*WASTES 2015 - Solutions, Treatments and Opportunities* Candida Vilarinho, Fernando Castro, Mário Russo, 2015-09-04

This volume presents a selection of papers from the WASTES 2015 conference, a platform for scientists and industries from the waste management and recycling sectors from around the world, who shared experiences and knowledge at the meeting. Covering discussions regarding the balance between economic, environmental and social outcomes, the development of innovative techniques, tools and strategies on how wastes can be transformed into good ideas. Improving both the overall environmental performance and the understanding of the industry impact on the environment, as well as the options analysis for its improvement were key objectives of this conference.

**WASTES: Solutions, Treatments and Opportunities IV** Candida Vilarinho, Fernando Castro, Margarida J

Quina, 2023-09-06 WASTES: Solutions, Treatments and Opportunities IV contains selected papers presented at the 6th edition of the International Conference Wastes: Solutions, Treatments and Opportunities, that took place on 6-8 September 2023, in Coimbra, Portugal. The Wastes conference, which takes place biennially, is a prime forum for sharing innovations, technological developments and sustainable solutions for waste management and recycling sectors worldwide, with the participation of experts from academia and industry. The papers included in this book cover a wide range of topics, including: - Management of waste streams - Environmental, economic and social aspects in waste management - Logistics, policies, regulatory constraints and markets in waste management - Waste-to-energy technologies - Life cycle assessment and carbon footprint - Biological treatment techniques - Waste treatment and valorization technologies - Circular economy and industrial symbioses - Smart technologies and digital tools in waste management - Recycling of wastes and resources recovery - Wastes refineries - Food waste management and bioeconomy - Plastic waste impacts, management strategies and solutions - Wastes as critical raw materials resources WASTES: Solutions, Treatments and Opportunities IV is aimed at academics and professionals involved in waste management and recycling sectors globally.

Solutions for Managing Overtourism in Popular Destinations Kumar, Narendra, Zadeh, Shiva Ilkhani, Naumov,

Nikola, Sharma, Swati, 2025-01-21 Overtourism occurs when destinations face excessive visitor numbers, leading to environmental harm, cultural erosion, and strain on local resources. Natural sites like Maya Bay and the Great Barrier Reef have suffered damage, while cities like Venice and Barcelona face overcrowding, rising costs, and displacement of residents.

The phenomenon is fueled by globalization, social media, and budget travel, leaving many destinations unprepared for surging tourist numbers. Addressing overtourism requires sustainable practices, such as visitor caps, education campaigns, and dispersing tourists to lesser-known areas, alongside government regulation and community involvement. By prioritizing collaboration and responsible tourism, destinations can balance economic benefits with preserving their cultural and environmental heritage. *Solutions for Managing Overtourism in Popular Destinations* examines the multifaceted dimensions of overtourism and proposes innovative strategies to mitigate its adverse impacts. Through a blend of theoretical insights and practical approaches, it sheds light on the root causes of overtourism while charting a path forward toward more responsible tourism practices. Covering topics such as brand development, environmental conservation, and virtual reality (VR), this book is an excellent resource for destination managers and planners, tour operators and travel agents, tourism and hospitality students and educators, environmental scientists and ecologists, policy makers, urban planners, and more.

State Liability and the Law Bartłomiej Wróblewski,2023-03-21 This book explores the historical foundations of holding public authorities accountable for their acts, and discusses how and why the idea that the state should or should not be held liable became established in three significant jurisdictions. The issue of state liability for legislative acts is considered one of the most difficult and controversial problems in jurisprudence. This book analyses the development of concepts and institutions of liability for the acts of legislator pertaining to the general principles of state liability until the mid-20th century in the leading European legal systems: Germany, France and Great Britain. It is shown that, in contrast to the prevailing conviction, the lack of liability for law-making instruments was not an unassailable dogma, and that questions as to whether such liability was possible were being asked from the Middle Ages onwards. The book will be a valuable resource for academics and researchers in the areas of Constitutional Law, Public Law, History of Law, History of Legal and Political Thought, Philosophy of Law, and Comparative Legal Studies.

**Resuscitation of African Languages** Isaac Mhute,Zilibele Mtumane,Vimbai Moreblessing Matiza,2025-03-15 This book argues the case for indigenous African languages, which have been stripped of their importance and are now often overshadowed - both officially, through governmental language policies, and informally, through attitudes and ideologies - by former colonial languages. The authors present case studies from a range of countries in the region, arguing that languages tell us peoples' identities, and that by dropping their own languages in favour of foreign and imperialist languages they lose their culture, history and identity as well. The book addresses many of the challenges currently associated with African languages, with the intention of influencing policy and practice in favour of their resuscitation. This book will be of interest to policy makers, academics and tertiary students in fields including Language Policy and Planning, Language Revitalisation, Heritage Language Learning, Indigenous and Endangered Languages, and Language Attitudes and Ideologies.
