The Oil & Gas Year Ghana 2019 The Energy Year, 2019-11-12 TOGY is proud to present the The Oil & Gas Year Ghana 2019, published in collaboration with Ghana Oil Club. This third edition covers the lessons learned from the global oil price downturn and the opportunities that are becoming available as commodity prices recover. The book also provides readers with a complete perspective of the country's main energy projects and steps the government is taking to draw in more foreign investment. Due to a prospective upswing in oil and gas activity, Ghana's offshore industry continues to expand, with capacities being renovated at the main ports of Tema and Takoradi. Meanwhile, companies continue bringing in new technologies to advance Ghana's E&P and renewables potential as the country modernises. Moreover, Ghana's downstream sector is hugely competitive. As Ghana works to promote investment in its oil and gas industry, surrounding sectors are being hit with massive changes. Ensuring the competence of next generations, major firms and universities have launched courses or research chairs in petroleum studies. Extensive in-depth analysis is supported by comprehensive maps, illustrations and graphs to create a market guide essential for players seeking to either expand their operations or enter the Ghanaian oil and gas market.

The Oil & Gas Year Ghana 2020 The Energy Year, 2020-08-21 "Given the number and calibre of the companies that expressed interest in our maiden oil and gas licensing round, it suffices to say that Ghana's oil and gas industry is attractive and promising." Hon. John Peter Amewu, Minister of Energy The Oil & Gas Year Ghana 2020 delves into the country's developments a decade after first oil. This year's edition covers a range of topics, including the country's first-ever licensing round, measures aimed at boosting investor confidence, the government's plans to turn Ghana into a regional logistics and petroleum hub, the increasing role gas is playing in the country's energy mix and the achievements of the local content law since its enactment in 2013. "The exciting aspect about this achievement [the Afina-1x well discovery] is that it's not just for Springfield, but is for the entire continent - to say that Africans can do things and we do them very well once we put our minds to it. We think that this will unleash the potential of Africa." Kevin Okyere, Founder and CEO of Springfield Group, TOGY Ghana 2020 Indigenous Company of the Year Ghana is putting the pieces in place to increase its energy profile on the African continent, such as expanding E&P activities to reach 500,000 bopd by 2024, initiating policies to increase transparency in the awarding of blocks and ultimately creating a regional hub for the hydrocarbons industry. Produced in

partnership with the Ministry of Energy, this fourth edition of The Oil & Gas Year Ghana provides insight to investors and companies looking at strategic opportunities in the country at a time when Ghana's oil and gas industry is aiming to double production.

The Energy Year Ghana 2022 The Energy Year,2022-04-08 "This is a country where the demand profile around resources is growing significantly. The demographics are very exciting, so we are extremely bullish on Ghana." Wissam Al Monthiry, Managing Director, Tullow Oil Ghana The Energy Year Ghana 2022 highlights Ghana's strategy to monetise its hydrocarbons resources and capitalise on its socioeconomic stability to become a regional petrochemicals hub and to spread the use of natural gas and LNG - altogether reinforcing the country's potential as an emerging energy hub in West Africa. "Using natural gas as the fuel for industrial expansion is going to be the pillar of growth for socioeconomic development in the whole African continent." Ben Asante, CEO, Ghana National Gas Company The Energy Year Ghana 2022 portrays a detailed picture of Ghana's energy scene under President Nana Akufo-Addo's renewed administration, focusing on the varied efforts the country is undertaking to enhance its oil and gas production, upgrade its refining capacity and push for an energy transition. This edition's Year's Focus chapter on oil and gas infrastructure includes an infographic detailing the petroleum hub development plans and an editorial focus on the projects, companies and service providers that are setting the groundwork for Ghana's energy self-sufficiency. Produced in partnership with the Ministry of Energy, National Petroleum Authority and the Petroleum Commission, this fifth edition of The Energy Year's Ghana series delivers insight to potential investors on the government's efforts to push the energy industry forward, providing a clear picture of Ghana's opportunities at a time when gas is the new oil and the country is driven by its pursuit of the energy transition.
