Sanando la memoria Alfonso Puncel Chornet,Xavier Garcia Ferrandis,2025-02-05 A pesar de que la política sanitaria reformista fue uno de los pilares de los sucesivos gobiernos de la República, durante la Guerra Civil se tuvo que reorganizar la sanidad para poder atender las necesidades asistenciales derivadas del estado de guerra y miles de profesionales sanitarios tuvieron que dejar sus carreras. Uno de ellos fue Julio Chornet López (1889-1946), ginecólogo y sexólogo, concejal socialista del Ayuntamiento de Valencia (1936-1937) y presidente del sindicato médico de Valencia, adscrito a la UGT. Este libro habla de su vida, recuperada por su nieto con la finalidad de acabar con el silencio y empezar a sanar la memoria. En él se recoge su transformación personal, profesional e ideológica desde su primera militancia hasta su afiliación a la UGT y el PSOE. Su compromiso le supuso, el mismo día de la entrada de las tropas franquistas en Valencia, su detención, encarcelamiento y condena a doce años, así como su depuración profesional por el Colegio de Médicos de Valencia. El 18 de enero de 2023 el Gobierno de España resolvió declarar ilegales e ilegítimos todos los tribunales penales o administrativos que le juzgaron, así como las sentencias y resoluciones dictadas.

Morir matando Diego Navarro Bonilla,2012-10-02 Todas las guerras generan sus trincheras. La elección de una de ellas depende de lo cerca que se quiera estar de la muerte, de la gloria o de la ignominia. En mayo de 1939, milicianos anarquistas del Servicio de Información Especial Periférico se escaparon del campo de Albatera. Recorrieron 600 kilómetros para matar al cacique de su pueblo antes de emprender el exilio francés. Todo salió mal. Uno de ellos, enfrentado a la Guardia Civil, murió matando. Ese mismo mes de mayo, con la Guerra Civil finalizada, seguían llegando toneladas de documentos a Salamanca. Allí, desde otra trinchera, hecha de legajos, sacos de papeles, máquinas de escribir y turnos de trabajo sin cesar, se completó la mayor gesta organizativa con fines represivos nunca vista en la España contemporánea: la elaboración de casi dos millones de fichas personales con las que llevar a cabo la depuración del Nuevo Estado nacido de la victoria. En una época preinformática esta increíble planificación, ejecutada por un reducido grupo de hombres y mujeres, alumbró el mayor archivo de la historia de España con una implacable finalidad de control social. Este libro se adentra en aquellos dos hechos, aparentemente inconexos. Transitar por el registro de la memoria familiar ofreció resultados inesperados. El control de la sociedad por medio de la información obligó a deslizarse por la sórdida burocracia represiva de los bandos enfrentados y

mostró la cara más letal de la represión sistemática de unos y otros. La aplicación de criterios racionales en la organización de la información hizo posible separar, depurar, reprimir, limpiar, eliminar a cuantos quedaron excluidos de la ortodoxia, de los parámetros oficiales o de las nuevas hormas políticas, sociales y religiosas. El III Año Triunfal se coronó exitosamente al crear la Nación fichada, cuyo germen se localizó en la ciudad de Salamanca. En última instancia, la elección de una trinchera u otra se llevó a cabo por medios y recursos muy dispares para contribuir a la victoria final: a golpe de disparo o de ficha.

La Quinta Columna Alberto Laguna Reyes, Antonio Vargas Márquez, 2019-04-24 Ochenta años después del final de la Guerra Civil española, la actuación de la Quinta Columna franquista tras las líneas republicanas sigue siendo todavía una de los aspectos más desconocidos de la contienda. A través de diferentes organizaciones clandestinas, cientos de hombres y mujeres llevaron una doble vida para infiltrarse, obtener información del enemigo y preparar evasiones hacia la zona franquista. Eran, en su mayoría, personas anónimas cuyas acciones nunca fueron dadas a conocer por las autoridades, pero que lograron cambiar una parte de la Historia de esta guerra. Por primera vez, todas estas extraordinarias historias de «emboscados» en territorio republicano llegan a los lectores en un relato riguroso y vibrante que reconstruye la otra guerra que se libró en España entre 1936 y 1939; la guerra secreta en territorio enemigo.

Escondidos José Luis González Gullón, 2018-03-06 El inicio de la Guerra Civil española, en 1936, sorprendió al fundador del Opus Dei y a la mayoría de sus miembros en la zona republicana. Todos se escondieron para evitar la dura represión revolucionaria. Con el paso de los meses, los refugios y asilos dieron paso a las escapadas y expediciones. Gracias al desvelo de José María Escrivá, el Opus Dei sobrevivió en medio de la tragedia desencadenada por el conflicto armado.

Mundos de ayer Encarna Nicolás,Carmen Gonzalez,2009 Las investigaciones recopiladas en este libro demuestran la riqueza y diversidad de lo que actualmente se investiga en Historia Contemporánea. Para facilitar la lectura, los contenidos se han distribuido en seis partes y dieciocho capítulos. Se abordan temas tan atractivos como los referidos a Europa y sus memorias (E. Traverso), las conmemoraciones en la historia (A. Azuela), el Estado y sus instituciones (M. Chust y J. A. Serrano; J. L. Rodríguez; J. Ponce), culturas políticas y conflictos ideológicos (M. Pérez Ledesma y M. Suárez Cortina; J. De la Cueva y Feliciano Montero; F. Archilés), las sociedad agraria, urbana y las investigaciones socioambientales (S. Cruz; J. Pérez Serrano; A. Ortega y M. González de Molina), la conflictividad social (E. González Calleja y J. L. Ledesma; Carme Molinero y Pere Ysàs), fuentes y sujetos de la historia (M. Ortiz), las relaciones internacionales de España (J. B. Vilar; J. C. Pereira) y la transición a la democracia española en perspectiva comparada con otros contextos nacionales (C. González y E. Nicolás).

Violencia roja y azul Francisco Espinosa Maestre,2010 El tema de la violencia en la España de la guerra civil y de los años siguientes, en los que se siguió procesando por delitos de guerra, necesitaba no solo una actualización, sino un nuevo planteamiento. Lo que aquí se ofrece no es un simple estado de la cuestión que añada a lo ya sabido las aportaciones de lo que se ha investigado en la última década, sino una nueva forma de enfrentarse al problema a través de tres estudios, precedidos de una visión de conjunto de Francisco Espinosa. José María García Márquez se ocupa, en una innovadora investigación local, de la parcela peor conocida: la del terror azul que siguió de inmediato al triunfo del golpe militar. José Luis Ledesma analiza la violencia roja en la zona republicana y Pablo Gil Vico la represión judicial militar desde sus inicios en 1936 hasta 1950. Hay mucho de nuevo en este libro. Esta es la primera vez, por ejemplo, en que el terror rojo y el azul son examinados con el mismo rigor. Más allá de las cifras, además, la aproximación a los casos individuales que permite la investigación en los archivos da un extraordinario calor humano a esta terrible historia.

Los horrores de la Guerra Civil José María Zavala,2011-03-18 El lado oscuro y menos conocido de la Guerra Civil, a través de diversos testimonios de los horrores y excesos cometidos por ambos bandos en la retaguardia. Este libro no dejará indiferente a nadie. A partir de más de doscientos testimonios y vivencias estremecedoras de los dos bandos, Los horrores de la Guerra Civil propone una lectura de la historia que atiende a aquellos que normalmente no tienen lugar en los libros. Sus protagonistas son personas con nombres y apellidos que no murieron en el frente, sino vilmente asesinadas en las retaguardias nacional y republicana. Los horrores de la trágica Guerra Civil, reunidos por primera vez en una impresionante obra, en la que el lector hallará también un completo diccionario de la represión, así como la biografía de los principales políticos y militares de aquel terrible enfrentamiento, y una extensa bibliografía y una rigurosa cronología de los acontecimientos más destacados. Un trabajo exhaustivo y ecuánime, en suma, que, dejando a un lado los intereses partidistas y las disputas de los historiadores por dirimir cuál de los dos bandos asesinó más, se ocupa de los auténticos protagonistas: las víctimas. Reseña: «Una obra original y de gran envergadura, recomendable por su objetividad y ausencia de espíritu

partidista.» Stanley G. Payne

Anarquismo, una historia Axel Kaiser,Alejandro San Francisco,entre otros,2023-07-07 El anarquismo es un concepto difícil de comprender y este libro intenta abordarlo desde distintos ángulos: sus orígenes y evolución en la historia, su manifestación en América Latina, su expresión en las artes, su ideología política. A través del trabajo de varios autores analiza el movimiento con una mirada contemporánea, que permita entender el renacer del fenómeno anárquico en el siglo XXI.

Rojos Francisco Sevillano Calero,2014-02-11 Rojo, encarnado muy vivo, primer color del espectro solar. Color que tomó, durante los sucesos de febrero de 1917 en Rusia, el cariz de símbolo de la revolución. Color que suscitó, en la convulsa política del período de entreguerras, la fe en alcanzar la utopía igualitaria; y que infundió el miedo por la amenaza a la tradición. Una lucha simbólica, de imágenes contrapuestas del «enemigo». Así también en España, cuando tras el golpe de Estado del 17 y 18 de julio de 1936, la violencia desatada en una situación de guerra se imbricó con la representación propagandística de los «rojos» como enemigos absolutos. Una imagen deshumanizada que la victoria de la «España nacional» arraigó como estereotipo en la visión colectiva, y que ha persistido como lugar común del lenguaje cotidiano.

Living the Death of Democracy in Spain Susana Belenguer,Ciaran Cosgrove,James Whiston,2017-10-02 This volume brings together new interdisciplinary perspectives on the Spanish Civil War, its victims, its contentious ending, and its aftermath. In exploring the slow demise of the Spanish Republic and the course of the Civil War, the authors have chosen to range in turn over cinematic, literary and historical depictions of the era. In addition, reactions elsewhere in Europe to the Spanish conflict are examined; the role of the International Brigades is looked at afresh; the fate of children displaced during the Civil War is explored; and the Spanish anarcho-syndicalist movement is revisited. The volume shows that to be any kind of soldier in the armies of the Republic, or even to be seen as a Republican sympathiser, was to become a non-person in the new order in Spain under Franco, and sets what supporters of the Republic had to endure within the wider European and international context of the period. This book offers timely fresh insights into the failure of the Spanish Republic and into a society that tried in vain to unite its divided people during what was a seismic era in Spain's history. This book was originally published as a special issue of Bulletin of Spanish Studies.

La revolución rusa Orlando Figes,2021-05-20 UN ENSAYO MAGISTRAL SOBRE EL ACONTECIMIENTO POLÍTICO MÁS DETERMINANTE DEL SIGLO XX, POR EL AUTOR DE LOS EUROPEOS. Orlando Figes marca un hito en la historiografía con este ensayo sobre el acontecimiento político más determinante del siglo XX: la toma del poder por el bolchevismo en Rusia. Sin adoctrinar ni manipular, el autor hace emerger ante nosotros el panorama aterrador que

presentaba la Rusia de Lenin, retratando al padre del bolchevismo como el genio político y organizativo que fue, pero sin olvidar su carencia absoluta de escrúpulos políticos, derivada de la interpretación que hacía del marxismo. Su personalidad obsesiva y sectaria resulta determinante para comprender lo acontecido en Rusia a partir de abril de 1917, cuando volvió allí gracias al permiso otorgado por el estado mayor alemán. Figes nos muestra a un Lenin cuya obstinación rayaba en la histeria cada vez que un momento de crisis política ponía sobre la mesa la cuestión del poder, lo único que, en realidad, le importaba. Entrelazando sutilmente las esferas pública y privada, Figes se inscribe en las corrientes historiográficas que, más allá de las trayectorias de los líderes o en las estructuras generales, hacen hincapié en las vidas de la gente de a pie. Así, saca a la luz una realidad social sobrecededora, fruto de un proceso histórico que alteró radicalmente la trayectoria de un pueblo.

Sirviéndose de la prensa, los diarios personales y la correspondencia de esas personas que hasta ahora han permanecido en la sombra, Figes relata de un modo apasionante los grandes hitos de la Revolución, al tiempo que nos brinda una estremecedora imagen de la vida cotidiana. La crítica ha dicho: «Este libro ha hecho mucho más para ayudarnos a entender la Revolución rusa que ningún otro libro que yo conozca.» Eric Hobsbawm «Uno de los trabajos más ambiciosos sobre esta época clave del siglo XX.» El País «Orlando Figes ha escrito un gran libro de historia. Hay temas [...] en los que el nivel alcanzado por la historiografía [...] hace muy difícil marcar un hito. Figes lo ha logrado en el caso del acontecimiento político más determinante del siglo XX: la toma del poder por el bolchevismo en Rusia.» Revista de Libros «La obra de Figes resulta especialmente interesante porque se fundamenta de la manera más sólida en las propias fuentes rusas y al ser algunas de éstas procedentes de personajes particulares permite adentrarse en la psicología de los millones de protagonistas y víctimas de la revolución más relevante del siglo XX.» César Vidal, Libertad Digital «El relato más conmovedor de la Revolución Rusa desde Doctor Zhivago.» The Independent «Dudo que haya alguien en el mundo que conozca la Revolución tan bien como lo hace Figes. [...] Combina el poder dramático, la narrativa absorbente y la erudición magistral - un magnífico tour de force.» Sunday Telegraph «Un libro atractivo y bien documentado [...]. Se mantendrá durante tiempo como un estándar de la erudición histórica.» The New York Times Book Review «Pocos historiadores tienen el coraje de atacar grandes temas; menos tienen la agudeza para lograrlo [...]. La revolución rusa hará más por ayudarnos a entender la Revolución Rusa que cualquier otro libro que conozca.» The London Review of Books «Este libro no es sólo una historia; es un artículo de historia.» The Independent on Sunday

La cuestión catalana II José Luis Ortigosa Martín, 2018-10-08 El problema más grave con que se enfrenta España en la actualidad es el territorial, fuertemente atacado por los nacionalismos, muy especialmente el catalán. Los independentistas catalanes llegarán hasta donde se les deje llegar, hasta donde el Estado quiera permitir la cháchara de la "nación milenaria" y del "destino manifiesto". Las señales no son positivas, porque los partidos constitucionalistas han caído en un depresivo desconcierto y en una peligrosa inacción. Si algo deberíamos haber aprendido todos, es que los nacionalistas siempre

ocupan, con terquedad y entusiasmo, el terreno que los demás le dejan libre. En el presente libro se expone la historia real de Cataluña en comparación con la imaginada por los nacionalistas, desde el “armisticio” de 1713 hasta la llegada al Gobierno de España del socialista Pedro Sánchez. Se dedica un amplio apartado a estudiar el origen y desarrollo del catalanismo, al procés independentista y a sus mitos: la lengua, la raza, la historia del “Reino de Cataluña”, la figura de Rafael Casanova y la simbología catalana.

Una violencia indómita Julián Casanova, 2020-09-08 La nueva obra de Julián Casanova, uno de los historiadores españoles más importantes y con mayor proyección internacional, propone un nuevo enfoque de las manifestaciones de violencia, recurrentes y a veces continuas, que desde el terrorismo anarquista a las guerras de secesión en Yugoslavia marcaron a sangre y fuego la historia del siglo XX europeo. En él sobresalen la violencia colonial, la limpieza étnica, el genocidio, la guerra y la violencia sexual, donde los verdugos, asesinos y violadores crearon sus propios rituales de tortura y muerte, practicados de forma individual o en grupo, vistos por muchos más, víctimas, testigos y aprendices de criminales. Son múltiples historias que se superponen y entrecruzan unas con otras, desde España a Rusia, desde el Báltico al Mediterráneo, para descubrir la lógica de la violencia. Y en la narración destacan como hilos conductores la ideología de la raza y de la nación, los momentos de crisis generados por las guerras y las revoluciones y los proyectos de utopías totalizadoras. Un siglo de violencia indómita, con cicatrices visibles u ocultas de masacre y destrucción. Un pasado hecho presente, recordado, olvidado, confrontado, reprimido. «Un tema muy importante, tratado con toda la seriedad que merece, por un historiador de Europa muy reconocido por su lucidez inagotable y su vasta erudición.» Jonathan Haslam, George F. Kennan Professor, School of Historical Studies, Institute for Advanced Study, Princeton « Una violencia indómita es un fresco sumtuoso de la Europa del siglo XX: un paisaje de colores intensos y contrastes contundentes. Julián Casanova reconstruye esta edad de la violencia en un relato claro y al mismo tiempo narrativo con un resultado magistral. Un libro que levantará largos debates.» Enzo Traverso, Cornell University, autor de A sangre y fuego. La guerra civil europea 1914-1945

'Paracuellos' Dr Julius Ruiz, 2016-11-01 This book examines the most polemical atrocity of the Spanish Civil War: the massacre of 2,500 political prisoners by Republican security forces in the villages of Paracuellos and Torrejón de Ardoz near Madrid in November/December 1936. The atrocity took place while Santiago Carrillo -- later Communist Party leader in the 1970s -- was responsible for public order. Although Carrillo played a key role in the transition to democracy after Franco's death in 1975, he passed away at the age of 97 in 2012 still denying any involvement in 'Paracuellos' (the generic term for the massacres). The issue of Carrillo's responsibility has been the focus of much historical research. Julius Ruiz places Paracuellos in the wider context of the 'Red Terror' in Madrid, where a minimum of 8,000 'fascists' were murdered after the failure of military rebellion in July 1936. He rejects both 'revisionist' right-wing writers such as Cesar Vidal who cite Paracuellos as evidence that the Republic committed Soviet-style genocide and left-wing historians such as Paul Preston, who

in his Spanish Holocaust argues that the massacres were primarily the responsibility of the Soviet secret police, the NKVD. The book argues that Republican actions influenced the Soviets, not the other way round: Paracuellos intensified Stalin's fears of a 'Fifth Column' within the USSR that facilitated the Great Terror of 1937-38. It concludes that the perpetrators were primarily members of the Provincial Committee of Public Investigation (CPIP), a murderous all-leftist revolutionary tribunal created in August 1936, and that its work of eliminating the 'Fifth Column' (an imaginary clandestine Francoist organisation) was supported not just by Carrillo, but also by the Republican government. In Autumn 2015 the book was serialised in *El Mundo*, Spain's second largest selling daily, to great acclaim.

El fútbol en la guerra (II). Documentos oficiales y notas aclaratorias Félix Martíalay, 2017-01-01 Tomo segundo de la colección El fútbol en la guerra.

Falangist and National Catholic Women in the Spanish Civil War (1936–1939) Angela Flynn, 2020-03-11 Although there is an established historiography on women's roles during the Spanish Civil War (1936-9), little has been written on Nationalist women in the Republican-held zones. Women were the anti-Republican resisters of the first hour in the capital but they have been largely overlooked in the historical record. During the bitter civil conflict a sector of dissident women helped to create a subversive and clandestine national Catholic space in the heart of Republican Madrid. By examining the vital and invisible role played by women within Madrid's 'fifth column' this monograph offers a new contribution to the gender historiography of the Spanish Civil War and re-evaluates the significance of women in the Nationalist war effort. It explores how and why a sector of Falangist and Catholic women decided to mobilise against the legally constituted Popular Front government in support of an undemocratic military coup. While women's subversive activities often involved the transgression of traditional gender norms, their social and political agency arose within the conditions and precepts of Catholicism and was conceptualised and imagined within new national-Catholic discourses of 'holy Crusade.'

Arena Two Stuart Christie, 2011-02-15 In the second issue of Arena we aim to provide general insights into the role of the anarchist in fiction, both as protagonist and author. David Weir's essay "Anarchist Fiction, Anarchist Sensibilities" focuses on the progenitor of anarchist fiction, William Godwin's *Caleb Williams*, published in 1794, that demonstrated the pressing need for the utopian system he described in the first systematic elaboration of anarchist philosophy, *Enquiry Concerning Political Justice*. "Epic Pooh" is a newly updated revision of a 1978 article by Michael Moorcock reviewing epic fantasy literature for children, particularly J.R.R. Tolkien's *The Lord of the Rings*. While researching early twentieth-century French anarchist plays translated into Italian, Santo Catanuto discovered interesting information on the literary side of the Communard Louise Michel, indicating that she was the author of *Twenty Thousand Leagues Under The Sea*. Stephen Schwartz, a longtime critic of the detective novel, evaluates the arc of French writer Leo Malet from anarchist to arabophobe and in "Between Libel And Hoax," counters Miguel Mir's libelous depiction of the Spanish anarchist movement, *Entre el roig*

i el negre. In his discourse on B. Traven's The Death Ship, Ernest Larsen looks at the intractable modern problem of identity. Larsen's short story "Bakunin At The Beach" is about Mr. and Mrs. Bakunin holidaying at Lake Maggiore under the watchful eyes of Inspector Dupin of the Swiss Department of Justice and Police. Joseph Conrad's short story "An Anarchist: A Desperate Tale" is republished here from A Set of Six (1908). "Anarchists in Fiction" is a collection of idiosyncratic reviews of books in which anarchists are portrayed as an eclectic group of villains and criminal degenerates. Finally, we conclude this second issue of Arena with an article by our cinema editor Richard Porton on Dušan Makavejev's playful, allusive 1971 film WR: Mysteries of the Organism.
