2012, the Bible, and the End of the World Mark Hitchcock, 2009-09-15 In 2012, the Bible, and the End of the World, bestselling prophecy expert Mark Hitchcock explores a fascinating last-days controversy that is gaining the attention of millions all over the globe. What should Christians make of the rapidly spreading speculations that the world will end on December 21, 2012? The ancient Mayans were expert astronomers and their advanced calendar cycles predict 12/21/2012 as a catastrophic day of apocalypse. This prophecy has spawned a growing number of fringe-element books, Web sites, and even a major movie—complete with all-star cast—scheduled to release in July 2009. Missing in the furor is a biblical perspective. Bible teacher Mark Hitchcock—whose books have sold more than 300,000 copies—examines the following questions: Why December 21, 2012? Can we trust the Mayan alarm clock? Does the Bible say anything about 2012? What signs will tell us that Armageddon is near? This book provides a fascinating survey of both the historical past and the prophetic future.

Readers will discover how to effectively counter baseless speculation with biblical fact.

**A History of the Apocalypse** Catalin Negru, 2018-07-26 Every generation of people think that their problems are the most important ever. As history flows without interruption and doomsday scenarios fail, the following generations focus on their own contemporary events, ignoring or underestimating the past. In this way people always see signs in their times and the end of the world is constantly a fresh subject.

*Researching National Security Intelligence* Stephen Coulthart, Michael Landon-Murray, Damien Van Puyvelde, 2019-11-01 Researchers in the rapidly growing field of intelligence studies face unique and difficult challenges ranging from finding and accessing data on secret activities, to sorting through the politics of intelligence successes and failures, to making sense of complex socio-organizational or psychological phenomena. The contributing authors to *Researching National Security Intelligence* survey the state of the field and demonstrate how incorporating multiple disciplines helps to generate high-

quality, policy-relevant research. Following this approach, the volume provides a conceptual, empirical, and methodological toolkit for scholars and students informed by many disciplines: history, political science, public administration, psychology, communications, and journalism. This collection of essays written by an international group of scholars and practitioners propels intelligence studies forward by demonstrating its growing depth, by suggesting new pathways to the creation of knowledge, and by identifying how scholarship can enhance practice and accountability.

**Defending Inerrancy** Norman L. Geisler, William C. Roach, 2012-01-01 According to the authors, the doctrine of inerrancy has been standard, accepted teaching for more than 1,000 years. In 1978, the famous Chicago Statement on inerrancy was adopted by the Evangelical Theological Society, and for decades it has been the accepted conservative evangelical doctrine of the Scriptures. However, in recent years, some prominent evangelical authors have challenged this statement in their writings. Now eminent apologist and bestselling author Norman L. Geisler, who was one of the original drafters of the Chicago Statement, and his coauthor, William C. Roach, present a defense of the traditional understanding of inerrancy for a new generation of Christians who are being assaulted with challenges to the nature of God, truth, and language. Pastors, students, and armchair theologians will appreciate this clear, reasoned response to the current crisis.

*Conjunction.World* Elly Flippen, 2024-10-05 A must read. I cannot recommend highly enough. Bring a lot of highlighters. This book has been blowing me away. I'd say it's a must read. So far it has validated certain thoughts I've had and experienced, regarding OBE/NDE, UAPs, the cover up, our history, consciousness - and brought new ideas forward. Very well written and organized with detailed footnotes with references. You could almost use it like a guidebook in research. It's amazing how much we actually have in common with one another. My uncle, the renowned Ingo Swann, was a man of mystery and intrigue. As one of the US Government's top psychic spies, he held secrets that few knew and even fewer understood. One day, he confided in me with a hushed tone and a glint in his eye: "We are not alone on this planet." This wasn't entirely new to me. I had encountered numerous inexplicable events, but I couldn't believe they were actually real. It just seemed too impossible. Years later, however, my curiosity drove me to learn more. Amidst this learning adventure, I stumbled upon a declassified briefing from 1973 stating a group of Nazis was to blame for releasing an arcane terror upon the world. Unless one is deeply rooted in the essence of the divine, the paper concludes, they will not survive this perilous journey into the ominous world of existence. In other words, if you want to survive in the actual reality we live in, you better be well-equipped with some heavy-duty light protection. After that moment, my inquisitiveness was sparked. I dove in headfirst, compiling theories about non-human entities. From potential extraterrestrial origins to interdimensional beings, I unraveled a complex narrative about advanced technology that could account for the anomalous aerial and aquatic vehicles we have witnessed. But my explorations didn't end there - I also embarked on a journey to understand the evolution of Remote Viewing, also known as psychic spying. Along the way, I discovered fascinating connections between Remote Viewing, UFO bases, and encounters with non-human beings. I then found myself venturing into mysterious lands shrouded in secrecy. Places where barriers and gateways intertwined, where "haunted spaces" lingered and temporal distortions shifted reality. I encountered apparitions, witnessed unexplainable events, and had enigmatic experiences with UFOs/UAPs - which I began to view as vision quests. As my investigation progressed, I uncovered hidden secrets about our world - first-hand accounts of untold tales from the lands where reality blends with the unknown; the places where the mirror has cracks.
