Differencing the Canon Griselda Pollock, 2013-04-15 In this major book, Griselda Pollock engages boldly in the culture wars over 'what is the canon?' and 'what difference can feminism make?' Do we simply reject the all-male line-up and satisfy our need for ideal egos with an all women litany of artistic heroines? Or is the question a chance to resist the phallogocentric binary and allow the ambiguities and complexities of desire - subjectivity and sexuality - to shape the readings of art that constantly displace the present gender demarcations?

The Portfolio of Villard de Honnecourt (Paris, Bibliothèque Nationale de France, MS Fr 19093) Carl F. Barnes, 2009 This book by Carl Barnes presents the first high-quality colour facsimile of a key manuscript of Gothic art and architecture and medieval scientific thought, the 'Portfolio' of Villard de Honnecourt, and gives the first complete codicological and palaeographical analysis of the text. Barnes clearly identifies what is and what is not known about Villard himself and the

drawings and text in the manuscript, so removing many of the multiple layers of speculation that have clouded study of the work. The book is completed by an extensive bibliography of studies relating to Villard.

"That Tongue Be Time" Dale M. Smith, 2025-06-03 Originally from Canada, Norma Cole is a revered writer and visual artist who has authored and translated over thirty books and chapbooks. Though highly esteemed internationally in both visual art and poetry circles, Cole's association with the New College of California and her influence on artists and poets has been overlooked by scholars. In "That Tongue Be Time," Dale M. Smith seeks to remedy this oversight by bringing together sixteen noted scholars, editors, and poets to examine Cole's poetry, translations, and visual art in order to place her within the larger scholarly conversation about contemporary poetry and poetics. The book also includes a number of black-and-white reproductions of Cole's art and a contextual introduction by Smith. "That Tongue Be Time" provides a groundbreaking look at Norma Cole's lasting influence on multiple generations of poets, visual artists, and scholars and should be on the shelf of anyone interested in contemporary poetry.

The Athenian Woman Sian Lewis, 2013-09-05 Here Sian Lewis considers the full range of female existence in classical Greece - childhood and old age, unfree and foreign status, and the ageless woman characteristic of Athenian red-figure painting. Ceramics are an unparalleled resource for women's lives in ancient Greece, since they show a huge number of female types and activities. Yet it can be difficult to interpret the meanings of these images, especially when they seem to conflict with literary sources. This much-needed study shows that it is vital to see the vases as archaeology as well as art, since context is the key to understanding which images can stand as evidence for the real lives of women, and which should be reassessed.

Sex and the Ancient City Andreas Serafim, George Kazantzidis, Kyriakos Demetriou, 2022-05-09 This volume aims to revisit, further explore and tease out the textual, but also non-textual sources in an attempt to reconstruct a clearer picture of a particular aspect of sexuality, i.e. sexual practices, in Greco-Roman antiquity. Sexual practices refers to a part of the overarching notion of sexuality: specifically, the acts of sexual intercourse, the erogenous capacities and genital functions of male and female body, and any other physical or biological actions that define one's sexual identity or orientation. This volume aims to approach not simply the acts of sexual intercourse themselves, but also their legal, social, political, religious, medical, cultural/moral and interdisciplinary (e.g. emotional, performative) perspectives, as manifested in a range of both textual and non-textual evidence (i.e. architecture, iconography, epigraphy, etc.). The insights taken from the contributions to this volume would enable researchers across a range of disciplines – e.g. sex/gender studies, comparative literature,

psychology and cognitive neuroscience – to use theoretical perspectives, methodologies and conceptual tools to frame the sprawling examination of aspects of sexuality in broad terms, or sexual practices in particular.
