Smart People about Islam Joey Steel, 2017-10-04 This first edition of Smart People About Islam by beloved author and pioneering professor Joey Steel, is the instant classic for introducing the essential viewpoints and teachings of one of the world's predominant faiths, Islam. In a time where terror has come to the heart of Western civilization, the necessity of this eye-opening collection of third party quotes and memes is clear. Through the combination of clear, succinct opinions and all-but-funny cartoons, Joey Steel has created a remarkable work on Islam, which should appeal to a wide range of readers interested in Islamic culture and public opinion. Documenting particular parts of the Qur'an, the Arab Spring, Sunni and Shia, modern interpretations of Islamic literature and the reaction of the general public, Smart People About Islam rightfully continues to be the bestselling of all Smart People About books, and will continue to be for quite some time. This will be the book you will be discussing for weeks with your friends and will be the most thought-provoking piece you'll have read all year.

Islam as Power Bianka Speidl, 2020-12-03 Providing an in-depth and extensive analysis of the concept of power as articulated by Muhammad Husayn Fadlallah (1935-2010), this case study analyses the systemic conceptualisation of power and his argumentation of sacralising Islamised power. The volume also offers a quick overview of how the concept was understood and articulated by other Shi'ite jurists such as Ayatollah Khomeini. Examining Fadlallah's oeuvre, in particular his seminal book *Islam and the Logic of Power* [*al-Islam wa-mantiq al-quwwa*], this book focuses on the narrative itself, which played a central role in the radical transformation that occurred in the Shi'ite concept of empowerment and its recognition as a necessity. The analysis of Fadlallah's conceptualisation and argumentation illustrates the mechanism of sacralising righteous power as well as the means of gaining it. Fadlallah reinterpreted Shi'ism as a project of empowerment to initiate and sustain an "impulse of power" amongst the Lebanese Shi'ites in the most critical moment of modern Lebanese history. Dealing with the concept of power in Shi'ite political thought from a theoretical perspective, the study has an innovative approach that offers an insight into how the transformative narrative is constructed and what makes it convincing. Shedding light on the content and logical structure of Fadlallah's argumentation, this volume will be of interest to scholars

and students researching contemporary politics, Islam, and the Middle East.

Religion and Politics John W. Storey, Glenn H. Utter, 2002-02-01 Focusing on religions such as Islam and Buddhism, this volume shows how religion influences politics and vice versa. Delving into such subjects as the separation of church and state in the United States, the domination of the state by religion in Iran, and the control of religion by the state in China, this survey illuminates cultural differences. This book gives a revealing look at the numerous relationships between religion and politics. In the Church of England, for example, the 26 most senior Anglican bishops have seats in the House of Lords. Religion and Politics also includes biographical sketches of thinkers and doers whose careers intersected religion and politics in significant ways, from the Berrigan brothers to Osama bin Laden. Also included are data and quotes, a directory of politically active religious groups, and a 150 page annotated bibliography.

Muhammad 'Abduh and His Interlocutors: Conceptualizing Religion in a Globalizing World Ammeke Kateman, 2019-01-04 In Muhammad 'Abduh and his Interlocutors: Conceptualizing Religion in a Globalizing World, Ammeke Kateman offers an account of Muhammad 'Abduh's Islamic Reformism in a context in which ideas increasingly crossed familiar geographical, religious and cultural frontiers. Presenting an alternative to the inadequate perspective of "Westernization", Kateman situates the ideas of Muhammad 'Abduh (Egypt, 1849-1905) on Islam and religion amongst those of his interlocutors within a global intellectual field. Ammeke Kateman's approach documents the surprising pluralism of 'Abduh's interlocutors, the diversity in their shared conceptualizations of religion and the creativity of 'Abduh's own interpretation. In this way, the conceptualizations of 'Abduh and his contemporaries also shed light on the diversified global genealogy of the modern concept of religion.

Indonesian Muslims in a Global World Teuku Zulfikar, 2017-08-21 Muslim communities in non-Muslim countries, and particularly their younger members, have been an interesting topic in academia recently. Many books and journal articles have been written on the identity issues of young Muslims, and this book serves to enrich previous literature on this important issue. It highlights Indonesian Muslims' experience of living in between their home and their host society, namely Australia. However, the study differs in some respects from other books on similar issues, describing Muslim identity through the viewpoints of the sacred book of Islam, the Qur'an, and also as described by scholars investigating the identity construction of young Muslims. The book suggests an essentialized understanding of Muslim identity as described in the sacred text, but at the same time recognizes that discourses and agencies influence the way in which a community projects itself.

Those Challenging Cracks of Secularism Oliver O. Nwachukwu, 2014 Lack of religious enthusiasm is a universal nemesis with long-ranging effects. This work shows how secularism can further deepen dividing lines among people.

Hijacking America Susan George, 2013-05-03 George Bush leaves the White House in January 2009 and the United States goes back to "normal", right? Wrong, argues Susan George in this fascinating, thorough and often chilling account of the decades-long transformation of American society and political culture. Using the four "Ms" - money, media, marketing, management—but above all with a keen sense of mission, the American secular and religious right has made its "long march through the institutions" and changed the way Americans think. As the left went about its business in blissful ignorance, convinced that its policies, programmes and projects spoke for themselves and would always prevail; the right's well-oiled machine of foundations, lobbies, think-tanks, publications, political cadres, lawyers and activist organisations slowly and strategically took over. A broad alliance of neo-liberals, neo-conservatives and the religious right successfully manufactured a new common sense, assaulted Enlightenment values and targeted the top of society where culture is created and legitimized, because they knew that ideas have consequences—and not just in the United States. *Hijacking America* is that rarity of a book, a thoroughly researched page-turner. Clearly and gracefully written, it will enthrall the general reader while providing plenty of factual nourishment for the student of politics, culture, religion or international relations. And for all those who hope for a different America in the future, the first step is to hold the present one up to the light and understand how it got that way.

Muslim Identities and Modernity Maha Habib, 2016-03-16 What have the concepts of modernity and secularization meant for Islamic tradition, culture and society? How have the discourses which surround all of these issues influenced Muslim self-perception and individual identity? There have been many attempts to describe and analyse the encounter between Islam and modernity in the Middle East, but few have been able so effectively to explore the impact this has on the

idea and reality of religious identity and individual religiosity. Maha F. Habib examines modernity from this angle, offering socio-cultural, philosophical and literary perspectives. She assesses how this is played out in Egypt, analysing cultural changes in the country through its intellectual thought and literature, from the nineteenth century to the present day. Her references to the works of Muhammad Abdu, Muhammad Husayn Haykal, 'Abbas Mahmud al-'Aqqad, Naguib Mahfouz, Alaa al-Aswany and Salwa Bakr reveal contemporary issues and concerns which will interest those researching the cultural and social milieu of modern Egypt.

Subalternity and Religion Milind Wakankar, 2010-02-25 This book explores the relation between mainstream and marginal or subaltern religious practice in the Indian subcontinent. Keeping in view the power and reach of genocidal Hinduism, this book is the first to look at how the religion of marginal communities at once affirms and turns away from secularised religion.

Da'wa and Other Religions Matthew J. Kuiper, 2017-08-14 Da'wa, a concept rooted in the scriptural and classical tradition of Islam, has been dramatically re-appropriated in modern times across the Muslim world. Championed by a variety of actors in diverse contexts, da'wa -inviting to Islam, or Islamic missionary activity - has become central to the vocabulary of contemporary Islamic activism. *Da'wa and Other Religions* explores the modern resurgence of da'wa through the lens of inter-religious relations and within the two horizons of Islamic history and modernity. Part I provides an account of da'wa from the Qur'an to the present. It demonstrates the close relationship that has existed between da'wa and inter-religious relations throughout Islamic history and sheds light on the diversity of da'wa over time. The book also argues that Muslim communities in colonial and post-colonial India shed light on these themes with particular clarity. Part II, therefore, analyzes and juxtaposes two prominent da'wa organizations to emerge from the Indian subcontinent in the past century: the Tablighi Jamā'at and the Islamic Research Foundation of Zakir Naik. By investigating the formative histories and inter-religious discourses of these movements, Part II elucidates the influential roles Indian Muslims have played in modern da'wa. This book makes important contributions to the study of da'wa in general and to the study of the Tablighi Jamā'at, one of the world's largest da'wa movements. It also provides the first major scholarly study of Zakir Naik and the Islamic Research Foundation. Further, it challenges common assumptions and enriches our understanding of modern Islam. It will have a broad appeal for students and scholars of Islamic Studies, Indian religious history and anyone interested in da'wa and inter-religious relations throughout Islamic history.

The Geologic Model of Religion Andrew Clifford, 2012-07-17 Men are haunted by the vastness of eternity The opening line of the film *Troy* captures the tragic essence of personal mortality: ones' passing into oblivion and fading from all memory. Since the prehistoric dawn of humanity death has shadowed everyone's footsteps. Even into the current scientific era religion has long been the only defense. The sole comfort against oblivion offering a promise of new life or even immortality. The

Geologic Model of Religion is a sympathetic study of this defense from its ancient beginnings, drawing upon archaeology, anthropology and comparative religion to clearly explain one of the most complex subjects known. From the study a new model emerges which: * Decomposes religion into its distinct worldview and afterlife paradigms * Categorizes evidence of belief systems held by prehistoric hunter-gatherers, culminating in the Temples of Rebirth such as Gobekli Tepe * Concludes that spirituality began in the Fertile Crescent 11,000 years ago, spreading with the Neolithic revolution throughout the world * Shows why judgment in afterlife was the keystone in the emerging edifice of civilization, and how it enabled hierarchies overcoming Dunbar's number which limited village sizes * Overviews the interaction between science and religion and projects the ultimate fate of religion itself There might be 100,000 books written about religion but the Geologic Model of Religion is unlike any other. Drawing upon evidence from anthropology, archaeology and scripture religion is divided into worldviews and afterlife paradigms. This new model evidences several long lost prehistoric religious belief systems and explains the origin of spirituality in settled societies.

Ancient Religions, Modern Politics Michael A. Cook, 2016-12-06 Why Islam is more political and fundamentalist than other religions Why does Islam play a larger role in contemporary politics than other religions? Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life? If so, what is it? *Ancient Religions, Modern Politics* seeks to answer these questions by examining the roles of Islam, Hinduism, and Christianity in modern political life, placing special emphasis on the relevance—or irrelevance—of their heritages to today's social and political concerns. Michael Cook takes an in-depth, comparative look at political identity, social values, attitudes to warfare, views about the role of religion in various cultural domains, and conceptions of the polity. In all these fields he finds that the Islamic heritage offers richer resources for those engaged in current politics than either the Hindu or the Christian

heritages. He uses this finding to explain the fact that, despite the existence of Hindu and Christian counterparts to some aspects of Islamism, the phenomenon as a whole is unique in the world today. The book also shows that fundamentalism—in the sense of a determination to return to the original sources of the religion—is politically more adaptive for Muslims than it is for Hindus or Christians. A sweeping comparative analysis by one of the world's leading scholars of premodern Islam, *Ancient Religions, Modern Politics* sheds important light on the relationship between the foundational texts of these three great religious traditions and the politics of their followers today.

Mawlana Mawdudi and Political Islam Roy Jackson, 2010-10-04 Mawlana Mawdudi was one of the most influential and important Islamic thinkers of the modern world, whose brand of political Islam has won widespread acceptance in South and South East Asia as well as the Middle East. He was not only an Islamic scholar, but also a journalist and political activist who founded the Jama'at-i-Islami, which has subsequently influenced the development of many Islamic movements and parties throughout the Muslim world. This book is the first to critically engage and assess his career and legacy within the wider context of political Islam. It includes coverage of his early life and influences, and examines his considerable influence in the contemporary Islamic world. The issues that were a concern for Mawdudi and continue to have resonance for our world today include such questions as the role of women in Islam, the possibilities for democracy in an Islamic state, the importance of jihad, and the moral and religious responsibility of the individual. Whilst focus is on Mawdudi's life and writings, this is placed within the wider context of topical, often contentious, Islamic thought. Providing an up-to-date and detailed critical study of Mawlana Mawdudi and many issues surrounding political Islam both in his time and today, this book will be an important text for scholars of Islamic Studies, Political Science and Philosophy.
