**Human Rights, Power and Civic Action** Bård A. Andreassen, Gordon Crawford, 2013-07-18 Human Rights, Power and Civic Action examines the interrelationship between struggles for human rights and the dynamics of power, focusing on situations of poverty and oppression in developing countries. It is argued that the concept of power is a relatively neglected one in the study of rights-based approaches to development, especially the ways in which structures and relations of power can limit human rights advocacy. Therefore this book focuses on how local and national struggles for rights have been constrained by power relations and structural inequalities, as well as the extent to which civic action has been able to challenge, alter or transform such power structures, and simultaneously to enhance protection of people's basic human rights. Contributors examine and compare struggles to advance human rights by non-governmental actors in Cambodia, China, Ghana, Kenya, South Africa and Zimbabwe. The country case-studies analyse structures of power responsible for the negation and denial of human rights, as well as how rights-promoting organisations challenge such structures. Utilising a comparative approach, the book provides empirically grounded studies leading to new theoretical understanding of the interrelationships between human rights struggles, power and poverty reduction. Human Rights, Power and Civic Action will be of interest to students and scholars of human rights politics, power, development, and governance.

Discrimination and Access to Justice in Africa Wellman Kondowe,Paul Svongoro,2025-05-23 There are different forms of discrimination. Among others, people can be discriminated against on the basis of their ethnic grouping, political affiliation, race, gender, age, and language. This book focuses on linguistic discrimination in Africa, acknowledging that language plays a key role in the delivery of justice and much of what transpires in justice systems deals with language use. It argues that to achieve fairness, the state has a responsibility to put in place accommodations aimed at reducing linguistic vulnerability. The collection interrogates some of the issues that are common in Africa, which is arguably one of the most linguistically diverse continents in the world, bringing together a collection of case studies from Malawi, South Africa, Zimbabwe, Tanzania, Kenya, and Zambia. It presents practical insights from academics, legal professionals, and social scientists. Divided into five thematic parts, the first addresses communication and linguistic challenges faced by children in the legal system. Theme 2 examines the position of witnesses with physical challenges. The third theme focuses on language as a barrier in access to justice. Theme 4 looks at the language of the court as a major barrier to the poor and the illiterate. The fifth and final theme examines the position of women in sexual assault cases. The collection will be of interest to academics, researchers, and policymakers working in the areas of law and language, human rights law, criminology, linguistics, and African Studies.

The Citizen and the Chinese State Perry Keller,2017-03-02 This volume addresses several core questions regarding the nature of law in China and its future development. In particular, these articles shed light on whether the rule of law ideal is commensurable with government based on the Chinese Communist Party. Beginning virtually from scratch, China has established a comprehensive legal system that boasts a constitution, primary and secondary legislation and plentiful regulations covering most areas of public and private life. Yet, as these articles discuss, its courts are enmeshed in Party and state hierarchies and are not empowered to directly apply constitutional principles or rights, ensuring that the law is subordinate to national public policy goals. Legal and extra-legal methods for punishing wrongdoing and resolving disputes also raise questions of due process of law. Ultimately, the question is therefore whether China's legal system, if eschewing formalised human rights, is developing a capacity to protect fundamental human dignity.

**Law of Defamation in Commonwealth Africa** Jill Cottrell,2018-08-17 First published in 1998, this book is an

exposition of the law of defamation as it applies in those countries (excluding South Africa). It discusses or refers to hundreds of cases from those jurisdictions, as well as many important precedents from England, analysing the law and discussing how far the courts have developed their own approaches to the law, and to what extent the law reflects the values of traditional society and customary law. It thus shows how the law is being used in a field which is both intensely political and reflects important social interests. Though directed mainly at legal practitioners, teachers and students, therefore, it would be of interest to the media – the defendants in the overwhelming majority of the cases-and to scholars in the social sciences.

**This Butterfly WAs Once A Worm** Cathrine Kabade-Mutiti,2010-12-09 You know what my aim was to motivate all the people who read what I am witting but the truth is I have been motivated more than I thought, each day that I managed to write more information about my life the more zeal I got to write more. This is a true life and a true setting of my African culture. I relieve that life in my thoughts and it makes me smile because I only concentrate on good memories.

**The African Charter on Human and Peoples' Rights** Rachel Murray,2019-02-07 The African Charter on Human and Peoples' Rights (ACHPR) is the principle regional human rights treaty for the African continent. Adopted in 1981, there is now a significant body of jurisprudence and interpretation by its African Commission on Human and Peoples' Rights and the recently established African Court. This volume provides a comprehensive article-by-article legal analysis of the provisions of the Charter as it draws upon the documents adopted by the African Commission, including resolutions, case law, and concluding observations. Where relevant, case law adopted by the African Court on Human and Peoples' Rights, and that of other sub-regional courts and tribunals and domestic courts in Africa, are also incorporated. The book examines not only the substantive rights in the African Charter but also the work of the African Commission on Human and Peoples' Rights and provides a full examination of its mandate. A critical analysis of each of the provisions of the ACHPR is led principally by the jurisprudence and documentation of the African Commission and African Court. The text also identifies the overall development of the ACHPR within the broader regional and international human rights legal arena.

Gathering Under the Mango Tree Dickson A. Mungazi,1996 Gathering under the Mango Tree discusses how values have shaped the character of society and influenced the lives of Africans. The study addresses the topics of family structure, medicine, religion, government, jurisprudence, art forms, and socio-economic systems. The book also raises the issue of how Africans are caught between past and present values and concludes that Africa is at a cultural crossroad.
