Cryptic Enzymes and Moonlighting Proteins Helen Irving, Chris Gehring, Aloysius Wong, 2025-04-24 Cryptic Enzymes and Moonlighting Proteins, a new volume in the Foundations and Frontiers in Enzymology series, offers a thorough overview of cryptic enzymes and moonlighting proteins in signaling cascades. In early chapters, leading international contributors discuss evolutionary considerations for moonlighting proteins, moonlighting interactions in the extracellular matrix, eukaryotic moonlighting proteins, modulating, moonlighting kinases, moonlighting proteins in neurobiology signaling, metabolic enzymes moonlighting as RNA binding and regulatory proteins. Later, methods-driven chapters discuss practical aspects of identifying hidden moonlighting domains in proteins, computational approaches and bioinformatic tools for the identification of cryptic enzymes, establishing cryptic enzyme interactomes, and assessing contributions of moonlighting proteins to signal cascades. The book also explores recent advances in research and brings together an array of information across different fields to enable better targeting of these exciting proteins and their interactomes. With a clear focus on the role of moonlighting and cryptic enzymes in signal transduction, users will find examples of cryptic enzymes across species, as well as those in human healthy biology and pathogenesis. - Covers recent advances in our understanding of cryptic moonlighting proteins in signal cascades, highlighting and examining key themes across disciplines - Empowers researchers to better target cryptic enzymes and moonlighting proteins and their interactomes. - Features chapter contributions from international leaders in the field

The Promise of New Technologies in an Age of New Health Challenges A.J. Maeder, K. Ho, A. Marcelo, 2016-11-24 There is a changed emphasis in many health services, with conventional pressures such as budget and workforce constraints, combined with the indirect forces of social change and strategic direction, bringing about the need for more flexible approaches for the longer term. By enabling different care models and delivery channels, telehealth offers demonstrably effective and sustainable solutions for issues such as access to and quality of care. This book presents 18 papers delivered at the 5th Global Telehealth Conference, held in Auckland, New Zealand, in November 2016. The theme chosen for Global Telehealth 2016 is 'The Promise of New Technologies in an Age of New Health Challenges', and the papers included here cover a wide variety of topics, from theoretical and abstract contributions through to discussions of practical projects and highly specific applied contributions. The book also includes two invited papers which detail recent contributions to two global issues in which telehealth plays a major role: universal health coverage and personal health monitoring. With papers ranging in scope from computer assisted screening technology for diabetic retinopathy to behavior change through computer games, this book will be of interest to all those involved in the design and provision of healthcare services.

*Rural Gerontology* Mark Skinner, Rachel Winterton, Kieran Walsh, 2020-12-29 This book provides the first foundation of knowledge about the intellectual traditions, contemporary scope and future prospects for the interdisciplinary field of rural gerontology. With a focus on rural regions, small towns and villages, which have the highest rates of population ageing worldwide, Rural Gerontology is aimed at understanding what it means for rural people, communities and institutions to be at the forefront of twenty-first-century demographic change. The book offers important insights from rural ageing studies into today's most pressing gerontological problems. With chapters from more than 65 established and emerging rural ageing researchers, it is the first synthesis of knowledge about rural gerontology, harnessing a burgeoning interdisciplinary scholarship on the rural dimensions of ageing, old age and older populations. With a view to advancing a critical understanding of rural ageing populations, this book will have an overreaching impact across the social sciences by drawing on advancements in understandings of rural ageing from social, environmental, geographical and critical gerontology to facilitate a comprehensive exploration of the diversity, complexity and implications of the ageing process in rural settings. Bringing together valuable international perspectives, this book makes a timely contribution to gerontology, rural studies and the social sciences, and will appeal to scholars and researchers across USA and Canada, UK and Ireland, Australia and New

Zealand, Europe, China and countries in Africa, South America and South-East Asia.

Interprofessional Perspectives for Community Practice Michael Pizzi, Mark Amir, 2024-06-01 Now more than ever health care professionals play an increased role in the promotion of health to populations. Unique and innovative, *Interprofessional Perspectives for Community Practice: Promoting Health, Well-being and Quality of Life* weaves everyday care into prevention, community, and population health, creating a new and more expansive vision of health for all without compromising traditional practices. Authors and editors Drs. Pizzi and Amir discuss and illustrate a client-centered preventive and health, well-being and quality of life approach rooted in best practice principles from interprofessional literature and firsthand experience. The text illustrates how allied health professionals implement those principles in their everyday and traditional practices with an emphasis on exploring health and well-being issues. *Interprofessional Perspectives for Community Practice* provides detailed guidance in program development and implementation. What's included in *Interprofessional Perspectives for Community: Clinical anecdotes on successful community practices* A focus on primary and secondary prevention Assessments, interventions, and community practice examples Descriptions of community-based practice settings such as adult day care, independent living programs, hospice, and home health care Health and wellness across the lifespan Bonus chapters available online as PDFs for readers The first text of its kind to weave interprofessionalism, community practice, and health, well-being, and quality of life, *Interprofessional Perspectives for Community Practice: Promoting Health, Well-being and Quality of Life* is for all health care workers and students who wish to transfer practice skills from the clinical setting to a population-based program development model.

*Critical Reflection in Context* Jan Fook, Fiona Gardner, 2012-10-02 Critical reflection enables practitioners - especially those within health and social care - to theorise from their own practice, improving and developing their work and practising both creatively and professionally. This book provides an accessible overview of the influential Fook/Gardner Critical Reflection framework for students, researchers and professionals. It then presents a wide range of illustrative case studies from a variety of different health and social care settings, demonstrating how it can be used in effective and innovative practice around the world. By highlighting how professionals are actually using the Fook/Gardner model of critical reflection, it shares practical and resourceful ideas and provides specific theoretical and practical guidelines for use. It also further conceptualises and develops the theory of critical reflection by articulating underlying theory used in practice. The book also draws out particular issues for how critical reflection might be better practised within organisations, and develops a framework for a better understanding of this. The book is divided into four parts, discussing critical reflection in: Professional Practice Supervision and Management Research Education Including an up-to-date overview of the framework written by Jan Fook, this helpful text makes a significant contribution in terms of the practical theorizing of critical reflection. It will be of use to health and social care professionals keen to practice creatively and effectively, especially those undertaking short

courses or further development in supervision, critical reflection, advanced practice, and leadership and management.

Disability Practice Christine Bigby, Alan Hough, 2023-12-07 This open access book critically engages with the social, political and ethical implications of support for people with disability to be fully included in society. The authors examine contemporary issues of quality and safeguarding in disability services, translating research and practice wisdom into foundational knowledge. Written by leading researchers, the book provides a comprehensive overview of knowledge and practice necessary to prepare readers to deliver enabling support.

*Occupational Therapy in Australia* Ted Brown, Helen M. Bourke-Taylor, Stephen Isbel, Reinie Cordier, Louise Gustafsson, 2021-04-18 This ground-breaking text provides a comprehensive guide to the occupational therapy profession in Australia, from the profession's role in the health care system to the broad scope and nature of its practice. The book is organised into three sections: the Australian context; professional issues and practice issues. Contributions from 80 Australian occupational therapists working in education, research, policy and practice bring together the most relevant and up-to-date information in this essential book. The authors begin the Australian environment section with an overview of the Australian health care system, a history of occupational therapy in Australia and the role of Australian occupational therapy professional associations and regulatory bodies. The values and philosophy of occupational therapy, ethical and legal aspects of practice and the role of occupational therapy in population health and health promotion are considered next. The professional issues covered in the book include using effective communication skills, client-centred practice principles and a strength-based approach when working with individuals, families, groups, communities, organisations and populations. Additional topics, including occupational science, the education of occupational therapists, research in occupational therapy, evidence-based practice clinical reasoning and occupational therapy models of practice, are also covered in the middle section of the book. *Occupational Therapy in Australia: Practice and Process Issues* is established as the essential practice reference for students, practitioners and educators in Australia. This second edition has been revised and updated throughout and includes new chapters on communication skills, environmental aspects of occupational therapy practice and decolonising occupational therapy through a strength-based approach to practice.

EDUCATING HEALTH PROFESSIONALS: BECOMING A UNIVERSITY TEACHER Stephen Loftus, Tania Gerzina, Joy Higgs, Megan Smith, Elaine Duffy, 2013-09-03 This book is for health professionals who are becoming involved in the education of people entering their professions. It introduces many of the challenges that educators must engage with in the twenty-first century; challenges that will preoccupy our attention for many years to come. The world of professional practice in healthcare is changing and the education we provide to prepare people for that practice is also changing. How do we prepare professional practitioners for this changing world? How do we prepare them for the changes that are yet to come? What challenges and changes do they need to be aware of? How do we prepare educators – both academics and workplace educators for these challenges? This volume opens up and articulates the issues we face in preparing people to enter the contemporary world of healthcare. Experienced educators should also find much of interest in these pages. Practice-based education provides an overarching framework for consideration of the issues involved. There are five sections in the book: - Section 1: Introduction - Section 2: Health Professional Education in Context - Section 3: Teaching and Research - Section 4:

Dental Hygiene - E-Book Margaret Walsh, Michele Leonardi Darby, 2014-04-15 Emphasizing evidence-based research and clinical competencies, *Dental Hygiene: Theory and Practice*, 4th Edition, provides easy-to-understand coverage of the dental hygienist's roles and responsibilities in today's practice. It offers a clear approach to science and theory, a step-by-step guide to core dental hygiene procedures, and realistic scenarios to help you develop skills in decision-making. New chapters and content focus on evidence-based practice, palliative care, professional issues, and the electronic health record. Written by Michele Leonardi Darby, Margaret M. Walsh, and a veritable Who's Who of expert contributors, *Dental Hygiene* follows the Human Needs Conceptual Model with a focus on client-centered care that takes the entire person into consideration.

UNIQUE! Human Needs Conceptual Model framework follows Maslow's human needs theory, helping hygienists treat the whole patient — not just specific diseases. Comprehensive coverage addresses the need-to-know issues in dental hygiene — from the rationale behind the need for dental hygiene care through assessment, diagnosis, care planning, implementation, pain and anxiety control, the care of individuals with special needs, and practice management. Step-by-step procedure boxes list the equipment required and the steps involved in performing key procedures. Rationales for the steps are provided in printable PDFs online. Critical Thinking exercises and Scenario boxes encourage application and problem solving, and help prepare students for the case-based portion of the NBDHE. Client Education boxes list teaching points that the dental hygienist may use to educate clients on at-home daily oral health care. High-quality and robust art program includes full-color illustrations and clinical photographs as well as radiographs to show anatomy, complex clinical procedures, and modern equipment. Legal, Ethical, and Safety Issues boxes address issues related to risk prevention and management. Expert authors Michele Darby and Margaret Walsh lead a team of international contributors consisting of leading dental hygiene instructors, researchers, and practitioners. NEW chapters on evidence-based practice, the development of a professional portfolio, and palliative care provide research-based findings and practical application of topics of interest in modern dental hygiene care. NEW content addresses the latest research and best practices in attaining clinical competency, including nutrition and community health guidelines, nonsurgical periodontal therapy, digital imaging, local anesthesia administration, pharmacology, infection control, and the use of the electronic health record (EHR) within dental hygiene practice. NEW

photographs and illustrations show new guidelines and equipment, as well as emerging issues and trends. NEW! Companion product includes more than 50 dental hygiene procedures videos in areas such as periodontal instrumentation, local anesthesia administration, dental materials manipulation, common preventive care, and more. Sold separately.

**Civic Engagement in Later Life** Rodrigo Serrat, 2025-05-29 Available open access digitally under CC-BY-NC-ND licence. Older adults' civic engagement has become a key concern in academic and policy debates in recent years. However, existing studies on this topic remain fragmented across various conceptual and methodological approaches. This book provides a comprehensive, interdisciplinary and multidimensional perspective on older adults' civic engagement. It proposes a conceptual framework which understands civic engagement as a multidimensional concept encompassing a diversity of activities through which older adults contribute to their communities and wider society. Contributors explore the factors shaping older adults' participation in various civic activities across the life course, considering their diversity in terms of social locations such as gender, health status, migrant background, socioeconomic background and residential arrangements. By analysing past and current research, policy and practice, the book offers recommendations for future efforts to advance the field.

Additional chapters cover Enrichment of DNA replication intermediates by EdU pull down, DNA curtains for studying phase separation mechanisms of DNA-organizing proteins, Visualizing the Dynamics of DNA Replication and Repair at the Single-Molecule Molecule Level, Cloning and Expansion of Repetitive DNA Sequences, Using an ImageJ-based script to detect replication stress and associated cell cycle exit from G2 phase by fluorescence microscopy Arne Lindqvist - Provides the authority and expertise of leading contributors from an international board of authors - Presents the latest release in the Methods in Cell Biology series - Updated release includes the latest information on the DNA Damage and Chromosomal Instability

Research Methods in Physical Activity and Health Stephen R. Bird, 2018-12-07 Physical activity is vital for good health. It has an established strong evidence base for its positive effects on functional capacity, reducing the risk of many chronic diseases, and promoting physical, mental and social well-being. Furthermore, these benefits are evident across a diversity of ages, groups and populations. The need for these benefits in current societies means that exercise practitioners, professional bodies, institutions, health authorities and governments require high quality evidence to establish appropriate exercise guidelines, implementation strategies and effective exercise prescription at individual, group and population levels. Research Methods in Physical Activity and Health is the first book to comprehensively present the issues associated with physical activity and health research and outline methods available along with considerations of the issues associated with these methods and working with particular groups. The book outlines the historical and scientific context of physical activity and health research before working through the full research process, from generating literature reviews and devising a research proposal, through selecting a research methodology and quantifying physical activity and outcome measures, to disseminating findings. Including a full section on conducting research studies with special populations, the book includes chapters on: Observational and cross-sectional studies; Interviews, questionnaires and focus groups; Qualitative and quantitative research methods; Epidemiological research methods; Physical activity interventions and sedentary behaviour; and Working with children, older people, indigenous groups, LGBTI groups, and those with physical and mental health issues. Research Methods in Physical Activity and Health is the only book to approach the full range of physical activity research methods from a health perspective. It is essential reading for any undergraduate student conducting a research project or taking applied research modules in physical activity and health, graduate students of epidemiology, public health, exercise psychology or exercise physiology with a physical activity and health focus, or practicing researchers in the area.
