Converting Words William F. Hanks,2010-03-17 This pathbreaking synthesis of history, anthropology, and linguistics gives an unprecedented view of the first two hundred years of the Spanish colonization of the Yucatec Maya. Drawing on an extraordinary range and depth of sources, William F. Hanks documents for the first time the crucial role played by language in cultural conquest: how colonial Mayan emerged in the age of the cross, how it was taken up by native writers to become the language of indigenous literature, and how it ultimately became the language of rebellion against the system that produced it. Converting Words includes original analyses of the linguistic practices of both missionaries and Mayas-as found in bilingual dictionaries, grammars, catechisms, land documents, native chronicles, petitions, and the forbidden Maya Books of Chilam Balam. Lucidly written and vividly detailed, this important work presents a new approach to the study of religious and cultural conversion that will illuminate the history of Latin America and beyond, and will be essential reading across disciplinary boundaries.

Religion at the Corner of Bliss and Nirvana Lois Ann Lorentzen,Joaquin Jay Gonzalez,Kevin M. Chun,Hien Duc Do,2009-09-01 Analyzes the role of religion in the civic and political incorporation of new migrants to the United States, especially as religion functions as a site of reistance to cultural assimilation and as a site that facilitates social incorporation.

Colonial Ch'olti' Robbie A. Haertel,John S. Robertson,Danny Law,2012-10-09 At the time of the Spanish conquest, Ch'olti' was spoken throughout much of the southern Maya lowlands in what is present-day Petén and Chiquimula, and is closely related to that spoken by the authors of the Classic Maya inscriptions. This book presents for the first time a facsimile, transcription, English and Spanish translation, and grammatical analysis of the Morán Manuscript, a Colonial-era document that provides the sole attestation of Ch'olti'. In addition to its value as a chronicle of the Colonial period, the Morán Manuscript is crucial to our understanding of the Classic Maya, particularly their language, captured in thousands of intricately carved and painted hieroglyphic inscriptions. Robertson, Law, and Haertel, regarded as the ablest interpreters of Ch'olti' now working in Mayan linguistics, provide not only a painstaking presentation of language data but also a detailed history of the manuscript itself. They discuss the document's probable authorship, investigate where and by whom Ch'olti' was spoken at contact, and infer how speakers maintained their expressive capabilities in the face of colonial oppression. The transcribed Ch'olti' texts feature an orthographically standardized version with a morpheme-by-morpheme gloss, a literal English translation that preserves many of the poetic structures and metaphors, and a flowing translation in both English and Spanish. The publication of this document marks a major contribution to the fields of Maya epigraphy, Mayan linguistics, ethnohistory, and Mesoamerican languages. It will serve as the definitive presentation of the Morán Manuscript and stand as a major contribution to further understanding the language of the Maya inscriptions in Mexico and Guatemala.
