"Right Makes Might" Wolfgang Mieder, 2019-04-04 "A powerful and timely addition to the literature of rhetoric and folklore." —Choice In 1860, Abraham Lincoln employed the proverb Right makes might—opposite of the more aggressive Might makes right—in his famed Cooper Union address. While Lincoln did not originate the proverb, his use of it in this critical speech indicates that the fourteenth century phrase had taken on new ethical and democratic connotations in the nineteenth century. In this collection, famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States, from their early beginnings up through their use by such modern-day politicians as Barack Obama, Hillary Rodham Clinton, and Bernie Sanders. Building on previous publications and unpublished research, Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics, women's rights, and the civil rights movement—and by looking at the use of proverbial phrases, Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time, and how they continue to play a key role in our contemporary moment.

Worth a Thousand Words Wolfgang Mieder,2025-08-15 In 2014, Wolfgang Mieder published *Behold the Proverbs of a People: Proverbial Wisdom in Culture, Literature, and Politics* with the University Press of Mississippi. The book created an informative entry into the world of proverb scholarship, illustrating that proverbs have always been and continue to be wisdom's international currency. Picking up where *Behold the Proverbs of a People* left off, this new book brings traditional proverbs into the modern era, analyzing proverbs under four headings: American proverbs, proverbs in politics, proverbs in literature, and proverbs in culture. Within these sections, a wide array of proverbs and the topics they express are addressed and shown to still be relevant to the political and cultural landscape of today. *Worth a Thousand Words* discusses the global spread of American proverbs and the reliance of proverbs in politics and everyday life in America and internationally. It also examines proverbs in literature such as *Don Quixote* and *Destined to Witness*, as well as proverbs in fairy tales. Proving the pen is mightier than the sword, Mieder's book demonstrates the ubiquity of proverbs. By recognizing and documenting the proverbial linguistic patterns of our culture, people, and systems, Mieder shows us how creative language serves as the guideposts for a free and idealistic world for ages past and ages to come.

Presidential Maxims Raymond Roberson,2021-03-11 POTUS—does the name give you a positive or negative reaction? In a time where our country is extremely divided about the current Presidential role, those reactions are mixed, but it is certain that this role has shaped our past, is still relevant to our day, and will affect our future. With his power limited by the checks and balances of the federal branches and his duty as commander in chief aside, a President's influence can be felt most keenly in the attitudes his demeanor fosters among his nation's citizens, it is that influence that drives this book's focus. Forty-five men in our history have defined this role, and their contributions establish a pattern of leadership that we can benefit from now and reap rewards from their influence, as individuals, to bring change to our communities and ultimately to our country. Leadership traits are identified herein for the first nineteen Presidents with birthdays from January to June chronologically, their life experiences summarized with brevity to show learned behaviors that can foster a successful life, along with quotations that reflect their personal philosophies. For instance, the well-respected George Washington said of his personal standard, I hope I shall always possess firmness and virtue enough to maintain what I consider the most enviable title the character of an honest man. Through study and personal application of the maxims like these and traits manifest in

these men, we can each enrich our own domain
