Encyclopedia of Beasts and Monsters in Myth, Legend and Folklore Theresa Bane,2016-05-09 Here there be dragons--this notation was often made on ancient maps to indicate the edges of the known world and what lay beyond. Heroes who ventured there were only as great as the beasts they encountered. This encyclopedia contains more than 2,200 monsters of myth and folklore, who both made life difficult for humans and fought by their side. Entries describe the appearance, behavior, and cultural origin of mythic creatures well-known and obscure, collected from traditions around the world.

Alchemy in the Rain Forest Jerry K. Jacka,2015-10-23 In Alchemy in the Rain Forest Jerry K. Jacka explores how the indigenous population of Papua New Guinea's highlands struggle to create meaningful lives in the midst of extreme social conflict and environmental degradation. Drawing on theories of political ecology, place, and ontology and using ethnographic, environmental, and historical data, Jacka presents a multilayered examination of the impacts large-scale commercial gold mining in the region has had on ecology and social relations. Despite the deadly interclan violence and widespread pollution brought on by mining, the uneven distribution of its financial benefits has led many Porgerans to call for further development. This desire for increased mining, Jacka points out, counters popular portrayals of indigenous people as innate conservationists who defend the environment from international neoliberal development. Jacka's examination of the ways Porgerans search for common ground between capitalist and indigenous ways of knowing and being points to the complexity and interconnectedness of land, indigenous knowledge, and the global economy in Porgera and beyond.

**Writing Caste/Writing Gender** Sharmila Rege ,2014-04-01 'The women tell it like it is... So riveting is the narration that it is difficult to put down the book until their stories are finished. For a non-fiction academic work this is no small feat.'  
— The Hindu Sharmila Rege's path breaking study of Dalit women's writings and lives offers a powerful counter-narrative to

the mainstream assumptions about the development of feminism in India in the 20th century. Extensive extracts from eight Dalit women's writings cover issues such as food and hunger, community, caste, labour, education, violence, resistance and collective struggle. The voices that resound throughout the book, reveal that Dalit feminism, far from being 'silent' as so often presumed, is rich, powerful, layered – and highly articulate. Published by Zubaan.
