Golden Dreams Kevin Starr,2011-09-09 A narrative tour de force that combines wide-ranging scholarship with captivating prose, Kevin Starr's acclaimed multi-volume *Americans and the California Dream* is an unparalleled work of cultural history. In this volume, Starr covers the crucial postwar period--1950 to 1963--when the California we know today first burst into prominence. Starr brilliantly illuminates the dominant economic, social, and cultural forces in California in these pivotal years. In a powerful blend of telling events, colorful personalities, and insightful analyses, Starr examines such issues as the overnight creation of the postwar California suburb, the rise of Los Angeles as Super City, the reluctant emergence of San Diego as one of the largest cities in the nation, and the decline of political centrism. He explores the Silent Generation and the emergent Boomer youth cult, the Beats and the Hollywood Rat Pack, the pervasive influence of Zen Buddhism and other Asian traditions in art and design, the rise of the University of California and the emergence of California itself as a utopia of higher education, the cooling of West Coast jazz, freeway and water projects of heroic magnitude, outdoor life and the beginnings of the environmental movement. More broadly, he shows how California not only became the most populous state in the Union, but in fact evolved into a mega-state en route to becoming the global commonwealth it is today. *Golden Dreams* continues an epic series that has been widely recognized for its signal contribution to the history of American culture in California. It is a book that transcends its stated subject to offer a wealth of insight into the growth of the Sun Belt and the West and indeed the dramatic transformation of America itself in these pivotal years following the Second World War.

San Francisco Helene Goupil,Josh Krist,2005 Arsenal's Unknown City series of alternative guidebooks designed for tourists and hometowners alike turns its attention to the City by the Bay: San Francisco, where stories of notorious murders, city hall scandals, and untold tales of Chinatown, Haight-Ashbury, and Castro Street share pages with secret dining pleasures, shopping meccas, and nightclub hotspots. From the Summer of Love back in the 1960s to the Winter of Love in

2004, when the mayor of San Francisco made the city the center of the nation's gay marriage debate, San Francisco has consistently been one of America's most colorful and offbeat urban oases. From pot dispensaries in the Lower Haight to the nightspots in the heavily Hispanic Mission district to private karaoke rooms in Japan Town, all of San Francisco's hidden nooks and crannies are exposed. There's info on the Castro district, the heartland of America's gay community; the city's hot restaurant scene, home to arguably the best dining in the nation; tidbits on nearby Napa wineries; multi-level sex clubs; and the alleged whereabouts of active opium dens. There's also the story of the confrontation between Orson Welles and William Randolph Hearst at the St. Francis Hotel, when Hearst refused Welles' offer of tickets to the premiere of *Citizen Kane*; the legacy of Alcatraz and legendary prison escape attempts; and notes on San Francisco icons like the Golden Gate Bridge and the Transamerica Building. Ebullient and chock-a-block with facts and figures, this book raises a glass to life in the City by the Bay. Two-color throughout; includes a BART transportation route map. Helene Goupil and Josh Krist are editor and publisher, respectively, of *InsideOut Travel* magazine, a bimonthly online travel publication that caters to the traveler/adventurer at heart. Helene, Josh, and *InsideOut* (www.insideoutmag.com) are based in San Francisco.

Victor Papanek Alison J. Clarke, 2021-03-23 The history and controversial roots of the social design movement, explored through the life and work of its leading pioneer, Victor Papanek. In *Victor Papanek: Designer for the Real World*, Alison Clarke explores the social design movement through the life of its leading pioneer, the Austrian American designer, theorist, and activist Victor Papanek. Papanek's 1971 best seller, *Design for the Real World: Human Ecology and Social Change* has been translated into twenty-two languages and never fallen out of print. Its politics of social design, anti-corporatism, and environmental sustainability have found renewed pertinence in the twenty-first century and dominate the agendas of design schools today. Drawing extensively on previously unexplored archival sources, Clarke uncovers and contextualizes the

movement's controversial origins and contradictions.

Baghdad-by-the-Bay; Illustrated by Howard Brodie Herb Caen, 1965

Between Iraq and a Hard Place John Norman, 2022-11-03 On August 2, 1990, Saddam Hussein launched an invasion of Kuwait that ransacked the country, killed scores of innocent people, and destroyed the country's petroleum infrastructure. Eventually bringing together an allied coalition to turn back Saddam's forces and free Kuwait. But how many people actually know the events occurring in Iraq in the year preceding the invasion from inside the ruling party? I worked as a civilian contractor for close to a year directly for the Revolutionary Command Council, leading a team of Western technicians to modernize banking in the country. On the day of the Kuwait invasion, I, along with hundreds of others were taken hostage as collateral by the Iraqi government. Fearing my own death as well as my immediate colleagues, I led an escape across two deserts five days later to safety in Jordan. I had no previous military training; only the sheer will not to perish as a result of the US government nor forfeit my life for corporate bosses who failed to intervene in any way to help us. This is the story of what I saw in the year preceding Desert Shield that you never heard nor read about, as well as events that followed at the conclusion of Desert Storm. What life was like for a then peace-loving people, the regime and how it operated, the betrayals, the Super Gun, Uday Hussein, the gassing of the Kurds at Halabja, the WMD and the destruction of this stockpile by the US military that caused Gulf War syndrome, and the after effects on our troops which the US government denied for years and years. Thousands and their offspring suffer from these results today and will for generations to come. I never returned to Iraq, but shortly after Desert Storm I did go to perform a similar assignment in the Kingdom of Saudi Arabia while the oil wells were still on fire in the desert. There, I was also an insider to the workings of the government, the attempt to recover the stolen gold, the corruption in the ruling family, the hypocrisy of the country, and the plight of the Palestinian people working and living in the kingdom for backing Iraq in its war with the allies. Although I waited a quarter of a century to publish this book for fear of retribution for the material in it, I hope this story sheds light on a war and the destruction of a nation and its people that really did not have to be fought at all. I am still traumatized both mentally and physically from the experience and likely will be for the remainder of my natural life. Believe me, it's a lot easier to do in the movies, and it pays a whole lot better! But it also taught me a valuable life lesson: if you think time heals all wounds, it doesn't. That is why they call a scar a scar!

Super Bowl by the Bay Karen E. Sweetland, 1984

San Francisco Bay Area Sports Rita Liberty, Maureen Smith, 2017-03-15 San Francisco Bay Area Sports brings together fifteen essays covering the issues, controversies, and personalities that have emerged as northern Californians recreated and competed over the last 150 years. The area's diversity, anti-establishment leanings, and unique and beautiful natural surroundings are explored in the context of a dynamic sporting past that includes events broadcast to millions or activities

engaged in by just a few. Professional and college events are covered along with lesser-known entities such as Oakland's public parks, tennis player and Bay Area native Rosie Casals, environmentalism and hiking in Marin County, and the origins of the Gay Games. Taken as a whole, this book clarifies how sport is connected to identities based on sexuality, gender, race, and ethnicity. Just as crucial, the stories here illuminate how sport and recreation can potentially create transgressive spaces, particularity in a place known for its nonconformity.

Little, 1995-05 A description of the citizen-led effort to get Americans out of their cars and into the landscape via greenways - linear open spaces that preserve and restore nature in cities, suburbs and rural areas. Left Coast City Richard Edward DeLeon, 1992 This book provides insight into how San Francisco's progressive coalition developed between 1975 and 1991, what stresses emerged to cause splintering within the coalition, and how it fell apart in the 1991 mayoral campaign. DeLeon analyzes the success and failures of the progressive movement as it toppled the business-dominated pro-growth regime, imposed stringent controls on growth and development, and achieved political control of city hall.

Into the Void Pacific Andrew Shanken, 2015-01-16 Published on the occasion of the expo's 75th anniversary, Into the Void

Pacific is the first architectural history of the 1939 San Francisco World's Fair. While fairs of the 1930's turned to the future as a foil to the Great Depression, the Golden Gate International Exposition conjured up geographical conceits to explore the nature of the city's place in what organizers called Pacific Civilization. Andrew Shanken adopts D.H. Lawrence's suggestive description of California as a way of thinking about the architecture of the Golden Gate International Exposition, using the phrase 'Void Pacific' to suggest the isolation and novelty of California and its habit of looking West rather than back over its shoulder to the institutions of the East Coast and Europe. The fair proposed this vision of the Pacific as an antidote to the troubled Atlantic world, then descending into chaos for the second time in a generation. Architects took up the theme and projected the regionalist sensibilities of Northern California onto Asian and Latin American architecture. Their eclectic, referential buildings drew widely on the cultural traditions of ancient Cambodia, China, and Mexico, as well as the International Style, Art Deco, and the Bay Region Tradition. The book explores how buildings supported the cultural and political work of the fair and fashioned a second, parallel world in a moment of economic depression and international turmoil. Yet it is also a tale of architectural compromise, contingency, and symbolism gone awry. With chapters organized around the creation of Treasure Island and the key areas and pavilions of the fair, this study takes a cut through the work of William Wurster, Bernard Maybeck, Timothy Pflueger, and Arthur Brown, Jr., among others. Shanken also looks closely at buildings as buildings, analyzing them in light of local circumstances, regionalist sensibilities, and national and international movements at that crucial moment when modernism and the Beaux-Arts intersected dynamically.
