*Analysing Media Discourses* John E. Richardson,Joseph D. Burridge,2014-02-25 The continual growth in the significance of mass-mediated communication makes it essential that we are able to reflect upon and critically appreciate the semiotic processes that are involved in their impact upon social and cultural life. This edited collection showcases a range of diverse approaches to the analysis of various forms of mediated communications, including varying degrees of attention to their associated textual, discursive and social practices. Individual contributions are devoted to exploring, in analytical depth, multiple dimensions of each of the following media: newspaper articles, magazines (both historical advertising and contemporary editorial discourse), television (both situation comedy and reality TV programmes), books (covers and content in two genres), political leaflets, and a flight simulation computer game. The collection will be an important resource for scholars and students within disciplines including communication studies, sociology, media studies, cultural studies, discourse studies, and journalism studies. This book was published as a special issue of *Social Semiotics*.

My Write to Right Purnima (Mital) Gupta,2019-01-15 As her journey from India to America continues; her perception, experience and understanding of cultural differences continue to evolve. The first-generation immigrants have struggled to establish themselves in the midst of interracial conflicts and little family support. Their children started out with an incomplete family picture, were raised in dual cultures and ended up split between wrongs and rights. Their relationships with their children are need-based or lost. Many of them don't get to see their grandchildren, let alone get to bond with them. They dream to hear their doorbell ring to hear, Yoo-hoo, where are you, Peek a boo, or I thought you were a ghost.

*Encyclopedia of American Short Films, 1926-1959* Graham Webb,2020-07-27 Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.
