that shows how crime fiction can help us better understand the complex relationship between Europe's past, present, and future. Attack of the New B Movies Justin Wigard, Mitch Ploskonka, 2023-04-14 Since its inception in 1992, the Sci-Fi Channel (later rebranded as SYFY) has aired more than 500 network-produced or commissioned films. Campy and prolific, the network churned out one low-budget film after another, finally finding its zenith in the 2013 release of *Sharknado*. With unpretentious charm and a hearty helping of commodified nostalgia, the *Sharknado* franchise briefly ruled the cultural consciousness and temporarily transformed SYFY's original films from cult fringe to appointment television. Naturally, the network followed up with a steady stream of sequels and spin-offs, including *Lavalantula* and its sequel, *2 Lava 2 Lantula*! This collection of essays is the first to devote critical attention to SYFY's original film canon, both pre- and post-*Sharknado*. In addition to unpacking the cultural, historical and critical underpinnings of the monsters at the heart of SYFY's classic creature features, the contributors offer a variety of approaches to understanding and interrogating these films within the broader contexts of ecocriticism, monster theory, post-9/11 criticism, and neocolonialism. Providing a further entry point for future scholarship, an appendix details a thorough filmography of SYFY's original films from 1992 to 2022.

Blouin,2018-05-10 Mass-Market Fiction and the Crisis of American Liberalism, 1972–2017 tracks the transformation of liberal thought in the contemporary United States through the unique lens of the popular paperback. The book focuses on cultural shifts as they appear in works written by some of the most widely-read authors of the last fifty years: the idea of love within a New Economy (Danielle Steel), the role of government in scientific inquiry (Michael Crichton), entangled political alliances and legacies in the aftermath of the 1960s (Tom Clancy), the restructured corporation (John Grisham), and the blurred line between state and personal empowerment (Dean Koontz). To address the current crisis, this book examines how the changed character of American liberalism has been rendered legible for a mass audience.
