Trio for Oboe, Bassoon and Piano Octavio Vazquez, 2013-04-25 Commissioned by the Poulenc Trio for its 10th anniversary gala season, the Oboe, Bassoon and Piano Trio is one of the major chamber music works by Galician-American composer Octavio Vazquez. Analysis of a Poulenc Trio (for Bassoon, Oboe, and Piano) Ruth Allison, 1947 Francis Poulenc, a member of the French Six, wrote several very unusual chamber music ensembles, but very little is known about them. Especially is this true of his Trio for bassoon, oboe, and piano. It is the purpose of this dissertation to make a complete and thorough analysis from the standpoint of melodic devices, harmonic devices, and form used in the three movements of this trio.

The Art of Bassoon Playing William Spencer, Frederick Mueller, 1969 Fine bassoon teachers are a rarity in all but cities with major symphony orchestras and/or a university with a distinguished music department faculty. William Spencer took up the challenge of providing material for the serious bassoonist with *The Art of Bassoon Playing*, published in 1958. With

William Spencer's approval, Frederick Mueller took on the task of bringing to notice recent changes in bassoon playing, pedagogy, and manufacture, resulting in revised edition of *The Art of Bassoon Playing*.

Classical Music Alexander J. Morin, 2002 Encompassing more than five hundred classical composers past and present, this listener's guide to classical music discusses the best recordings of symphonies, operas, choral pieces, chamber music, and more by the world's leading composers as performed by a variety of outstanding musicians and conductors, and includes essays on the classical repertory, composers, instruments, and more. Reviving Haydn Bryan Proksch, 2015 By the 1840s Joseph Haydn, who died in 1809 as the most celebrated composer of his generation, had degenerated into the bewigged Papa Haydn, a shallow placeholder in music history who merely invented the forms used by Beethoven. In a remarkable reversal, Haydn swiftly regained his former stature within the opening decades of the twentieth century. *Reviving Haydn: New Appreciations in the Twentieth Century* examines both the decline and the subsequent resurgence of Haydn's reputation in an effort to better understand the forces that shape critical reception on a broad scale. No single person or event marked the turning point for Haydn's reputation. Instead a broad resurgence reshaped opinion in Europe and the United States in short order. The Haydn revival engaged many of the music world's leading figures -- composers (Vincent d'Indy and Arnold Schoenberg), conductors (Arturo Toscanini), performers (Wanda Landowska), critics (Lawrence Gilman), and scholars (Heinrich Schenker and Donald Tovey) -- each of whom valued Haydn's music for specific reasons and used it to advance particular goals. Yet each advocated for a rehearing and rereading of the composer's works, calling for a new appreciation of Haydn's music. Bryan Proksch is assistant professor of music history at Lamar University in Beaumont, Texas, where he specializes in the music of the late eighteenth century.

The Music Sound Nicolae Sfetcu, 2014-05-07 A guide for music: compositions, events, forms, genres, groups, history, industry, instruments, language, live music, musicians, songs, musicology, techniques, terminology, theory, music video. Music is a human activity which involves structured and audible sounds, which is used for artistic or aesthetic,

entertainment, or ceremonial purposes. The traditional or classical European aspects of music often listed are those elements given primacy in European-influenced classical music: melody, harmony, rhythm, tone color/timbre, and form. A more comprehensive list is given by stating the aspects of sound: pitch, timbre, loudness, and duration. Common terms used to discuss particular pieces include melody, which is a succession of notes heard as some sort of unit; chord, which is a simultaneity of notes heard as some sort of unit; chord progression, which is a succession of chords (simultaneity succession); harmony, which is the relationship between two or more pitches; counterpoint, which is the simultaneity and organization of different melodies; and rhythm, which is the organization of the durational aspects of music.
