**Sissy Insurgencies** Marlon B. Ross, 2021-12-06 In *Sissy Insurgencies* Marlon B. Ross focuses on the figure of the sissy in order to rethink how Americans have imagined, articulated, and negotiated manhood and boyhood from the 1880s to the present. Rather than collapsing sissiness into homosexuality, Ross shows how sissiness constitutes a historically fluid range of gender practices that are expressed as a physical manifestation, discursive epithet, social identity, and political phenomenon. He reconsiders several black leaders, intellectuals, musicians, and athletes within the context of sissiness, from Booker T. Washington, George Washington Carver, and James Baldwin to Little Richard, Amiri Baraka, and Wilt Chamberlain. Whether examining Washington's practice of cleaning as an iteration of sissiness, Baldwin's self-fashioned sissy deportment, or sissophobia in professional sports and black nationalism, Ross demonstrates that sissiness can be embraced and exploited to conform to American gender norms or disrupt racialized patriarchy. In this way, sissiness constitutes a central element in modern understandings of race and gender.

**Richard Wright** Keneth Kinnamon, 2014-11-04 African-American writer Richard Wright (1908-1960) was celebrated during the early 1940s for his searing autobiography (*Black Boy*) and fiction (*Native Son*). By 1947 he felt so unwelcome in his homeland that he exiled himself and his family in Paris. But his writings changed American culture forever, and today they are mainstays of literature and composition classes. He and his works are also the subjects of numerous critical essays and commentaries by contemporary writers. This volume presents a comprehensive annotated bibliography of those essays, books, and articles from 1983 through 2003. Arranged alphabetically by author within years are some 8,320 entries ranging from unpublished dissertations to book-length studies of African American literature and literary criticism. Also included as an appendix are addenda to the author's earlier bibliography covering the years from 1934 through 1982. This is the exhaustive reference for serious students of Richard Wright and his critics.

**Some Men** Michael A. Messner, Max A. Greenberg, Tal Peretz, 2015 What does it mean for men to join with women as allies in preventing sexual assault and domestic violence? Based on life history interviews with men and women anti-violence activists aged 22 to 70, *Some Men* explores the strains and tensions of men's work as feminist allies. When feminist women began to mobilize against rape and domestic violence, setting up shelters and rape crisis centers, a few men asked what they could do to help. They were directed upstream, and told to talk to the men with the goal of preventing future acts of violence.

This is a book about men who took this charge seriously, committing themselves to working with boys and men to stop violence, and to change the definition of what it means to be a man. The book examines the experiences of three generational cohorts: a movement cohort of men who engaged with anti-violence work in the 1970s and early 1980s, during the height of the feminist anti-violence mobilizations; a bridge cohort who engaged with anti-violence work from the mid-1980s into the 1990s, as feminism receded as a mass movement and activists built sustainable organizations; a professional cohort who engaged from the mid-1990s to the present, as anti-violence work has become embedded in community and campus organizations, non-profits, and the state. Across these different time periods, stories from life history interviews illuminate men's varying paths--including men of different ethnic and class backgrounds--into anti-violence work. *Some Men* explores the promise of men's violence prevention work with boys and men in schools, college sports, fraternities, and the U.S. military. It illuminates the strains and tensions of such work--including the reproduction of male privilege in feminist spheres--and explores how men and women navigate these tensions. Alice Walker's Metaphysics Nagueyalti Warren, 2019-01-16 Catapulted to fame in 1982 with the publication of her third novel—the Pulitzer Prize-winning *The Color Purple*—Alice Walker has become one of America's most celebrated and divisive authors. With books such as *Meridian* and *The Third Life of Grange Copeland*, Walker's writing has frequently been cited for messages in support of civil rights and feminism. Above all, however, Walker is a spiritual seeker. Her works are dominated by the search for truth, wholeness, and the spirit that connects everyone and everything. In *Alice Walker's Metaphysics: Literature of Spirit*, Nagueyalti Warren examines the philosophy and worldview present in all of Walker's writing. Warren contends that Walker is a literary theologian, citing the transformative changes that take place in the author's fictional characters. Warren also points to Walker's bravery in approaching taboo subjects, her generosity of spirit, and her love for humanity, which are represented throughout her poems, novels, short stories, children's books, and essays. This analysis is further supplemented by primary sources from Walker's unpublished material, including notes and scrapbooks. By exploring the spirituality evident throughout the author's work, this volume shows how Walker challenges readers to recognize and understand their responsibility to the earth—and to one another. Providing a fresh, accessible look at one of the twentieth century's most prolific women writers, *Alice Walker's Metaphysics: Literature of Spirit* will appeal to both academics and fans of the author's varied literature.

**Outclassed** Joan C. Williams, 2025-05-20 An eye-opening, urgent call to mend the broken relationship between college and non-college grads of all races that is driving politics to the far right in the US. Is there a single change that could simultaneously protect democracy, spur progress on climate change, enact sane gun policies, and improve our response to the next pandemic? Yes: changing the class dynamics driving American politics. The far right manipulates class anger to undercut progressive goals and liberals often inadvertently play into their hands. In *Outclassed*, Joan C. Williams explains

how to reverse that process by bridging the “diploma divide”, while maintaining core progressive values. She offers college-educated Americans insights into how their values reflect their lives and their lives reflect their privilege. With illuminating stories—from the Portuguese admiral who led that country’s COVID response to the lawyer who led the ACLU’s gay marriage response (and more)—Williams demonstrates how working-class values reflect working-class lives. Then she explains how the far right connects culturally with the working-class, deftly manipulating racism and masculine anxieties to deflect attention from the ways far-right policies produce the economic conditions disadvantaging the working-class. Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice, *Outclassed* offers concrete guidance on how liberals can forge a multi-racial cross-class coalition capable of delivering on progressive goals.

*The New Yale Book of Quotations* Fred R. Shapiro, 2021-08-31 A revised, enlarged, and updated edition of this authoritative and entertaining reference book—named the #2 essential home library reference book by the Wall Street Journal “Shapiro does original research, earning [this] volume a place on the quotation shelf next to Bartlett's and Oxford's.”—William Safire, New York Times Magazine (on the original edition) “The most accurate, thorough, and up-to-date quotation book ever compiled.”—Bryan A. Garner, Los Angeles Review of Books Updated to include more than a thousand new quotations, this reader-friendly volume contains over twelve thousand famous quotations, arranged alphabetically by author and sourced from literature, history, popular culture, sports, digital culture, science, politics, law, the social sciences, and all other aspects of human activity. Contemporaries added to this edition include Beyoncé, Sandra Cisneros, James Comey, Drake, Louise Glück, LeBron James, Brett Kavanaugh, Lady Gaga, Lin-Manuel Miranda, Barack Obama, John Oliver, Nancy Pelosi, Vladimir Putin, Bernie Sanders, Donald Trump, and David Foster Wallace. The volume also reflects path-breaking recent research resulting in the updating of quotations from the first edition with more accurate wording or attribution. It has also incorporated noncontemporary quotations that have become relevant to the present day. In addition, *The New Yale Book of Quotations* reveals the striking fact that women originated many familiar quotations, yet their roles have been forgotten and their verbal inventions have often been credited to prominent men instead. This book’s quotations, annotations, extensive cross-references, and large keyword index will satisfy both the reader who seeks specific information and the curious browser who appreciates an amble through entertaining pages.

Comic Book Movies - Virgin Film David Hughes,2012-10-31 The superheroes are back! Since the 1970s, the film world has found inspiration in comic books and graphic novels. These days no summer is complete without a major blockbuster movie based on a comic: Superman, Batman, Spider-Man, X-Men, Men in Black, Daredevil, and The Hulk. Modern special effects have made large-scale superhero epics possible, but the diversity of the comics being published has made for a wide variety of subjects, as evidenced by Ghost World, From Hell, Akira and Road to Perdition. This book looks in detail at twenty key titles, covering every step of the development from comic book panel to feature film frame. Includes interviews with key creative artists about the evolution of the films from the original comics, and speculates about future films.

**The Synoptic Text Today and Other Essays** William F. Pinar,2006 Synoptic textbooks have played a major role in the intellectual advancement of U.S. curriculum studies. William F. Pinar argues for a new synoptic text, summarizing recent and relevant research in the academic disciplines toward the subjective and social reconstruction of the public sphere that is the school classroom. Such a reconceptualization of curriculum development enables teachers to complicate the classroom conversations they themselves will lead. Subsequent essays demonstrate the thematic and methodological forms such curriculum development might take.

**Underserved** Ja'Ron Smith,Chris Pilkerton,2023-09-05 This book provides a roadmap for modern-day conservatives to advance President Lincoln's vision to help underserved communities across our country. Underserved is a tangible blueprint for today's conservative who understands the need for a new and viable political plan of action—one that addresses the needs of the underserved communities that make up these United States of America. Utilizing the concept of the "Party of Lincoln" and the conservative principles set forth over centuries by the movement's most recognized thought leaders, Underserved examines President Lincoln's intentions for Reconstruction, President Grant's aims to implement that vision, and Frederick Douglass's influence on both men in the process. Underserved brings home the very real impact of a failed plan that has had negative implications on modern America, whether conservative, moderate, or liberal. With this historical plan as the linchpin for creating a framework that services disenfranchised communities, authors Ja'Ron K. Smith and Chris Pilkerton challenge conservative policy makers to employ strategies that mirror those originally presented over 160 years ago, while making necessary concessions for its modern audience—all of which are tied not only to the vision of these American icons, but does so in the context of traditional conservative thinkers who laid the groundwork for the modern-day Republican Party. From education and workforce development to criminal justice reform and healthcare disparities, Underserved makes a bold

statement about what is necessary to see a change in the current state of affairs and presents a realistic action plan to make it happen. Underserved identifies the foundational role of key institutions in implementing this proposed plan and ties in the economic and social components necessary for the plan to be met with success—while stressing the critical components of Intentionality, Trust, Collaboration, Outcomes, and Use of Data. This approach makes Underserved a vital read for politicians on both sides of the aisle as much as it is for everyday voters, agents of change, and all those ready to see a plan that will produce results.

**Divergent Visions, Contested Spaces** Jeffrey Hotz, 2021-04-29 This multicultural project examines fictional and non-fictional accounts of travel in the Early Republic and antebellum periods. Connecting literary representations of geographic spaces within and outside of U.S. borders to evolving definitions of national American identity, the book explores divergent visions of contested spaces. Through an examination of depictions of the land and travel in fiction and non-fiction, the study uncovers the spatial and legal conceptions of national identity. The study argues that imagined geographies in American literature dramatize a linguistic contest among dominant and marginal voices. Blending interpretations of canonical authors, such as James Fenimore Cooper, Frederick Douglass, Richard Henry Dana, Jr., and Herman Melville, with readings of less well-known writers like Gilbert Imlay, Elizabeth House Trist, Sauk Chief Black Hawk, William Grimes, and Moses Roper, the book interprets diverse authors' impressions of significant spaces migrations. The movements and regions covered include the Anglo-American migration to the Trans-Appalachian Valley after the Revolutionary War; the 1803 Louisiana Purchase and Anglo-American travel west of the Mississippi; the Underground Railroad as depicted in the fugitive slave narrative and novel; and the extension of American interests in maritime endeavors off the California coast and in the South Pacific.

*And I Quote* Ashton Applewhite, Tripp Evans, Andrew Frothingham, 1992-01-15 Collection of quotes for the successful writer and speechmaker.

**The Encarta Book of Quotations** Bill Swainson, 2000-09-30 Here are 25,000 quotations drawn from the history, politics, literature, religions, science, and popular culture of the world—ranging from the earliest Chinese sages through Shakespeare to the present day.

**Translocality in Contemporary City Novels** Lena Mattheis, 2021-03-19 Translocality in Contemporary City Novels responds to the fact that twenty-first-century Anglophone novels are increasingly characterised by translocality—the layering and blending of two or more distant settings. Considering translocal and transcultural writing as a global phenomenon, this book draws on multidisciplinary research, from globalisation theory to the study of narratives to urban studies, to explore a corpus of thirty-two novels—by authors such as Chimamanda Ngozi Adichie, Dionne Brand, Kiran Desai, and Xiaolu Guo—set in a total of ninety-seven cities. Lena Mattheis examines six of the most common strategies used in contemporary urban fiction to make translocal experiences of the world narratable and turn them into relatable stories: simultaneity, palimpsests,

mapping, scaling, non-places, and haunting. Combining and developing further theories, approaches, and techniques from a variety of research fields—including narratology, human geography, transculturality, diaspora spaces, and postcolonial perspectives—Mattheis develops a set of cross-disciplinary techniques in literary urban studies.

Not All Dead White Men Donna Zuckerberg, 2018-10-08 Some of the most controversial and consequential debates about the legacy of the ancients are raging not in universities but online, where Alt-Right men's groups deploy ancient sources to justify misogyny and a return of antifeminist masculinity. Donna Zuckerberg dives deep to take a look at this unexpected reanimation of the Classical tradition.

**Godless Americana** Sikivu Hutchinson, 2013 In *Godless Americana*, author Sikivu Hutchinson challenges the myths behind Americana images of Mom, Apple pie, white picket fences, and racially segregated god-fearing Main Street USA. In this timely essay collection, Hutchinson argues that the Christian evangelical backlash against Women's rights, social justice, LGBT equality, and science threatens to turn back the clock on civil rights. As a result of this climate, more people of color are exploring atheism, agnosticism, and freethought. *Godless Americana* examines these trends, providing a groundbreaking analysis of faith and radical humanist politics in an era of racial, sexual, and religious warfare.
