Paper Nation Tony Hughes-d'Aeth,2001 The massive, three-volume Picturesque Atlas of Australia was first published in Sydney in 1886. Its publication was one of the most significant cultural projects in 19th-century Australia. Writers, artists, academics, and politicians came together to prepare a book of unprecedented grandeur and ambition, and a publishing company was established to publish it. The 700 engravings on steel and wood contained in the Picturesque Atlas were among the finest engravings to be found anywhere in the world at this time.

European Discovery and Exploration of Australia Erwin Feeken,2019-06-21 The map of Australia abounds with fascinating geographical place-names, the origins of which have, for long, been hidden in the journals of our early explorers. Now after nine years of research, Erwin Feeken, a highly qualified cartographer, and his wife, Gerda, have finalised the first complete record of Australian geographical place-names and the most comprehensive general reference work on Australian exploration ever published. In *European Discovery and Exploration of Australia*, there are twenty-three beautifully drawn four-colour maps plus index showing the routes of more than 120 explorers with the locality of their named features numbered to accord with a Key to the Maps. The place-names in the Key have been numbered approximately in chronological order of their naming, though places found during a single expedition have been grouped together. There is also a gazetteer containing over four thousand place-names alphabetically arranged with notes on their origins. The map reference numbers (in brackets) form a cross-reference with the Key to the Maps. The work is introduced by a foreword from Lord Casey and an

essay on the nature of Australian exploration by Professor O. H. K. Spate, director of the Research School of Pacific Studies, Australian National University. The text, comprising a survey of Australian exploration, is arranged in the form of biographies of the explorers (describing, for the first time, several almost unknown figures) with emphasis on their expeditions and under the following headings: "The Approach to Australia"; "Exploration before Settlement, 1606-1788"; "From Botany Bay to the Blue Mountains, 1788-1813"; "Land and Sea Expeditions, 1813-1901." This section of the book is very fully illustrated with 18 full-colour plates and some 150 black-and-white photographs, mostly reproductions of early prints. Concluding the book are bibliographies of sources and references, a list of illustrations, and an index of explorers and ships. The comprehensive nature of this work will ensure that it becomes a valuable reference book for students, while the text and illustrations will appeal to all who are interested in our history. Collectors of Australiana will welcome this most attractive addition to the ever-increasing number of available publications.

Australia Felix Jeffrey Makin,Christopher Heathcote,2002 The paintings of Jeffrey Makin, artist, academic and long term art critic for Melbourne's Sun-Herald, are featured in this lavishly illustrated monograph. In his introduction, Christopher Heathcote describes Makin's approach to landscape painting and his treatment of some of Australia's most dramatic landscape features.

Surface and Deep Histories Anuradha Chatterjee,2014-06-26 Surface in architecture has had a deeper and a more pervasive presence in the practice and theory of the discipline than is commonly supposed. Orientations to the surface emerge, collapse, and reappear, sustaining it as a legitimate theoretical and artefactual entity, despite the (twentieth-century) disciplinary definition of architecture as space, structure, and function. Even though surface is defended for its pervasiveness (Kurt Forster), its function as a theoretical motif with generative power (Andrew Benjamin), and in constituting the operative principles of modern architecture as a visual phenomenon (Mark Wigley), it occupies the interstice, or the space of the unconscious within architectural discourse, from where it defends its legitimacy as architecturally valuable or 'functional,' as opposed to merely visually pleasurable. Surface and Deep Histories positions surface within the scholarship of critical theory and design-based approaches, and invites academics and designers, and art and architectural historians based in Australia to consider the uses, figurations, scales, and typologies of surfaces. The

collection choreographs contributions that focus on a variety of topics, such as montage and construction of colonial modernity and visual culture (Molly Duggins); wallpaper, rational space, and femininity (Anna Daly); the inter-constituted nature of bodies, clothes, and cities (Stella North); the reconstruction of the urban surface through a true integration of information and topology (M Hank Haeusler); James Fergusson's theory of ornament (Peter Kohane); traditional and new verandahs in Australia (Chris Brisbin); contradictory effects of surface in Green architecture debates (Flavia Marcello and Ian Woodcock); and the thickness of thin curtain walls in contemporary Australian architecture (Anuradha Chatterjee). *Surface and Deep Histories* shows that surface is not thin — spatially or conceptually. It demonstrates that the practice of surface is simultaneously superficial and pervasive, symbol and space, meaningful and functional, static and transitory, and object and envelope.

The Story of Australia Louise Johnson, Tanja Luckins, David Walker, 2021-09-02 *The Story of Australia* provides a fresh, engaging and comprehensive introduction to Australia's history and geography. An island continent with distinct physical features, Australia is home to the most enduring Indigenous cultures on the planet. In the late eighteenth century newcomers from distant worlds brought great change. Since that time, Australia has been shaped by many peoples with competing visions of what the future might hold. This new history of Australia integrates a rich body of scholarship from many disciplines, drawing upon maps, novels, poetry, art, music, diaries and letters, government and scientific reports, newspapers, architecture and the land itself, engaging with Australia in its historical, geographical, national and global contexts. It pays particular attention to women and Indigenous Australians, as well as exploring key themes including invasion/colonisation, land use, urbanisation, war, migration, suburbia and social movements for change. Elegantly written, readers will enjoy Australia's story from its origins to the present as the nation seeks to resolve tensions between Indigenous dispossession, British tradition and multicultural diversity while finding its place in an Asian region and dealing with global challenges like climate change. It is an ideal text for students, academics and general readers with an interest in Australian history, geography, politics and culture.

Australasia Illustrated Andrew Garran, 188?

The Making and Remaking of Australasia Tony Ballantyne, 2022-11-03 This book explores the emergence of 'Australasia' as a way of thinking about the culture and geography of this region. Although it is frequently understood to apply only to Australia and New Zealand, the concept has a longer and more complicated history. 'Australasia' emerged in the mid-18th century in both French and British writing as European empires extended their reach into Asia and the Pacific, and initially held strong links to the Asian continent. The book shows that interpretations and understandings of 'Australasia' shifted away from Asia in light of British imperial interests in the 19th century, and the concept was adapted by varying political agendas and cultural visions in order to reach into the Pacific or towards Antarctica. *The Making and Remaking of Australasia* offers a

number of rich case studies which highlight how the idea itself was adapted and moulded by people and texts both in the southern hemisphere and the imperial metropole where a range of competing actors articulated divergent visions of this part of the British Empire. An important contribution to the cultural history of the British Empire, Australia, New Zealand and Pacific Studies, this collection shows how 'Australasia' has had multiple, often contrasting, meanings.
