

Oxford University Press Very Short Introductions

Oxford University Press

Philosophy: A Very Short Introduction Edward Craig, 2002-02-21 Philosophy introduces important themes in ethics, knowledge, and the self, via readings from Plato, Aristotle, Darwin, and Buddhist writers. It explains how areas of philosophy relate and explores the contexts in which philosophy was and is done.

A Very Short Introduction to Everything Oxford University Press, 2003-12 Sample sections from the Very short introductions series are presented in this encapsulation of human knowledge.

Public Health: A Very Short Introduction Virginia Berridge, 2017-04-06 Public health is a term much used in the media, by health professionals, and by activists. At the national or the local level there are ministries or departments of public health, whilst international agencies such as the World Health Organisation promote public health policies, and regional organisations such as the European Union have public health funding and policies. But what do we mean when we speak about 'public health'? In this Very Short Introduction Virginia Berridge explores the areas which fall under the remit of public health, and explains how the individual histories of different countries have come to cause great differences in the perception of the role and responsibilities of public health organisations. Thus, in the United States litigation on public health issues is common, but state involvement is less, while some Scandinavian countries have a tradition of state involvement or even state ownership of industries such as alcohol in connection with public health. In its narrowest sense, public health can refer to the health of a population, the longevity of individual members, and their freedom from disease, but it can also be anticipatory, geared to the prevention of illness, rather than simply the provision of care and treatment. In the way public health deals with healthy as well as sick people it is therefore a separate concept from health services, which deal with the sick population. Drawing on a wide range of international examples, Berridge demonstrates the central role of history to understanding the amorphous nature of public health today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Education Gary Thomas, 2021 This new edition explores how and why education has evolved as it has, examining the ways in which it has responded over the centuries to influences in politics, philosophy, and the social sciences. Focussing on

education today, it considers the controversies over progressive versus formal teaching, and also examines education worldwide.

Plato Julia Annas, 2003-02-13 This introduction to Plato focuses on the philosophy and argument of his writings, drawing the reader into Plato's way of doing philosophy, and the general themes of his thinking. It includes a brief account of Plato's life.

Comedy: A Very Short Introduction Matthew Bevis, 2012-12-20 To consider comedy in its many incarnations is to raise diverse but related questions: what, for instance, is humour, and how may it be used (or abused)? When do we laugh, and why? What is it that writers and speakers enjoy - and risk - when they tell a joke, indulge in bathos, talk nonsense, or encourage irony? This Very Short Introduction explores comedy both as a literary genre, and as a range of non-literary phenomena, experiences and events. Matthew Bevis studies the classics of comic drama, prose fiction and poetry, alongside forms of pantomime, comic opera, silent cinema, popular music, Broadway shows, music-hall, stand-up and circus acts, rom-coms, sketch shows, sit-coms, caricatures, and cartoons. Taking in scenes from Aristophanes to *The Office*, from the Roman Saturnalia to Groundhog Day, Bevis also considers comic theory from Aristotle to Freud and beyond, tracing how comic achievements have resisted as well as confirmed theory across the ages. This book takes comedy seriously without taking it solemnly, and offers an engaging study of the comic spirit which lies at the heart of our shared social and cultural life.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

We hope you enjoy this glimpse into the passion, insight, and great writing that characterizes these authors and the Very Short Introductions series.

Music: A Very Short Introduction Nicholas Cook, 2000-02-24 This stimulating Very Short Introduction to music invites us to really think about music and the values and qualities we ascribe to it. The world teems with different kinds of music-traditional, folk, classical, jazz, rock, pop-and each type of music tends to come with its own way of thinking. Drawing on a wealth of accessible examples ranging from Beethoven to Chinese zither music, Nicholas Cook attempts to provide a framework for thinking about all music. By examining the personal, social, and cultural values that music embodies, the book reveals the shortcomings of traditional conceptions of music, and sketches a more inclusive approach emphasizing the role of performers and listeners. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject

quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

American History: A Very Short Introduction Paul S. Boyer, 2012-08-16 In a miracle of concision, Paul S. Boyer provides a wide-ranging and authoritative history of America, capturing in a compact space the full story of our nation. Ranging from the earliest Native American settlers to the presidency of Barack Obama, this Very Short Introduction offers an illuminating account of politics, diplomacy, and war as well as the full spectrum of social, cultural, and scientific developments that shaped our country. Here is a masterful picture of Americas achievements and failures, large-scale socio-historical forces, and pivotal events. Boyer sheds light on the colonial era, the Revolution and the birth of the new nation; slavery and the Civil War; Reconstruction and the Gilded Age; the Progressive era, the Roaring Twenties and the Great Depression; the two world wars and the Cold War that followed; right up to the tragedy of 9/11, the wars in Iraq and Afghanistan, and the epoch-making election of Barack Obama. Certain broad trends shape much of the narrative--immigration, urbanization, slavery, continental expansion, the global projection of U.S. power, the centrality of religion, the progression from an agrarian to an industrial to a post-industrial economic order. Yet in underscoring such large themes, Boyer also highlights the diversity of the American experience, the importance of individual actors, and the crucial role of race, ethnicity, gender, and social class in shaping the contours of specific groups within the nations larger tapestry. And along the way, he touches upon the cultural milestones of American history, from Tom Paines *The Crisis* to Allen Ginsbergs *Howl*. *American History: A Very Short Introduction* is a panoramic history of the United States, one that covers virtually every topic of importance--and yet can be read in a single day.

Lincoln: A Very Short Introduction Allen C. Guelzo, 2009-02-05 Beneath the surface of the apparently untutored and deceptively frank Abraham Lincoln ran private tunnels of self-taught study, a restless philosophical curiosity, and a profound grasp of the fundamentals of democracy. Now, in *Lincoln: A Very Short Introduction*, the award-winning Lincoln authority Allen C. Guelzo offers a penetrating look into the mind of one of our greatest presidents. If Lincoln was famous for reading aloud from joke books, Guelzo shows that he also plunged deeply into the mainstream of nineteenth-century liberal democratic thought. Guelzo takes us on a wide-ranging exploration of problems that confronted Lincoln and liberal democracy--equality, opportunity, the rule of law, slavery, freedom, peace, and his legacy. The book sets these problems and Lincoln's responses against the larger world of American and trans-Atlantic liberal democracy in the 19th century, comparing Lincoln not just to Andrew Jackson or John Calhoun, but to British thinkers such as Richard Cobden, Jeremy Bentham, and John Bright, and to French observers Alexis de Tocqueville and François Guizot. The Lincoln we meet here is an Enlightenment figure who struggled to create a common ground between a people focused on individual rights and a society eager to establish a certain moral, philosophical, and intellectual bedrock. Lincoln insisted that liberal democracy had a

higher purpose, which was the realization of a morally right political order. But how to interject that sense of moral order into a system that values personal self-satisfaction--the pursuit of happiness--remains a fundamental dilemma even today. Abraham Lincoln was a man who, according to his friend and biographer William Henry Herndon, lived in the mind. Guelzo paints a marvelous portrait of this Lincoln--Lincoln the man of ideas--providing new insights into one of the giants of American history. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

The U.S. Congress: A Very Short Introduction Donald A. Ritchie, 2010-07-06 Many scholars believe that the framers of the Constitution intended Congress to be the preeminent branch of government. Indeed, no other legislature in the world approaches its power. Yet most Americans have only a murky idea of how it works. In *The U.S. Congress*, Donald A. Ritchie, a congressional historian for more than thirty years, takes readers on a fascinating, behind-the-scenes tour of Capitol Hill--pointing out the key players, explaining their behavior, and translating parliamentary language into plain English. No mere civics lesson, this eye-opening book provides an insider's perspective on Congress, matched with a professional historian's analytical insight. After a swift survey of the creation of Congress by the constitutional convention, he begins to unscrew the nuts and pull out the bolts. What is it like to campaign for congress? To attract large donors? To enter either house with no seniority? He answers these questions and more, explaining committee assignments (and committee work), the role of staffers and lobbyists, floor proceedings, parliamentary rules, and coalition building. Ritchie explores the great effort put into constituent service--as representatives and senators respond to requests from groups and individuals--as well as media relations and news coverage. He also explores how the grand concepts we all know from civics class--checks and balances, advise and consent, congressional oversight--work in practice, in an age of strong presidents and a muscular Senate minority (no matter which party is in that position). In this sparkling addition to Oxford's Very Short Introduction series, Donald Ritchie moves beyond the cynicism and the platitudes to provide a gem of a portrait of how Congress really works.

Autism: A Very Short Introduction Uta Frith, 2008-10-23 What is autism and Asperger syndrome? What are the core symptoms, and what causes them? How early can autism be recognised and what can be done? Why does autism seem to be more and more common? Are we all a little bit autistic? This Very Short Introduction offers a clear statement on what is currently known about autism and Asperger syndrome. Looking at symptoms from the full spectrum of autistic disorders, and evaluating current evidence from neuroscience and genetics, this authoritative and accessible book explores the source and nature of social impairment and exceptional talent. *Autism: A Very Short Introduction* gives a glimpse of life seen through the eyes of autism.--BOOK JACKET.

Aristotle: A Very Short Introduction Jonathan Barnes,2000-10-12 In this book, Jonathan Barnes examines Aristotle's scientific researches, his discoveries in logic and his metaphysical theories, his work in psychology and in ethics and politics, placing his teachings in their historical context.

Thinking and Reasoning Jonathan St. B. T. Evans,2017 Thinking is the essence of what it means to be human and defines us more than anything else as a species. Jonathan Evans explores cognitive psychological approaches to understanding the nature of thinking and reasoning, problem solving, and decision making.

Hegel Peter Singer,2001-08-23 Many people regard Hegel's work as obscure and extremely difficult, yet his importance and influence are universally acknowledged. Professor Singer eliminates any excuse for remaining ignorant of the outlines of Hegel's philosophy by providing a broad discussion of his ideas and an account of his major works. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Old Testament: A Very Short Introduction Michael Coogan,2008-03-28 Eminent biblical scholar Michael D. Coogan offers here a wide-ranging and stimulating exploration of the Old Testament, illuminating its importance as history, literature, and sacred text. Coogan explains the differences between the Bible of Jewish tradition (the Hebrew Bible) and the Old Testament of Christianity, and also examines the different contents of the Bibles used by Roman Catholics, Eastern Orthodox Christians, and Protestants. He looks at the rise of modern biblical scholarship as well as the recovery of ancient Near Eastern literatures and their significance for biblical interpretation. Coogan explores the use of invented dialogue and historical fiction in the Old Testament, the presence of mythic elements in apparently historical accounts, and the relationship of ancient Israelite myths to those of their neighbors. The book considers the Old Testament's idea of divine justice, especially in Ecclesiastes and Job, and looks at notions of the afterlife in the ancient Near East and in ancient Israel. Coogan highlights the significance of the history and literature of the Old Testament and describes how non-biblical evidence, such as archaeological data and texts, has placed the Old Testament in a larger and more illuminating context. The book also discusses law and ritual in the Bible as well as the biblical understandings of prophecy. Here then is a marvelous overview of one of the great pillars of Western religion and culture, a book whose significance has endured for thousands of years and which remains vitally important today for Jews, Christians, and Muslims worldwide. About the Series: Oxford's Very Short Introductions offers concise and original introductions to a wide range of subjects--from Islam to Sociology, Politics to Classics, and Literary Theory to History. Not simply a textbook of definitions, each volume provides trenchant and provocative--yet always balanced and complete--discussions of the central issues in a given topic. Every Very Short Introduction gives a readable evolution of the subject in question, demonstrating how it has developed and influenced

society. Whatever the area of study, whatever the topic that fascinates the reader, the series has a handy and affordable guide that will likely prove indispensable.

The Trojan War: A Very Short Introduction Eric H. Cline, 2013-05-30 Using a combination of archaeological data, textual analysis, and ancient documents, this Very Short Introduction to the Trojan War investigates whether or not the war actually took place, whether archaeologists have correctly identified and been excavating the ancient site of Troy, and what has been found there.

Anarchism: A Very Short Introduction Colin Ward, 2004-10-21 What do anarchists want? Can anarchy ever function effectively as a political force? Is anarchism more 'organized' and 'reasonable' than is currently perceived? Colin Ward explains what anarchism means and who anarchists are in this illuminating and accessible introduction to the subject.

Foucault: A Very Short Introduction Gary Gutting, 2005-03-24 Foucault is one of those rare philosophers who has become a cult figure. Born in 1926 in France, over the course of his life he dabbled in drugs, politics, and the Paris SM scene, all whilst striving to understand the deep concepts of identity, knowledge, and power. From aesthetics to the penal system; from madness and civilisation to avant-garde literature, Foucault was happy to reject old models of thinking and replace them with versions that are still widely debated today. A major influence on Queer Theory and gender studies (he was openly gay and died of an AIDS-related illness in 1984), he also wrote on architecture, history, law, medicine, literature, politics and of course philosophy, and even managed a best-seller in France on a book dedicated to the history of systems of thought. Because of the complexity of his arguments, people trying to come to terms with his work have desperately sought introductory material that makes his theories clear and accessible for the beginner. Ideally suited for the Very Short Introductions series, Gary Gutting presents a comprehensive but non-systematic treatment of some highlights of Foucault's life and thought. Beginning with a brief biography to set the social and political stage, he then tackles Foucault's thoughts on literature, in particular the avant-garde scene; his philosophical and historical work; his treatment of knowledge and power in modern society; and his thoughts on sexuality. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

American Immigration: A Very Short Introduction David A. Gerber, 2011-06-08 Americans have come from every corner of the globe, and they have been brought together by a variety of historical processes--conquest, colonialism, the slave trade, territorial acquisition, and voluntary immigration. A thoughtful look at immigration, anti-immigration sentiments, and the motivations and experiences of the migrants themselves, this book offers a compact but wide-ranging look at one of America's persistent hot-button issues. Historian David Gerber begins by examining the many legal efforts to curb

immigration and to define who is and is not an American, ranging from the Naturalization Law of 1795 (which applied only to free-born white persons) to the Chinese Exclusion Act of 1882, the Emergency Quota Act of 1921, and the reform-minded Immigration and Nationality Act of 1965, which opened the door to millions of newcomers, the vast majority from Asia and Latin America. The book also looks at immigration from the perspective of the migrant--farmers and industrial workers, mechanics and domestics, highly trained professionals and small-business owners--who willingly pulled up stakes for the promise of a better life. Throughout, the book sheds light on the relationships between race and ethnicity in the life of these groups and in the formation of American society, and it stresses the marked continuities across waves of immigration and across different racial and ethnic groups. A fascinating and even-handed historical account, this book puts into perspective the longer history of calls for stronger immigration laws and the on-going debates over the place of immigrants in American society. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

Oxford University Press Very Short Introductions Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices.

The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Oxford University Press Very Short Introductions free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Oxford University Press Very Short Introductions free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an

advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Oxford University Press Very Short Introductions free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Oxford University Press Very Short Introductions. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Oxford University Press Very Short Introductions any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Oxford University Press Very Short Introductions Books

How do I know which eBook platform is the best for me?
Finding the best eBook platform depends on your reading

preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Oxford University Press Very Short Introductions is one of the best book in our library for free trial. We provide copy of Oxford University Press Very Short Introductions in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Oxford University Press Very Short Introductions. Where to download Oxford University Press Very Short Introductions online for free? Are you looking for Oxford University Press Very Short Introductions PDF? This is definitely going to save you time and cash in something you should think about.
