My First Girlfriend Nature Satyendra Sonkar,2017-01-15 The author's first girlfriend, nature, is the first part of the

book. He is explaining the beauty of nature. The beauty of nature is too beautiful and is never understood by the stupid humans. Nature is being polluted by human beings. Too much increase of the earth's temperature is a very critical situation for human beings. The ice glaciers are melting due to global warming. Forests, rivers and seas are destroyed by humans alone. The beautiful nature is weeping many times, but nature can get angry and destroy everything in a second. The author warns us that it may be 2099 and the entire country may be covered by sea or big earthquakes may occur. These predictions have been made by some scientists. In modern times, love and humanity are dying. Nature is weeping and upset, while the humans are fighting each other. The conditions are not good for surviving on the earth. His philosophy is to change the human nature and love the beautiful nature. The best and most beautiful things in the world cannot be seen or even touched—they must be felt with the heart. In the second part of the book, the name of the story is Anunnaki. They came from heaven. It deals with the real story of human life in the 5000 BC-how human race came on earth. The author also tries to explain why the Anunnaki is disappeared. This story is too mysterious. The history of science and technology and philosophy are used in his books. The Anunnaki came to earth and they spread more knowledge, science and technology and provided good culture. The humans gained too much from them. The Anunnaki had long wings and flew in the sky. The Anunnaki is the most thrilling topic. The new SUPERHERO COMES IN INDIA... IT MAY BE 2099 WHEN THE ANUNNAKI COMES BACK TO EARTH...

Air Jan de Vries,2011-06-10 Pollution is an ever-growing threat to our planet and manifests itself most dramatically in its impact on the natural environment which surrounds us. But just as trees are dying daily because of environmental pollution, so too are humans suffering. Air pollution has led directly to an increase in asthma, bronchitis and other related respiratory complaints. In *Air: The Breath of Life*, Jan de Vries calls upon his vast experience in dealing with respiratory problems to guide his readers on how best to assist our own immune system in combating the worst effects of pollution.

Scattered Thoughts Rance A. Robeson Sr.,2020-09-22 This book deals with segments of life, love and liberties in our short journey on Planet Earth. All praises due to our Creator, Lord and Eternal King.

Nature is the Absolute Truth Deepak Gupta,2025-01-30 Nature does not hurry, yet everything is accomplished. - Lao Tzu. Baruch Spinoza beautifully clarified; nothing in nature is by chance. Something appears to be a chance only because of our lack of knowledge. When someone says I know the exact truth about this universe, we don't believe him easily until we feel it so intensely that we can say, affirmatively, that's the absolute truth of our lives. An absolute truth can't be changed in any event or incident even though how much it get pressurized. It always reveals the same conclusion even though a lot would transform and change around it. We emerged from the soil and then lost into the same even though if we reach the high of the highs and low of the lows. I never believed anyone when they say, I know the exact secret, the absolute truth of this universe, until I started wandering into the depth of nature, scrounging deep woods, watching lakes and waterfalls for too long, feeling rain on my entire body for hours and harsh sun after and understood; nothing in this world is random. From the lakhs of years, nature holds the absolute truth and it gets revealed only to those who pay attention until the end. How beautiful it is that everything changes slowly yet we don't feel the change and suddenly, everything transform entirely. Nature does nothing uselessly and for every movement, there's a cause which we can't analyse at the same time but some time and then we would understand why things are happening like that. Even if we read Vincent Van Gogh, Leonardo Da Vinci, Nikola Tesla, Diogenes of Sinope, Aristotle, Friedrich Nietzsche or Plato; their philosophies are pure and directly based on the hidden truths of nature and we relate to them very well because we all perceive nature but don't understand it consciously the way we should. It's like we already know the information but not the logic of nature. Nature is the absolute truth because it was always here even before humans. All universal truths can be learned through nature. Living with the absolute truth transforms everything but how nature is the absolute truth and how it would transform our lives. I have started this series to introduce the deep details of new life changing wisdom so when you live truly, you will understand what's essential and what's truly a waste of your time and believe me, we are taking pain for illusions and that's why we curse life. Frank Lloyd Wright explained; Nature is my manifestation of God. I go to nature every day for inspiration in the day's work. I follow in building the principles which nature has used in its domain. The purpose of this 15 Minutes Powerful

Read is to live your life based on the absolute truth as it will help you prevent unnecessary pain, problems and pleasures and prepare you for true soulful life. Nothing in this world is harder than speaking the truth and nothing easier than flattery. - Fyodor Dostoyevsky.

Mindfulness in Nature Nina Smiley,David Harp,2017-05-30 Mindfulness in Nature helps readers separate themselves from their busy lives, and allows them to engage in a deeper, more fulfilling relationship with the natural world around them through meditative practice. Now more than ever, with the constant distractions that abound in modern life—from smart phones to social media—it is imperative we seek the solace and comfort of nature for our well-being. The Japanese have a term for it: Shinrin-yoku or Forest Bathing. Mindfulness experts Dr. Nina Smiley and David Harp have created a new guide called Mindfulness in Nature which provides a meaningful way to nurture ourselves through a sense of spaciousness, calm, and connection with the out-of-doors. Penned from the breathtaking natural setting of Mohonk Mountain House in New Paltz, New York, Mindfulness in Nature affords readers access to wisdom from dozens of notable authors, philosophers and poets – including Henry David Thoreau, Emily Dickinson, and Walt Whitman – on the important themes of nature, spirituality, simple beauty and joyful living. More than just a walk in the woods, Mindfulness in Nature is a carefully crafted and deliberate approach to achieve better health and well-being and is ideal for all ages.
