Leading Learning in a Changing World Jacqueline E. Jacobs, Julie A. Rotholz, 2005 Professional development activities have proven adequate to facilitate mastery of new content, inform teachers of best practice, and for dissemination of information, however, such efforts fail to address the emotional and personal aspects of the teaching profession. Here is a hands-on activities book that provides school leaders an easy-to-use format for the delivery of professional development sessions for K-12 personnel. It details three major topics: social realities (e.g. societal trauma), diversity (e.g. Disabilities), and community conundrums (e.g. economic uncertainties). The uniqueness of this book is the activity design using children's literature to provide a neutral framework for discussion of often-difficult issues. The authors provide an opportunity for teachers to explore their underlying assumptions, unacknowledged biases, or often unspoken feelings about issues that are

central to student success. They seek to regain professional responsibility to solve problems and improve education in our ever-changing world. For administrators or teacher leaders who are on the cutting edge of facilitating professional development for problem solving issues in our schools.
