Gramática de la fantasía Gianni Rodari,1999-11

Didáctica de la fantasía. Ruiz Silva, Alexander, Prada Londoño, Manuel,2020-05-31 Esta obra analiza tres experiencias centradas en el uso de diferentes recursos artísticos (dibujo, música y creación literaria) para aproximarse a la Convención de los Derechos del Niño y ayudar a los escolares a empoderarse como sujetos de derecho. Por otra parte, la obra ofrece una novedosa reflexión sobre la naturaleza de la educación, una tarea que supone un pacto disimétrico entre educandos y educadores, una tensión enormemente productiva. A lo largo de la obra se refiere la educación como un desafío que implica una aparente contradicción entre la necesidad de proteger, ayudar, cuidar, atender y enseñar a los niños y niñas y, por otra parte, la necesidad de no limitarlos, considerarlos “menos humanos” o todavía incapaces, pedirles pasividad o que esperen hasta la edad adulta. Para los autores es importante pensar que la educación debe reconocer la fragilidad y las necesidades de niños y niñas sin por ello menoscabar su derecho a tener opinión, a expresarla libremente, a ser responsables y a participar.

Innovación educativa aplicada a la enseñanza de la lengua. Susana Gala Pellicer,2022-05-31 El presente volumen reúne un conjunto de aportaciones vinculadas por un criterio común: todas ellas parten de la observación y análisis de la experiencia docente en el aula con el fin de acometer una propuesta de mejora de la didáctica. Lejos de limitarse a una única realidad educativa, las investigaciones abarcan diversas etapas y contextos de aprendizaje. Conforman la obra un total de ocho investigaciones sobre la innovación educativa aplicada a la didáctica de la lengua. Los resultados expuestos en esta obra proponen, en conclusión, metodologías innovadoras para la didáctica de la lengua. Todos ellos resultan del trabajo tanto de académicos independientes como de grupos de investigación conformados por especialistas en la materia. La interdisciplinariedad y variedad de las propuestas docentes del conjunto ofrecen a los interesados en la innovación educativa

nuevas posibilidades para la mejora de su práctica docente, y también un punto de partida para desarrollar nuevas estrategias específicamente destinadas a la didáctica de la lengua.

Learning and Collaboration Technologies: Designing and Developing Novel Learning Experiences Panayiotis Zaphiris, Andri Ioannou, 2014-06-06 The two-volume set LNCS 8523-8524 constitutes the refereed proceedings of the First International Conference on Learning and Collaboration Technologies, LCT 2014, held as part of the 16th International Conference on Human-Computer Interaction, HCII 2014, in Heraklion, Crete, Greece in June 2014, jointly with 13 other thematically similar conferences. The total of 1476 papers and 220 posters presented at the HCII 2014 conferences were carefully reviewed and selected from 4766 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 93 contributions included in the LCT proceedings were carefully reviewed and selected for inclusion in this two-volume set. The 45 papers included in this volume are organized in the following topical sections: design of learning technologies; novel approaches in eLearning; student modeling and learning behavior; supporting problem-based, inquiry-based, project-based and blended learning.

Adivinanzas populares españolas Pedro C. Cerrillo Torremocha, 2009 Adivinanzas Populares Españolas (Estudio y Antología) ofrece una amplia selección de este tipo de composiciones, casi quinientas, clasificadas en ocho apartados diferentes, según los criterios que explica el autor en las primeras páginas del libro. En la introducción el autor hace una serie de consideraciones acerca de la Lírica Popular de tradición infantil, que resultan muy esclarecedoras para la comprensión del amplio estudio de las adivinanzas que realiza posteriormente. En él, se analizan las figuras del emisor y del destinatario de la adivinanza, la relación de ésta con el mundo de los niños, la tradición románica del género, la existencia de adivinanzas cultas en la literatura española, la estructura compositiva de estas cantinelas y las características del ritmo de que son portadoras.

Unmasking L.A. D. Sawhney, 2002-05-16 Since its birth in 1781, Los Angeles has come to define both the material and spiritual force of American civilization. The American dream is realized, experienced, and lost in the City of Angels. *Unmasking L.A.: Third Worlds and the City*, an interdisciplinary collection of essays, dialogues, and photographs, seeks to reveal the third world geographies, cultures, and populations of Los Angeles. It examines the social, political, cultural, and

literary climate of the city, bringing together diverse responses to the complexities facing Los Angeles from respected intellectuals, writers, and artists such as Mike Davis, Deepak Chopra, and Gayatri Chakravorty Spivak. By uncovering the forces that marginalize Los Angeles's ever-shifting populations into internal third worlds, the collection unmasks the raw contradictions, the grim paradoxes, and the understated ironies of the global city.

Deconstructing Gender Stereotypes in Western Tradition María Dolores García Ramos, María José Ramos Rovi, 2023-11-28 Traditional feminine description and roles within Western literary and artistic cultural artifacts have tended to portray women in very a specific way – one which creates, disseminates and consolidates the gender roles which became foundational to heteropatriarchy and, sometimes, male chauvinism. As an example, women in poetry are often portrayed as fragile, sweet, romanticized creatures who ignite masculine desire or bolster male artists' creativity. In this sense, most Western lyrical traditions present women as either objects of desire or inspirational muses. These secondary roles, which transform women into subalterns, can also be seen in other artistic manifestations, such as painting and sculpture or, more recently, films, TV fictions, graphic novels and videogames. This volume offers a multidisciplinary approach to the topic of feminine representation in literature and the arts, presenting womanhood from new perspectives which highlight feminine characters who have traditionally been neglected, misrepresented or reduced to marginal roles.

Gramática de la fantasía Gianni Rodari, 2006 Siempre hay un niño – dice Rodari – que te pregunta: «¿Cómo se inventan las historias?», y se merece una respuesta honesta. En la Gramática de la fantasía «se habla de algunos modos de inventar historias para niños y de ayudar a los niños a inventar por sí solos sus propias historias».

Destrezas comunicativas en la lengua española, 2001 Recoge el contenido del curso de formación para el profesorado de enseñanza primaria, acerca de la lengua como fuerza social de comunicación, celebrado en la Universidad Internacional Menéndez Pelayo de Santander, en el verano de 2000.

Popular Texts in English Antonio Ballesteros González, 2001 This book comprises a collection of articles devoted to the academic study of popular texts in English. Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art. They take into serious consideration forms like horror literature, the gothic, fantasy, detective fiction, science fiction, best-sellers, films and television series of different kinds... among some other representations of what conservative scholars had been considering as marginal. The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences, at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium.

Medianenas & milhombres Eloy Fernández Porta, 2024-04-03 Una exploración de las nuevas y viejas masculinidades: sus arquetipos, clichés, representaciones y reinenciones. Batman releído como icono gay, Andy Warhol y Sonny Liston –el artista homosexual y el atleta negro– compartiendo asiento en un viejo anuncio, una escena de Nip/Tuck, una web porno llamada PartyHardcore, la Patrulla X y sus mutantes, los cómics de Jaime Hernandez, Sancho Panza... Medianenas & milhombres reúne los textos sobre género que Eloy Fernández Porta fue publicando a lo largo de doce años. Con una mirada aguda, que bebe de la crítica artística y los estudios culturales, incide en algunas cuestiones que han estado y están de actualidad –como el debate sobre las estrategias de protesta de Femen o el machismo en las industrias culturales– y rastrea las transformaciones del género y las huellas de la política sexual en la música, las series, la literatura, el cómic, el arte contemporáneo y la publicidad. Un recorrido estimulante, erudito y lleno de humor, en el que cada capítulo está planteado como un ejercicio de estilo y un reto al lector.

Escritura creativa, técnicas y artilugios Polo Samarys, Fabio Vallejo Silva, 2022-09-06 Cómo crear poemas, cuentos, historias, mitos y leyendas. El objetivo es ante todo guiar al estudiante, al profesor, al padre de familia para que descubra las capacidades creativas que todos tenemos escondidas. No vamos a pensar que van a resultar en grandes obras literarias (o... ¿por qué no?), pero sí grandes intenciones y esfuerzos. Este libro hace referencia a esa gota inicial que puede convertirse en el inmenso río que se dirigirá hacia diferentes rutas. Sea pues este encuentro el detonador creativo hacia los confines de la palabra. En este contexto, este libro es en parte una amalgama de ejercicios, juegos, trucos y artilugios para poner la inspiración siempre en marcha.
