**Sociología e historia de la ciudad desconcentrada** Otero Enríquez, Raimundo,2017-12-30 El estudio de las relaciones centrífugas entre la ciudad y sus espacios circundantes ha ocupado tradicionalmente un lugar muy destacado en los escenarios teóricos y empíricos de la sociología urbana y rural. Tales relaciones, o procesos de desconcentración urbana, están generando una ingente cantidad de preguntas difíciles de responder: ¿qué tipos de periferias existen en los tramas metropolitanos actuales?, ¿cómo han evolucionado en los últimos años los suburbios de las megaciudades?, ¿qué elementos caracterizan a los hábitats exurbanos transcontinentales?, ¿hasta qué punto los fenómenos contraurbanos han alterado las interacciones campo-ciudad durante las pasadas décadas? Este libro trata de proponer, mediante un análisis histórico-comparativo que comienza en la Antigüedad, un marco teórico holístico que nos ayude a comprender las complejas variables estructurales y superestructurales que vertebran los procesos de desconcentración urbana. También pretende, a través de un estudio de caso centrado en el sistema territorial español, cuestionar las visiones historicistas y unidireccionales del cambio urbano.

Encounters and Engagements between Economic and Cultural Geography Barney Warf,2012-04-05 The intellectual renaissance of human geography has included a widespread engagement between its economic and cultural subdisciplines. This volume adopts a variety of conceptual and empirical perspectives on the encounters between economic and cultural geographers. It offers an introduction and 10 chapters by authors in a variety of national contexts to explicate issues such as the cultural turn in economic geography, the cultural construction of economic geographic thought, consumption, gender, everyday life, commodity chain analysis, trust, networks, the creative economy, and tourism. The volume contains empirical analyses utilizing both quantitative and qualitative approaches at spatial scales ranging from the individual to the global economy. In illustrating how human geographers can ill afford to subscribe to the analytically false dichotomy between "culture" and "the economy," the book explicates how cultural and economic geography can be seamlessly integrated , bringing them into a creative tension to their mutual benefit.

*Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES)* Hans-Josef Niederehe,1994-01-01 Annotation Since the publication of the still very valuable Biblioteca histórica de la filología by Cipriano Muñoz y Manzano, conde de la Viñaza, (Madrid, 1893), our knowledge of the history of the study of the Spanish language has grown considerably. It has been the purpose of BICRES I (from the beginnings to 1600), published in 1994 in the same series, to bring already available bibliographical information together with the more recent research findings, scattered in many places, books and articles and published during the past one hundred years. Now, the second volume, covering the years from 1601 to 1700, has been published, according to the same principles as the first one. Years of work in the major librairies of Spain and other European countries have gone into this new bibliography in order to offer as exhaustive as possible a description of all Spanish grammars and dictionaries, histories of the Spanish language as well studies devoted to particular facets of its evolution in the 17th century. BICRES II brings together in chronological order close to 1,300 titles. Access to the bibliographical information is facilitated by several detailed indexes, such as author index, short title index, index of places of production, index of printers and publishers, and a index of locations of the books described. Desde la publicación de la muy meritoria y aún hoy útil Biblioteca histórica de la filología castellana (Madrid, 1893) de Cipriano Muñoz y Manzano, conde de la Viñaza, nuestros cono-cimientos sobre la historia de la lingüística española

se han ensanchado considerablemente. Fue el propósito de BICRES I ( desde los comienzos hasta 1600 ), que se publicó en 1994 en esta misma serie, sumar, a los datos bibliográficos conocidos, la información más reciente aparecida durante los últimos cien años en los más diversos lugares. BICRES II presenta la información correspondiente a los años 1601-1700 manteniendo los mismos principios metodológicos que fueron empleados en el primer volumen. Para terminar esta nueva bibliografía han sido necesarios años de trabajo en bibliotecas españolas y europeas. De esta manera se ha conseguido reunir la máxima cantidad disponible de datos sobre gramáticas y diccionarios de la lengua española publicados en el siglo XVII, así como sobre historias de la lengua española y estudios dedicados a los más variados aspecto de su desarrollo. La Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES II) ofrece, en orden cronológico, apoximadamente 1.300 títulos. Una serie de índices detallados (autores, títulos abreviados, lugares de publicación, impresores y editores y, finalmente, paraderos) facilita el acceso a la infomación bibliográfica.
