**Jon H. Widener M.D.**

**The Ministry of Truth** Dorian Lynskey, 2019-06-04 Rich and compelling. . . Lynskey's account of the reach of 1984 is revelatory." --George Packer, The Atlantic An authoritative, wide-ranging, and incredibly timely history of 1984--its literary sources, its composition by Orwell, its deep and lasting effect on the Cold War, and its vast influence throughout world culture at every level, from high to pop. 1984 isn't just a novel; it's a key to understanding the modern world. George Orwell's final work is a treasure chest of ideas and memes--Big Brother, the Thought Police, Doublethink, Newspeak, 2+2=5--that gain potency with every year. Particularly in 2016, when the election of Donald Trump made it a bestseller (Ministry of Alternative Facts, anyone?). Its influence has morphed endlessly into novels (The Handmaid's Tale), films (Brazil), television shows (V for Vendetta), rock albums (Diamond Dogs), commercials (Apple), even reality TV (Big Brother). The Ministry of Truth is the first book that fully examines the epochal and cultural event that is 1984 in all its aspects: its roots in the utopian and dystopian literature that preceded it; the personal experiences in wartime Great Britain that Orwell drew on as he struggled to finish his masterpiece in his dying days; and the political and cultural phenomena that the novel ignited at once upon publication and that far from subsiding, have only grown over the decades. It explains how fiction history informs fiction and how fiction explains history.

**The Agenda Prophets.** J.D. Nuremberg, The Agenda Prophets is a book that describes the current geopolitical situation, how the 2030 agenda is advancing to deprive citizens of their liberties and impose a new enslaving world order. All this was prophesied by writers and filmmakers who showed many decades before what would be the destiny thought for humanity. We can stop it, information will set us free.

*Locating Values in Literature* Corina-Mihaela Beleaua, 2020-10-14 Locating Values in Literature: Goodness, Beauty, and Truth discusses the relevance of literature in the current educational process, stating that regardless of the level of study, literature provides students with the necessary skills to address real-world situations. Corina-Mihaela Beleaua posits that a curriculum that includes literature has a multitude of benefits for the mental and ethical development of students, defending the relevance of the three ancient values of goodness, beauty, and truth. Beleaua argues that literature is a significant tool for endorsing these transcendentals and actualizing their positive potentials as humanistic and moral values, acting as a symbolic manifestation of moral values that will impact readers outside of the scope of the literature itself. Scholars of literature, philosophy, and education will find this book particularly useful.

**Mass Media, Mass Propaganda** Anthony R. Dimaggio, 2008-01-01 This work examines how the mainstream American media reacts to pro-war and anti-war themes throughout the 'War on Terror' in regards to the wars in Afghanistan and Iraq. Using a political economy approach, the author addresses the ways in which corporations that own media reinforce official doctrines and propaganda by contrasting the content of American media to that of other global media.

**Seal One has Opened, The Cornerstone (Key) for the 4th Beast System End of Days Kingdom** Scott, 2022-07-07 Through dreams and visions, The Lord has shown me Revelation 9 and Seal 1 are in play and it is about plagues. Seal 1 is the keystone for Lucifer to be omnipresent like God using transhumanism and the internet of things. We will show you why and how your potentially a computer emitting Mac numbers. The abomination of desolation is not about a third temple built in Jerusalem, but rather it is about defiling the temple of God that is you. What is Iron mixed with Clay that really is about transhumanism. The four horsemen of the apocalypses are riding and it is not 100% what you think. What does the Bible say about pharmikia or Pharmacia (you'll be shocked)? Is your DNA changed with the poke that is as the Days of Noah? What is planet X and the great alien deception? Will the USA be invaded by Russia, China, Cuba and terror cells? We predicted via dreams a famine and gas gangs along with many other events that are transpiring. Are the 10 Kingdoms of the end times really tech companies to manage this beast system? Through dream revelation, what can you expect with the priming and fulfillment of Seal 2, Seal 3 and Seal 4 and multiple waves of Seal 1? Yes, the four horseman are riding of the apocalypse. Biological technology evolution or gene corruption is another sign we are in the end of days linked to the Fourth Beast System Rising. What is black goo that is in your blood? Why the war on your blood? Is there evidence of a genocide? Are people losing their immune system? If your genes have changed, are you patentable? Even the animals / cows are fair game

for crisper gene altering recently approved by the FDA. The MRNa technology called an operating system by a Bayer executive at the World Economic Forum is also linked to gene therapy that poisons the temple of God. According to the elite, “free will is dead.” Are we living in the end of days? Is the vax the mark of the beast? We answer it all.

**The Nexus** Jon H. Widener M.D.,2017-06-28 The Nexus, so-named because of the operational intersection or Nexus of faith and culture, is an alphabetized manual of cultural artifacts of significance to Christians. In *The Nexus*, Jon Widener observes how Christianity has lost many battles over the years and how the evangelical community has been fraught with endemic anti-intellectualism. He sees an evangelical insularity taking the form of retreat and retrenchment from the comings and goings of the larger society. Dr. Widener proposes that modern Christian believers correct these deficits by exercising the exhortation of I Pet 3:15 (KJV) to always be prepared to give an answer to every man that asketh you a reason of the hope that is in you. Believers should educate themselves on culturally relevant issues where there are questions of Christian morality. This is the burden and purpose of the book. Accordingly, the standard for inclusion is straight-forward. If the topic is culturally encountered and has moral implications, then it meets the threshold standard for inclusion in the work.

**Dystopian States of America** Matthew B. Hill,2022-09-13 *Dystopian States of America* is a crucial resource that studies the impact of dystopian works on American society-including ways in which they reflect our deep and persistent fears about

environmental calamities, authoritarian governments, invasive technologies, and human weakness. *Dystopian States of America* provides students and researchers with an illuminating resource for understanding the impact and relevance of dystopian and apocalyptic works in contemporary American culture. Through its wide survey of dystopian works in numerous forms and genres, the book encourages readers to connect with these works of fiction and understand how the catastrophically grim or disquieting worlds they portray offer insights into our own current situation. In addition to providing more than 150 encyclopedia articles on a large and representative sample of dystopian/apocalyptic narratives in fiction, film, television, and video games (including popular works that often escape critical inquiry), *Dystopian States of America* features a suite of critical essays on five themes-war, pandemics, totalitarianism, environmental calamity, and technological overreach-that serve as the foundation for most dystopian worlds of the imagination. These offerings complement one another, enabling readers to explore dystopian conceptions of America and the world from multiple perspectives and vantage points.

**Electrified Democracy** Andrew Blick, 2021-07-01 The story of how the UK Parliament came to use the Internet from the 1960s onwards has never been told. *Electrified Democracy* places the impact of technology on parliamentary workings in its longer term historical context. The author identifies repeating patterns of perception and analysis, and cultural tendencies in the perception of inventions dating back over centuries that have reasserted themselves in connection with the parliamentary response to networked computers. He uncovers evidence and makes new connections, while situating all this within the wider global debates on connections between communication and democracy in the age of the Internet, constitutional law and history, and 'law and technology'. This book will be of interest to a wide readership including policy makers, researchers, and all those interested in contemporary controversies about the role of the Internet in modern societies.

**The Elusiveness of Peace in a Suspect Global System** Tatah Mentan, 2024-11-29 A convenient veil is drawn over the many issues facing the majority of citizens on a daily basis as a result of the so-called free market. One is left with an impression that we live in a glorious utopia in which the crusaders of international capitalism continue in their quest to make life peaceful and better for all of humanity. It is also a world which has been at peace for 70 years with no ideological or economic conflict and in which all of humanity live their lives in harmony, benefiting from the fruits of globalization. This claim is nothing less than the rearrangement of the deck chairs on the Titanic, where the Titanic is actually the Global Economic & Financial System (GE&FS), storming its way through all countries and causing untold human suffering engineered by global pathocrats. In this book Professor Tatah Mentan dissects human suffering from multidimensional crises such as terrorism, population-explosion, denial of human rights, economic inequality, racial discrimination, ideological extremism, religious intolerance, social injustice, ecological imbalance, consumerism, oppression of the weak, and so on. He then calls for a radical global ethics that expects us to realize our roles and duties regarding global peace. It includes the role and ideals of educationalists, the duties of scientists, philosophers, and thinkers, the inculcation of human values such as nonviolence and love.

*Unreal City: The Strange Disappearance of Reality* Mark Romel, 2018-04-10 It's finally happening. Reality is disintegrating. The Age of Nihilism is dawning. Fake news, post-truth, post-facts, alternative facts, everyone has their own

truth, the Dunning-Kruger effect, Mythos, hyperreality, hyporeality, virtual reality, virtual irreality, simulation, simulacra, the copy without the original, the map that precedes the territory, the authentic fake. Whom will you believe? Whom will you trust? Who is telling the truth? Who is lying to you? It's time to explore the Unreal city, the Unreal world. Soon enough, humanity itself will be Unreal.

*Fleeing the Universal* Carl Rapp, 1998-04-23 Rapp mounts a devastating critique against the notion that literary and cultural theory since the 1960s has succeeded in effecting, or at least reporting, both the demise of philosophy and the emergence of a genuinely post-philosophical culture.
