Cultures of the West Clifford R. Backman, 2019 *Cultures of the West: A History*, Third Edition, focuses on the ways in which the major ideas and passions of Western culture developed, internally, and how they interacted with the broader world—for good and for ill. The development of such key ideas as religion, science, and philosophy form the central narrative of this book. *Cultures of the West* stands apart from other textbooks in a variety of ways, the first being thematic unity. What did people think and believe, throughout our history, about human nature, the right way to live, God, the best forms of government, or the meaning of human life? Rather than maintaining a single interpretive stance, author Clifford R. Backman relies upon a consistent set of questions: What did people think and feel throughout the centuries about politics, science, religion, and sex? How did they come to their positions regarding the right way to live? Backman's many years of experience in the classroom have informed his approach—students respond to engaging questions more than they are inspired by facts.

The West A. Daniel Frankforter, William M. Spellman, 2003 This book interprets Western civilization broadly—continuing to discuss the Middle East beyond the confines of the ancient period. The chronologically organized narrative integrates political, social, economic, and intellectual history. It broadens readers' perspective on the American experience in context with the rest of the world, and helps them discover bridges to other cultures and develop sympathy with their struggles. **KEY TOPICS** Chapter topics cover The archaic states of the Bronze Age, The Iron Age, Aegean civilization, the Hellenistic era and the rise of Rome, Rome's empire and the unification of the Western world, the West's medieval civilization, the emergence of Europe, Europe's High Middle Ages, Renaissance and exploration, Europe's scientific revolution, American independence and the French Revolution, the Age of Ideology in Western Europe—1815-1848, Europe and the World—1870-1914, World War I, the Troubled Inter-War Years—1919-1939, World War II, the Cold War and bipolarism, and the end of empires. For an understanding of the processes that formed the Western way of life.

Occidentalism James G. Carrier, 2023 'Occidentalism' is an investigation of images of Western cultural identity. Edward Said's *Orientalism* revolutionized Western understanding of non-Western cultures by showing how Western projected images

shaped the Occidental of the Orient, but those who follow Said have not until now reflected that understanding back onto Western societies. The text shows how images of the West shape people's conceptions of themselves and others, and how these images are in turn shaped by members of Western and non-Western societies alike. The contributors describe and explicate these images in a variety of areas, from Western academic writing to popular Western culture, from societies within and outside the West, to show how power and conflict shape such conceptions.

The Arab Gulf and the West B.R. Pridham, 2020-09-23 For many decades the Arab Gulf was considered to be a Western - particularly British - sphere of influence. Much has changed in recent years: the states in the region have come to control their own destinies much more, and Britain has been supplanted by the US as the Western country with the greatest interests in the region. However, the picture has been complicated by differences of opinion within the region and by wider international relations issues. This book, first published in 1985, examines the relations between the Arab Gulf and the West in all their ramifications. Considering the question from historical, economic, cultural and international relations perspectives, it puts forward views both from a Western and a Gulf standpoint. It concludes with a discussion of current trends and likely future developments.

Home Is a Roof Over a Pig Aminta Arrington, 2012-07-05 “[A] down-to-earth memoir chronicling her family’s stint in the Chinese province of Shandong on the eve of the Beijing Olympics” (Publishers Weekly). When Aminta Arrington moves with

her husband and three young children (including a daughter adopted from China) from suburban Georgia to Tai'an, a city where donkeys share the road with cars, the family is bewildered by seemingly endless cultural differences large and small. But with the help of new friends, they soon find their way. Full of humor and unexpectedly moving moments, *Home Is a Roof Over a Pig* recounts a transformative quest with a freshness that will delight. "A brutally honest and fascinating peek at life for an American family living in a foreign country. I was engrossed in the story as Arrington used her humor, and ultimately understanding and flexibility to survive, realize, and eventually love the contradictory land of China." —Kay Bratt, bestselling author of *Silent Tears: A Journey of Hope in a Chinese Orphanage* "The power of Aminta Arrington's *Home Is a Roof Over a Pig* is you can see both sides of the 'China coin' from it—something most people won't get just by traveling through, or only by hearing about China in Western languages. Read it, it will help you dip into the real China." —Xinran, author of *The Good Women of China* "A military wife turned ESL instructor's sharp-eyed account of how the adoption of a Chinese baby girl led to her family's life-changing decision to live and work in rural China . . . Candid and heartfelt." —Kirkus Reviews
