Van Nostrand's Scientific Encyclopedia Douglas M. Considine, Glenn D. Considine, 2013-12-11 Advancements in science and engineering have occurred at a surprisingly rapid pace since the release of the seventh edition of this encyclopedia. Large portions of the reference have required comprehensive rewriting and new illustrations. Scores of new topics have been included to create this thoroughly updated eighth edition. The appearance of this new edition in 1994 marks the continuation of a tradition commenced well over a half-century ago in 1938 Van Nostrand's Scientific Encyclopedia, First Edition, was published and welcomed by educators worldwide at a time when what we know today as modern science was just getting underway. The early encyclopedia was well received by students and educators alike during a critical time span when science became established as a major factor in shaping the progress and economy of individual nations and at the global level. A vital need existed for a permanent science reference that could be updated periodically and made conveniently available to audiences that numbered in the millions. The pioneering VNSE met these criteria and continues today as a reliable technical information source for making private and public decisions that present a backdrop of technical alternatives.

Implosion!!! Melvia F. Miller, 2005-11-13 THE SPIRITUAL DREAM One day in the 21st Century, God went unto Noah, who was living in the U. S. in Harlem, NY-and said, Again, the earth has become wicked. Build another Ark and save 2 of every living thing and a few good humans. He gave Noah instructions, You have 6 months to build it before I start the storms. Six months later, God looked down and saw Noah weeping in his yard-but no Ark. Noah! He roared, Where is the Ark? Forgive me, God, begged Noah, but I needed a building permit. I've been arguing with the code inspector. I know you want

decent humans-so I tried to test for those who are reasonably healthy. This will take a long time because most are filled with drugs of one kind or another. And if all that is not enough-the Dept. of Homeland Security has me under investigation for plotting to kidnap citizens. And you may have heard about the pathetic way FEMA handled the folks in the Super Dome after a hurricane. FEMA won't let me do any type of rescuing. So, forgive me, Great One, but it would take at least 10 years for me to finish this Ark. Suddenly a rainbow stretched across the sky. Noah looked up in wonder and asked, You're not going to destroy the world? No, said God. This is a new situation red tape beat me to the punch. Renewal may require a more ancient solution.
