They Never Said It : A Book of Fake Quotes, Misquotes, and Misleading Attributions Paul F. Boller Jr. Emeritus Professor of History Texas Christian University,Oklahoma John George Jr. Professor of Political Science and Sociology Central State University,1989-05-18 Abraham Lincoln never said, You cannot fool all the people all the time. Thomas Jefferson never said, That government is best which governs least. And Horace Greeley never said, Go west, young man. In *They Never Said It*, Paul Boller, Jr., and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why they should be consigned to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, The best part of valor is discretion), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, My fellow immigrants). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, are blatantly dishonest and falsify the historical record. And others are chillingly vicious, filled with virulent racial and religious prejudices that completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America, and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and yet thought-provoking book, *They Never Said It* sorts out a great deal of history and sets it right, going beyond a mere catalog of popular misconceptions to reveal how conservatives and liberals, atheists and evangelists, all have at times twisted and even invented the words of eminent figures to promote their own ends. It is the ultimate debunking reference, a perfect complement to handbooks of quotations.

The Theology of Paul in Three Dimensions Richard H. Bell,2022-09-29 Paul of Tarsus, the Pharisee who tried to destroy the church of God, experienced a conversion to faith in Jesus Christ that was to turn his life upside down and lead to his becoming one of the greatest missionaries and theologians of all time. His theology is highly controversial and has both inspired and appalled his listeners. Richard Bell presents the major themes in Paul's theology and also asks what he got right,

what he got wrong, and what in his theology needs reinterpreting for the twenty-first century. The book thereby shows the ongoing relevance of Paul's thought for today. To accompany this volume, a website of music designed to add an experiential dimension in discovering Paul's message for the world can be found at richardhbell.co.uk.

A New Dictionary of Quotations from the Greek, Latin, and Modern Languages ,1869

Old Testament Quotations in Hebrews Georg Walser,2013 This thesis aims at investigating the use of the Old Testament in the New, and in Hebrews specifically, focusing on two aspects which appear to have been somewhat neglected in previous scholarship, namely the text and context of specific quotations. The aspect of text takes the complicated textual history of the Old Testament into account, especially concentrating on the findings of recent Septuagint research and particularly the possibility that different Hebrew texts may underlie the Greek translation. The aspect of context draws on the assumption that Hebrews was composed in a Jewish context, where the Old Testament text had been interpreted for a long time. It is also presupposed that this exegesis was handed down along with the Hebrew Scriptures not only in the post Second Temple Jewish community, but also in the early Church. Hence primary sources, such as Talmud, Midrash and early Church Fathers, are consulted with the intention of better understanding the interpretation of the Old Testament quotations in Hebrews. To do this three Old Testament texts, which exist in distinctly different versions and have been quoted in Hebrews, have been examined, namely Gen. 47:31b (in Heb. 11:21), Ps. 40:7b (in Heb. 10:5), and Jer. 31:33 (in Heb. 8:10 and 10:16). The outcome of this study shows that several versions of Old Testament texts were interpreted at the time of the New Testament and that the peculiarities of the different versions had a decisive impact on the exegesis of the texts. Further, it shows that some versions of the texts were favoured in the Jewish context while others were preferred in the early Church. Hence different understandings of Old Testament passages in different contexts are sometimes not the result of different interpretations of the same texts, but of the exegesis of different versions of the same text.

Pesticide Law and Compliance Decision Making Huiqi Yan, 2017-08-10 This book investigates pesticide compliance in China in order to provide a more comprehensive understanding of compliance and offers some feasible and adaptable suggestions for enhancing the effectiveness of this compliance. It discusses the weak implementation of Chinese laws and rules and emphasizes the necessity and importance of a compliance perspective in China that focuses on why laws are obeyed or broken. It examines how vegetable farmers' perceptions of amoral calculation affect their pesticide compliance behavior and analyzes how the legitimacy of law is related to compliance to better explain how all the variables interact to shape compliance. It discusses both qualitative and quantitative methods, and uses a large-N qualitative approach, which allows for systematic analysis and in-depth exploration. This book will help readers to understand compliance in developing China by adopting and developing compliance theories which are broadly developed in the West.

The Development of Ethics: Volume 2 Terence Irwin, 2008-07-31 The Development of Ethics is a selective historical and critical study of moral philosophy in the Socratic tradition, with special attention to Aristotelian naturalism. It discusses the main topics of moral philosophy as they have developed historically, including: the human good, human nature, justice, friendship, and morality; the methods of moral inquiry; the virtues and their connexions; will, freedom, and responsibility; reason and emotion; relativism, subjectivism, and realism; the theological aspect of morality. This volume examines early modern moral philosophy from the sixteenth to the eighteenth century. Volume 3 will continue the story up to Rawls's Theory of Justice. The present volume begins with Suarez's interpretation of Scholastic moral philosophy, and examines seventeenth- and eighteenth- century responses to the Scholastic outlook, to see how far they constitute a distinctively different conception of moral philosophy. The treatments of natural law by Grotius, Hobbes, Cumberland, and Pufendorf are treated in some detail. Disputes about moral facts, moral judgments, and moral motivation, are traced through Cudworth, Clarke, Balguy, Hutcheson, Hume, Price, and Reid. Butler's defence of a naturalist account of morality is examined and compared with the Aristotelian and Scholastic views discussed in Volume 1. The volume ends with a survey of the persistence of voluntarism in English moral philosophy, and a brief discussion of the contrasts and connexions between Rousseau and earlier views on natural law. The emphasis of the book is not purely descriptive, narrative, or exegetical, but also philosophical. Irwin discusses the comparative merits of different views, the difficulties that they raise, and how some of the difficulties might be resolved. The book tries to present the leading moral philosophers of the past as participants in a rational discussion that is still being carried on, and tries to help the reader to participate in this discussion.
