Let's Get Real Martha Caldwell, Oman Frame, 2022-02-15 This is a vital resource for any teacher or administrator looking to help students tackle issues of race, class, gender, religion, and cultural background. Authors Martha Caldwell and Oman Frame, both lifelong educators, offer a series of teaching strategies designed to encourage conversation and personal reflection, enabling students to think creatively, rather than stereotypically, about difference. Using the Transformational Inquiry method, your students will learn to explore their own identities, share stories and thoughts with their peers, learn more through reading and research, and ultimately take personal and collaborative action to affect social change in their communities. This second edition's updates include new research throughout, as well as additional lessons on gender and sexuality. The lesson plans and handouts throughout the book are appropriate for middle and high school classes and are easy to implement into your own curriculum.

RealWorld Evaluation Michael Bamberger, Jim Rugh, Linda Mabry, 2011-11-29 This book addresses the challenges of conducting program evaluations in real-world contexts where evaluators and the agencies face budget and time constraints and where critical data is missing. The book is organized around a seven-step model developed by the authors, which has been tested and refined in workshops. Vignettes and case studies—representing evaluations from a variety of geographic regions and sectors—demonstrate adaptive possibilities for small projects with budgets of a few thousand dollars to large-scale, long-term evaluations. The text incorporates quantitative, qualitative, and mixed-method designs and this Second Edition reflects important developments in the field over the last five years.

Our Social World Jeanne H. Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2016-11-30 Inspire your students to develop their sociological imaginations in *Our Social World*. Focused on deep learning rather than memorization, this book encourages readers to analyze, evaluate, and apply information about the social world; to see the connection between the world and personal events from a new perspective; and to confront sociological issues on a day-to-day basis. Organized around the Social World Model, a conceptual framework used across chapters to see the complex links between various micro- to macro-levels of the social system, students will develop the practice of using three levels of analysis, and to view

sociology as an integrated whole, rather than a set of discrete subjects.

Our Social World: Condensed Jeanne H. Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2017-06-26 *Our Social World: Introduction to Sociology, Condensed*, inspires students to develop their sociological imaginations, to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. The award-winning author team of Jeanne H. Ballantine, Keith A. Roberts, and Kathleen Odell Korgen organizes the text around the Social World Model," a conceptual framework that demonstrates the relationships among individuals (the micro level); organizations, institutions, and subcultures (the meso level); and societies and global structures (the macro level). The application of this model across chapters helps students practice using the three levels of analysis and view sociology as an integrated whole rather than a set of discrete subjects. The Fifth Edition of the Condensed version is adapted from *Our Social World: Introduction to Sociology* and is one-third shorter by streamlining boxes and the main narrative, and combining four chapters into two (Family/Education, and Politics/Economics). **New and Key Features** A new full-length chapter on health, illness, and healthcare has been added. Several chapters have been reorganized with updated data, added studies, and newly emerging emphases in sociology. Six new "Sociologists in Action" features added. Four new "Engaging Sociology" features added with new opportunities for data analysis by students. 100 new or updated Tables and Figures, nearly 500 new references, and dozens of older references removed. Many sentences and definitions in the book have been revised for brevity and clarity, and the glossary has been updated for better correspondence with the text. Links to exceptional teaching resources from A.S.A.'s TRAILS (Teaching Resources and Innovation Library for Sociology) available in SAGE coursepacks. MCAT Guide maps chapter content to Foundational Concepts and Content Categories in Section 3 of the MCAT test available in SAGE coursepacks.

Billionaires in World Politics Peter Hägel, 2020-12-07 *Billionaires in World Politics* shows how the privatization of politics assumes a new dimension when billionaires wield power in world politics, which requires a re-thinking of individual agency in International Relations. Structural changes (globalization, neoliberalism, competition states, and global governance) have generated new opportunities for individuals to become extremely rich and to engage in politics across borders. The political agency of billionaires is being conceptualized in terms of capacities, goals, and power, which is contingent upon the specific political field a billionaire is trying to enter. Six case studies explore the power of billionaires in their pursuit of security, wealth, and esteem. The chapter on security analyzes Raj Rajaratnam's relationship to the Tamil cause in Sri Lanka, and Sheldon Adelson's transnational electioneering in the Israel-Palestine conflict. Regarding the economy, the book studies how the Koch brothers' political protection of fossil fuels is affecting climate change mitigation, and how Rupert Murdoch's opinion-shaping is valorizing conservatism across borders. The chapter on social entrepreneurship and esteem examines the role of Bill Gates in the governance of global health and George Soros's attempts to build open societies as a 'stateless

statesman'. An analytical conclusion evaluates the prior findings in order to address three major questions: Is it more appropriate to see billionaires as 'super-actors', or as a global 'super-class'? What is the relative power of billionaires within the international system? What does the power of billionaires mean for the liberal norms of legitimate political order?

The Bloomsbury Handbook of Rural Education in the United States Amy Price Azano, Karen Eppley, Catharine Biddle, 2021-09-09 This handbook begins with a foundational overview of rural education, examining the ways in which definitions, histories, policies, and demographic changes influence rural schools. This foundational approach includes how corporatization, population changes, poverty, and the role of data affect everyday learning in rural schools. In following sections, the contributors consider how school closures, charter schools, and district governance influence decision making in rural schooling, while also examining the influence of these structures on higher education attainment, rural school partnerships, and school leadership. They explore curriculum studies in rural education, including place-based and trauma-informed pedagogies, rural literacies, rural stereotype threat, and achievement. Finally, they engage with issues of identity and equity in rural schools by providing an overview of the literature related to diverse populations in rural places, including Indigenous, Black, and Latinx communities, and exceptional learners. Importantly, this handbook applies theoretical tools to rural classroom experiences, demonstrating the potential of work centered at the intersection of theory, rurality, and classroom practice. Each section concludes with a response by an international scholar, situating the topics covered within the broader global context.

Sociology David M. Newman, 2022-10-14 In the Fourteenth Edition of *Sociology: Exploring the Architecture of Everyday Life*, David Newman shows students how to see the unfamiliar in the familiar—to step back and see organization and predictability in their take-for-granted personal experiences. With his approachable writing style and lively anecdotes, the author's goal from the first edition has been the same: to write a textbook that reads like a real book. Many adopters of this book are fans of Peter Berger's classic works, which helped introduce the idea of social constructionism to sociology. Newman uses the metaphors of architecture and construction to help students understand that society is not something that exists out there, independently of themselves; it is a human creation that is planned, maintained, or altered by individuals. Using vivid prose, current examples, and fresh data, this text presents a unique and thought-provoking overview of how society is constructed and experienced. Instead of surveying every subfield in sociology, the more streamlined coverage (14 chapters) focuses on the individual and society, the construction of self and society, and social inequality in the context of social structures. This title is accompanied by a complete teaching and learning package in SAGE Vantage, an intuitive learning platform that integrates quality SAGE textbook content with assignable multimedia activities and auto-graded assessments to drive student engagement and ensure accountability. Unparalleled in its ease of use and built for dynamic teaching and learning, Vantage offers customizable LMS integration and best-in-class support.

Advancing the Frontiers of Heterodox Economics Tae-Hee Jo, Zdravka Todorova, 2015-07-30 This collection of essays honors the life and work of one of the most prominent and fervent heterodox economists, Frederic S. Lee, who has been at the heart of the heterodox economics movements for the past three decades. Authors in this book demonstrate that heterodox economic has transcended the criticism of mainstream economics and, more importantly, that constructive developments are in the making by way of cross-communications among various heterodox economics traditions. Frederic S. Lee's contributions to heterodox economics are centered on three themes: the making of a history and identity of heterodox economics, heterodox microeconomics, and the heterodox analysis of social provisioning. Part I addresses the importance of history, theory, research methods, and institutions in the making of the identity of heterodox economics as an alternative to mainstream economics. Part II delves into heterodox microeconomic theories—in particular, investment, pricing, competition, markets, and market governance—as foundations of heterodox macroeconomic analyses. Part III expands the analysis of the capitalist social provisioning process with an emphasis on its subsystems and their relationships over historical time. Part IV encapsulates the life and work of Frederic S. Lee. Throughout his intellectual life Frederic S. Lee has shown to many that the development of heterodox economics is rendered possible by unselfish and ceaseless efforts to build both theory and institutions. Essays in this book attest that establishing an alternative critical theory to the status quo is not only possible but also serviceable to the majority of the population.

Power, Politics, and Society Betty Dobratz, Lisa Waldner, Timothy Buzzell, 2019-03-06 Power, Politics and Society: An Introduction to Political Sociology discusses how sociologists have organized the study of politics into conceptual frameworks, and how each of these frameworks foster a sociological perspective on power and politics in society. The handbook introduces a wide variety of current issues related to the public provision and production of goods and services. The volume documents the history of economics and fiscal doctrine, explores the theory of public goods and the structures from which resources are collected and expanded, and analyzes heavily debated issues of economics that are important to current and future practitioners of public policy and administration. Asian American Sexual Politics Rosalind S. Chou, 2012-06-07 Asian American Sexual Politics explores the topics of beauty, self-esteem, and sexual attraction among Asian Americans. The book draws on sixty in-depth interviews to show how constructions of Asian American gender and sexuality tend to reinforce the social and political dominance for whites, particularly white males, even in the supposed "post-racial" United States. Drawing on established scholarship on the intersection of race, gender, and sexuality, Asian American Sexual Politics shows how power dynamics shape the lives of young Asian Americans today. Asian American women are often constructed as hyper-sexual docile bodies, while Asian American men are often racially "castrated." The book's interview excerpts show the range of frames through which Asian Americans approach the world, as well as the counter-frames they construct. In the final chapter, author Rosalind S. Chou offers strategies for countering racialized and sexualized oppression. This provocative book shows how persistent racism affects Asian American body image, self-esteem, and intimate relationships.

The Antidote Peter Beresford, 2025-05-28 The gap between personal and formal politics has been widening globally and locally. As personal politics have become more inclusive and egalitarian inspired by new social movements, neoliberal ideologies have undermined democracy, increasing isolation, inequality, poverty, disease and environmental threat. Yet this paradox may also offer a path to transformation. Using international evidence and examples, *The Antidote* explores what we can learn from the equalisation of personal roles and relationships that's been taking place, to help us reconnect with ourselves and each other and make possible more participatory and liberatory policy and politics. It sets out the barriers we face and offers a route map to bring an end to the destructive effects of unfettered neoliberal ideology, economics, policy and politics.

Can Peace Research Make Peace? Timo Kivimäki, 2016-04-15 This book is about the process and, more generally, about the opportunities that peace research and the teaching of conflict resolution can offer academic diplomacy. As such the book is both an empirical and a theoretical project. While it aims at being the most comprehensive analysis of the conflict in West Kalimantan, it also launches a new theoretical approach, neo-pragmatism, and offers lessons for the prevention of conflicts elsewhere. While being based on the classical pragmatist theories of truth and explanation, the approach developed in this book incorporates the complications to social science theory caused by the 'discovery' of socially constructed realities, and concepts such as speech acts. Yet, instead of just theorizing speech acts and social constructs, the theoretical mission is to offer pragmatic, detailed, concrete prescriptions of what to do to deconstruct realities that threaten peace by the means available for research and scholars of peace.
