

La Vida En La Escuela Y Su Entorno

Francisco Díaz Alcaraz

Volver a pensar la educación Congreso Internacional de Didáctica,1995 El eslogan «Volver a pensar la educación» quiere ser la expresión de una necesidad imperiosa para todas aquellas personas relacionadas de distinta forma con las ideas y prácticas educativas que se sienten inseguras desde un punto de vista intelectual, ético y práctico en un mundo cambiante. Personas que no pueden disponer de referentes claros acerca de las formas de desarrollo científico y cultural de los pueblos, de modelos sociales con los que sentirse comprometidas y al servicio de los cuales poner un proyecto educativo coherente. La perplejidad y la incertidumbre son el resultado de apreciar un mundo que muestra cada vez con más crudeza ciertos rasgos de irracionalidad, de desigualdad entre grupos e individuos, así como una injusta distribución de todos los bienes, incluida la educación. Muy diversas circunstancias hacen imprescindible hoy una reflexión sobre la realidad educativa y los fundamentos que le proporcionan sus justificaciones racionales y éticas. ¿En qué consiste lo que puede ser conocimiento relevante en la sociedad actual? ¿Cuáles son los valores que se deben difundir? ¿Qué competencias conviene estimular en ciudadanas y ciudadanos para que puedan participar en un mundo que, cada vez más, tiende a ocultarles los mecanismos que explican su funcionamiento, restándoles posibilidades de consciencia y de participación comprometida y creadora? ¿Qué modelo de institución puede facilitar mejor un renovado proyecto educativo? ¿Qué prácticas son coherentes con esas pretensiones? Estas son algunas de las preguntas que no tienen hoy fácil respuesta ya las que intentan responder estos dos volúmenes. Pocas veces en una misma obra se han unido tantas voces ofreciendo materiales inéditos y puntos de vista renovados.

Metodología para asegurar entornos saludables en las escuelas participantes en el Programa de Alimentación Escolar Organización de las Naciones Unidas para la Agricultura y la Alimentación, 2023-06-22 La Comisión Nacional de Escuelas Saludables del Ministerio de Educación de Guatemala ha definido una escuela saludable como un centro educativo digno que contribuye al desarrollo de competencias básicas para la vida, favoreciendo el bienestar biológico, intelectual, emocional y social de las y los escolares, por medio de acciones integrales de promoción de la salud con la comunidad educativa y su entorno, propiciando el desarrollo humano y sostenible. La resiliencia en entornos socioeducativos Anna Forés Miavalles, Jordi Grané Ortega, 2017-01-17 Ofrecemos tres buenas razones para leer este libro y para tenerlo como guía o como punto de referencia, al cual volver para dialogar con él.

La primera razón viene dada por ser un término emergente. Por fin la resiliencia es un concepto del cual no solo hablan algunos expertos sino que ha llegado a la comunidad educativa, a los medios de comunicación y a la sociedad. Es un concepto, una metáfora de las posibilidades que hay que conocer y promover, tanto a nivel personal como comunitario: y más aún en momentos de crisis. La segunda razón es porque se trata un libro diferente al resto de la literatura existente sobre resiliencia. Aborda los elementos clave que dan sentido a la resiliencia y aquellos que la pueden promover. Ofrece una mirada plural, a través de personas que aportan su reflexión teórica, junto a su experiencia y buenas prácticas que han implementado con éxito para el desarrollo de la resiliencia en diferentes entornos socioeducativos. La tercera razón es porque todas sus páginas se han pensado para cada lector, para cada lectora. Van encaminadas y dirigidas a ellos y ellas, a su felicidad. Si el término resiliencia nos parece aún demasiado lejano, podemos pensar en nuestra felicidad, porque el camino de la resiliencia es un camino que conduce a ser feliz.

La educación Montessori. Herramientas para innovar en la escuela Natalia Manuale,2021-03-01 Este libro describe qué es la educación Montessori una educación para la vida y en la diversidad, los fundamentos filosóficos y las características principales de un enfoque en el que el niño es el protagonista de su propio aprendizaje, en el cual aprende haciendo, en interacción con un ambiente creado especialmente por un educador preparado que tiene una mirada integral del niño, y lo guía para que pueda desplegar sus habilidades y máximo potencial. El lector encontrará en este libro, preguntas y herramientas como una invitación a reflexionar sobre distintos aspectos de su tarea cotidiana, y a redescubrir aspectos del rol docente, de la preparación de su ambiente y de las propuestas pedagógicas para resignificar y enriquecer su trabajo inspirado en los aportes de esta pedagogía. La educación Montessori promueve el desarrollo de aquellas cualidades que serán esenciales para la vida del niño hoy, y del adulto del mañana: independencia, autoconocimiento de fortalezas y debilidades, autoestima, libertad de elección, pensamiento crítico, inteligencia interpersonal, capacidad de adecuarse al cambio y de resolver problemas de una forma creativa.

Educación alimentaria y nutricional en las escuelas Organización de las Naciones Unidas para la Agricultura y la Alimentación,2022-03-14 Le educación alimentaria y nutricional en las escuelas (EAN-E) ayuda a los escolares y a sus comunidades a lograr mejoras duraderas en su alimentación y otras prácticas alimentarias, así como en sus perspectivas y conocimientos; a desarrollar su capacidad para cambiar y adaptarse al cambio externo; y a transmitir su aprendizaje a otros. La EAN-E también juega un papel importante en complementar los esfuerzos globales para mejorar los entornos alimentarios y en empoderar a los niños y adolescentes para que se conviertan en participantes activos y futuros líderes en la configuración de sistemas alimentarios, que estén en mejores condiciones de ofrecer dietas saludables y sostenibles. A pesar de este creciente interés en la EAN-E, la evidencia que la respalda y en su potencial, gran parte de la EAN-E tradicional está

en gran medida subfinanciada, no produce los resultados previstos y permanece desconectada de otras intervenciones clave cuya finalidad es fortalecer los beneficios, en el nexo entre la alimentación, nutrición, ambiente y educación. Este libro blanco ha sido laborado a partir de la evidencia, la experiencia profesional y la experiencia de campo, así como en las lecciones aprendidas y los desafíos documentados del trabajo de educación alimentaria y nutricional en las escuelas en una variedad de contextos, aboga por elevar el perfil de la EAN-E, y por transformar su visión y modelo de aprendizaje en países de ingresos bajos y medianos.
