Karuna

CRC World Dictionary of Medicinal and Poisonous Plants Umberto Quattrocchi, 2016-04-19 Written as a reference to be used within University, Departmental, Public, Institutional, Herbaria, and Arboreta libraries, this book provides the first starting point for better access to data on medicinal and poisonous plants. Following on the success of the author's CRC World Dictionary of Plant Names and the CRC World Dictionary of Grasses, the author provides the names of thousands of genera and species of economically important plants. It serves as an indispensable time-saving guide for all those involved with plants in medicine, food, and cultural practices as it draws on a tremendous range of primary and secondary sources. This authoritative lexicon is much more than a dictionary. It includes historical and linguistic information on botany and medicine throughout each volume.

Delicious Recipes from Andhra Karuna, 1993-01-01 Andhra cuisine can best be described in one word: tantalizing. Whether it is the tangy, sour pulusu, the flaming hot chutneys and pickles, or the mouth-watering sorrel (gongura), the flavours of Andhra Pradesh whip up your appetite again and again. A traditional Andhra meal is a gourmet's delight. A splendid five-course affair, it begins with a chutney, powder or pickle (avakkai), followed by rice of course, a curry (rasam or sambhar), a pulusu and finally, the cooling yoghurt (perugu). This book brings you over a 100 authentic vegetarian and special non-vegetarian Andhra delights, all detailed with step-by-step instructions. Along with exciting your palate, it proves that cooking Andhra food can be as great a pleasure as eating it.
