Raising an Active Reader Samantha Cleaver, 2020-05-18 This book will prove a valuable resource for parents, teachers, and librarians on the vital topic of reading aloud. Library Journal, Starred Review Parents and teachers know that reading aloud to children is important, and many parents of infants and toddlers read aloud to them daily. However, when children start to read on their own, parents often stop reading aloud. But these early elementary school years are actually a perfect time to build vocabulary and comprehension skills through reading aloud and Active Reading. Raising an Active Reader makes clear the process of learning to read, how Active Reading fits into raising strong readers, and what adults can do to encourage strong language, comprehension, and vocabulary in children in grades K-3. This book extends on the ABCs of Active Reading (Ask Questions, Build Vocabulary, and make Connections) as they apply to older children for picture books, chapter books, and novels. It provides parents and teachers with examples, clear explanations, and ideas for making one-on-one or small group read aloud sessions a powerful way to build children's early literacy and language skills, all while creating a lifelong love of reading.

At Arm's Length Mike Cadden, 2021-06-28 Literary critics and authors have long argued about the importance or unimportance of an author's relationship to readers. What can be said about the rhetorical relationship that exists between author and reader? How do authors manipulate character, specifically, to modulate the emotional appeal of character so a

reader will feel empathy, awe, even delight? In *At Arm's Length: A Rhetoric of Character in Children's and Young Adult Literature*, Mike Cadden takes a rhetorical approach that complements structural, affective, and cognitive readings. The study offers a detailed examination of the ways authorial choice results in emotional invitation. Cadden sounds the modulation of characters along a continuum from those larger than life and awe inspiring to the life sized and empathetic, down to the pitiable and ridiculous, and all those spaces between. Cadden examines how authors alternate between holding the young reader at arm's length from and drawing them into emotional intensity. This balance and modulation are key to a rhetorical understanding of character in literature, film, and television for the young. Written in accessible language and of interest and use to undergraduates and seasoned critics, *At Arm's Length* provides a broad analysis of stories for the young child and young adult, in book, film, and television. Throughout, Cadden touches on important topics in children's literature studies, including the role of safety in children's media, as well as character in multicultural and diverse literature. In addition to treating "traditional" works, he analyzes special cases—forms, including picture books, verse novels, and graphic novels, and modes like comedy, romance, and tragedy.

The Publishers Weekly ,1972

The Rending and the Nest Kaethe Schwehn,2018-02-20 A chilling yet redemptive post-apocalyptic debut that examines community, motherhood, faith, and the importance of telling one's own story. When 95 percent of the earth's population disappears for no apparent reason, Mira does what she can to create some semblance of a life: She cobbles together a haphazard community named Zion, scavenges the Piles for supplies they might need, and avoids loving anyone she can't afford to lose. She has everything under control. Almost. Four years after the Rending, Mira's best friend, Lana, announces her pregnancy, the first since everything changed and a new source of hope for Mira. But when Lana gives birth to an inanimate object--and other women of Zion follow suit--the thin veil of normalcy Mira has thrown over her new life begins to fray. As the Zionites wrestle with the presence of these Babies, a confident outsider named Michael appears, proselytizing about the world beyond Zion. He lures Lana away and when she doesn't return, Mira must decide how much she's willing to let go in order to save her friend, her home, and her own fraught pregnancy. Like *California* by Edan Lepucki and *Station Eleven* by Emily St. John Mandel, *The Rending and the Nest* uses a fantastical, post-apocalyptic landscape to ask decidedly human questions: How well do we know the people we love? What sustains us in the midst of suffering? How do we forgive the brokenness we find within others--and within ourselves?

How to Write a Children's Picture Book Volume III: Figures of Speech Eve Heidi Bine-Stock,2017-03-05

Recommended by writing instructors and award-winning children's authors. Many of us think of children's picture books as being written mostly with simple declarative sentences. What an eye-opener to learn that they are actually filled with delightful figures of speech. I am not talking here about the common figures of speech we learn about in grade school: simile,

onomatopoeia, alliteration, hyperbole and personification. I am talking about more subtle and sophisticated figures of speech which we may not even recognize as figures at all (until they are pointed out to us), but their use gives stories a charm and freshness that stands up to repeated readings. These figures have names which are eminently forgettable but the figures themselves make the stories in which they appear eminently memorable. In this volume, I point out many figures which appear in masterworks of children's picture storybooks, so that they may be appreciated and savored, and their patterns emulated in your own work.
