Killing Strangers T. K. Wilson, 2020-09-02 A bewildering feature of so much contemporary political violence is its stunning impersonality. Every major city centre becomes a potential shooting gallery; and every metro system a potential bomb alley. Victims just happen, as the saying goes, to 'be in the wrong place at the wrong time'. We accept this contemporary reality - at least to some degree. But we rarely ask: where has it come from historically? *Killing Strangers* tackles this question head on. It examines how such violence became 'unchained' from inter-personal relationships. It traces the rise of such impersonal violence by examining violence in conjunction with changing social and political realities. In particular, it traces both 'push' and 'pull' - the ability of modern states to force the violence of their challengers into niche forms: and the disturbing new opportunities that technological changes offer to cause mayhem in fresh and original ways. *Killing Strangers* therefore aims to highlight the very strangeness of contemporary experience when it is viewed against a long-term perspective. Atrocities regularly capture media attention - and just as quickly fade from public view. That is both tragic - and utterly predictable. Deep down we expect no different. And that is why such atrocities must be repeated if our attention is to be re-engaged. Deep down we expect that, too. So *Killing Strangers* deliberately asks the very simplest of questions. How on earth did we get here?
