Leisure Josef Pieper, 2009 One of the most important philosophy titles published in the twentieth century, Joseph Pieper's *Leisure, the Basis of Culture* is more significant, even more crucial than it was when it first appeared fifty years ago. Pieper shows that Greeks understood and valued leisure, as did the medieval Europeans. He points out that religion can be born only in leisure. Leisure that allows time for the contemplation of the nature of God. Leisure has been, and always will be, the first foundation of any culture. He maintains that our bourgeois world of total labor has vanquished leisure, and issues a startling warning: Unless we regain the art of silence and insight, the ability for nonactivity, unless we substitute true leisure for our hectic amusements, we will destroy our culture and ourselves. These astonishing essays contradict all our pragmatic and puritanical conceptions about labor and leisure; Joseph Pieper demolishes the twentieth-century cult of work as he predicts its destructive consequences.

**Leisure** Josef Pieper, 2009-09-11 One of the most important philosophy titles published in the twentieth century, Josef Pieper's *Leisure, the Basis of Culture* is more significant, even more crucial, today than it was when it first appeared more than fifty years ago. This edition also includes his work *The Philosophical Act*. Leisure is an attitude of the mind and a condition of the soul that fosters a capacity to perceive the reality of the world. Pieper shows that the Greeks and medieval Europeans, understood the great value and importance of leisure. He also points out that religion can be born only in leisure - a leisure that allows time for the contemplation of the nature of God. Leisure has been, and always will be, the first foundation of any culture. Pieper maintains that our bourgeois world of total labor has vanquished leisure, and issues a startling warning: Unless we regain the art of silence and insight, the ability for non-activity, unless we substitute true leisure for our hectic amusements, we will destroy our culture - and ourselves.

**What We Hold in Trust** Don Briel, Kenneth E. Goodpaster, Michael J. Naughton, 2021-03-19 The specific concern in What We Hold in Trust comes to this: the Catholic university that sees its principal purpose in terms of the active life, of career, and of changing the world, undermines the contemplative and more deep-rooted purpose of the university. If a university adopts the language of technical and social change as its main and exclusive purpose, it will weaken the deeper roots of the university's liberal arts and Catholic mission. The language of the activist, of changing the world through social justice, equality and inclusion, or of the technician through market-oriented incentives, plays an important role in university life. We need to change the world for the better and universities play an important role, but both the activist and technician will be co-opted by our age of hyper-activity and technocratic organizations if there is not first a contemplative outlook on the world that receives reality rather than constructs it. To address this need for roots What We Hold in Trust unfolds in four chapters that will demonstrate how essential it is for the faculty, administrators, and trustees of Catholic universities to think philosophically and theologically (Chapter One), historically (Chapter Two) and institutionally (Chapters Three and Four). What we desperately need today are leaders in Catholic universities who understand the roots of the institutions they serve,

who can wisely order the goods of the university, who know what is primary and what is secondary, and who can distinguish fads and slogans from authentic reform. We need leaders who are in touch with their history and have a love for tradition, and in particular for the Catholic tradition. Without this vision, our universities may grow in size, but shrink in purpose. They may be richer but not wiser.

**Popcultured** Steve Turner, 2013-07-11 Drawing on his storied career as a pop-culture wallflower, Steve Turner provides an all-access pass to the pervasive cultures of style, media and celebrity. Passing on his uniquely Christian way of viewing these cultures, Turner opens our eyes to a world of ideas lying just beneath the hype.

**Men Without Work** Nicholas Eberstadt, 2016-09-12 By one reading, things look pretty good for Americans today: the country is richer than ever before and the unemployment rate is down by half since the Great Recession—lower today, in fact, than for most of the postwar era. But a closer look shows that something is going seriously wrong. This is the collapse of work—most especially among America’s men. Nicholas Eberstadt, a political economist who holds the Henry Wendt Chair in Political Economy at the American Enterprise Institute, shows that while “unemployment” has gone down, America’s work rate is also lower today than a generation ago—and that the work rate for US men has been spiraling downward for half a century. Astonishingly, the work rate for American males aged twenty-five to fifty-four—or “men of prime working age”—was actually slightly lower in 2015 than it had been in 1940: before the War, and at the tail end of the Great Depression. Today, nearly one in six prime working age men has no paid work at all—and nearly one in eight is out of the labor force entirely, neither working nor even looking for work. This new normal of “men without work,” argues Eberstadt, is “America’s invisible crisis.” So who are these men? How did they get there? What are they doing with their time? And what are the implications of this exit from work for American society? Nicholas Eberstadt lays out the issue and Jared Bernstein from the left and Henry Olsen from the right offer their responses to this national crisis. The Committed Reader Robert A. Stebbins, 2012-10-17 Committed utilitarian reading is either dominantly practical or more or less equally practical and fulfilling. Pleasurable reading is conceptualized as an important kind of casual leisure, experienced primarily as relaxation, active entertainment, and sexual stimulation (racy, pornographic stories). Such reading can also be a launching pad for day-dreams or lively conversation. Self-fulfilling reading is explored in a disquisition on the

liberal arts hobbies. This is no place for speed reading, but instead is where we care to pause often to appreciate the artistry of the writing, creativity of the plot, profundity of the message (i.e., the information it contains), and the like. And in fulfilling reading we sometimes want to analyze the material. This book explores three main motives for reading identified as utilitarian, pleasurable, and fulfilling. Its principal object is to deepen our understanding of why some adults (and eager late adolescent readers) go in for “committed reading,” or reading that, as we strive to acquire literary knowledge and experience, necessarily consumes considerable time and requires continuous concentration. The conceptual frameworks guiding this endeavor are library and information science and the serious leisure perspective. Through their lenses the author examines the reading of books, magazines, manuals, reports, and other lengthy material as carried out in the three domains of life: work, leisure, and non-work obligation. In brief, committed reading provides its enthusiasts with knowledge and experience, which among other ways, are sought, acquired, interpreted, organized, and sometimes disseminated within the three domains. This book also examines committed reading in daily life, its ease, convenience, affordability, and enduring effects. There follows a portrait of the various reading environments, including music to read by, reading at airports and on airplanes, reading in one’s study, in a park, on public transit, in public libraries, and elsewhere. This is part of the reader’s social world, which is further comprised of book clubs, bookstores, Amazon.com, censorship, author public readings, and more.

**The Routledge Handbook of the Ethics of Human Enhancement** Fabrice Jotterand, Marcello Ienca, 2023-08-01 The Routledge Handbook of the Ethics of Human Enhancement provides readers with a philosophically rich and scientifically grounded analysis of human enhancement and its ethical implications. A landmark in the academic literature, the volume covers human enhancement in genetic engineering, neuroscience, synthetic biology, regenerative medicine, bioengineering, and many other fields. The Handbook includes a diverse and multifaceted collection of 30 chapters—all appearing here in print for the first time— that reveal the fundamental ethical challenges related to human enhancement. The chapters have been written by internationally recognized leaders in the field and are organized into seven parts: Historical Background and Key Concepts Human Enhancement and Human Nature Physical Enhancement Cognitive Enhancement Mood Enhancement and Moral Enhancement Human Enhancement and Medicine Legal, Social, and Political Implications The depth and topical range of the Handbook makes it an essential resource for upper-level undergraduates, graduate students, and postdoctoral fellows in a broad variety of disciplinary areas. Furthermore, it is an authoritative reference for basic scientists, philosophers, engineers, physicians, lawyers, and other professionals who work on the topic of human enhancement.

*An Interdisciplinary Pedagogical Model for Catholic Studies* Ines A. Murzaku, Joseph P. Rice, 2025-04-21 This book offers a vision of an integrated Humanities curriculum, potentiated by the depth and diversity of perspectives that Catholic Studies contributes to both Catholic and secular universities. The result, inspired in various magisterial documents, is a more

profound, relevant, and enduring college learning experience. It considers Catholic Studies as a response to the rich legacy of Vatican II, and its opening to contemporary culture, as it is expressed in Catholic education. It answers the dual call of the Declaration on Christian Education *Gravissimum Educationis* (GE) for cooperation and collaboration among Catholic institutions of higher learning, and among faculty of the different scholarly disciplines. This book displays the interdisciplinary breadth and disciplinary depth of Catholic Studies, while providing a window into the practical insights gained by experts in research, program design, and teaching in a flourishing Catholic Studies program that has inspired the founding of the Seton Hall University core curriculum. Complemented by the contributions of Catholic Studies experts from outside Seton Hall, this book serves as a pedagogical model for researchers and educators to consider and emulate, nationally and internationally, an interdisciplinary Catholic Studies model as a way to recuperate theology; stop the siege of the humanities; and teach humanities in contact and communication with other disciplines, including STEM and other vocation-oriented fields. In this overall context, this book serves as a guide and a reference for new and established programs of Catholic Studies, nationally and internationally. It seeks to extend a conversation, in the style of a symposium, to campuses and cultural contexts in the United States and internationally.

**Theological Anthropology at the Beginning of the Third Millennium** Kevin Wagner, Peter John McGregor, M. Isabell Naumann, 2022-04-29 *Theological Anthropology at the Beginning of the Third Millennium* is the third volume of the *Theology at the Beginning of the Third Millennium* series. Bringing together Catholic and Orthodox scholars of diverse disciplines, this work sheds new light on the question “what does it mean to be a human person?” Beginning with an overview on the state of the discipline in our time, the book brings theological anthropology into dialogue with epistemology, Christology, science, spiritual theology, and pedagogy. It explores how human persons—who are created in God’s image and likeness—can come to knowledge of the self and the other, such that the individual person can know, love, and be united to the God and Father of Jesus Christ.

Deep Reading Rachel B. Grifflis, Julie Ooms, Rachel M. De Smith Roberts, 2024-05-28 This book helps readers develop practices that will result in deep, formative, and faithful reading so they can contribute to the flourishing of their communities and cultivate their own spiritual and intellectual depth. The authors present reading as a remedy for three prevalent cultural vices--distraction, hostility, and consumerism--that impact the possibility of formative reading. Informed by James K. A. Smith's work on the spiritual power of habit, *Deep Reading* provides resources for engaging in formative and culturally subversive reading practices that teach readers how to resist vices, love virtue, and desire the good. Rather than emphasizing the spiritual benefits of reading specific texts such as Dante's *Divine Comedy* or *Adventures of Huckleberry Finn*, the authors focus on the practice of reading itself. They examine practices many teachers, students, and avid readers employ--such as reading lists, reading logs, and discussion--and demonstrate how such practices can be more effectively and

intentionally harnessed to result in deep reading. The practices apply to any work that is meant to be read deeply.

*On the Eighth Day* Matt Hoven, J. J. Carney, Max T. Engel, 2022-06-07 During a 1980s Edmonton Oilers game, fans unveiled a banner claiming, “On the 8th day, God created Gretzky.” Intersections between religious belief and sporting participation are nothing new, where players, coaches, and fans are known to pray, cross themselves, and point to the heavens during a game. But what should be the relationship between sports and religious faith? *On the Eighth Day* introduces the theology of sport from a Catholic standpoint. It wrestles with sport’s universal appeal, its rich symbolism, and its spiritual and moral characteristics. Sport is a place where embodied games can be sacramental; where traditions of the past speak to contemporary peoples; and where truth and justice are demanded in a world affected by sin. The eighth day recalls the playful, re-creative work of God the Creator embodied in Christ’s resurrection. In this sense, this book marks out a “new day” in Christian attitudes toward modern sport and the continuing call to redeem sport in service of human flourishing. Comprehensive yet accessible, the book will engage thoughtful lay sports fans and academic students alike.

**Time, Freedom and the Self** Michelle Shir-Wise, 2019-04-10 While abundant research has investigated time use, much less attention has been given to the cultural meanings attached to free time and what these may express with regard to conceptions of freedom and the self. In an attempt to fill this gap, Michelle Shir-Wise examines not only what people do in their free time, but also how they perceive, interpret and experience it, and in what way it relates to notions of happiness, freedom and the ideal self. *Time, Freedom and the Self* draws on contemporary theoretical debates concerning the relation between discourse, cultural repertoires, subjective meaning and agency, as well as literature around the sociology of leisure, to inform a unique interpretation of free time (“disciplined freedom”), developed in the light of questionnaires and in-depth interviews with middle-class, middle-aged participants in suburban Israel.

***Luxury and Corruption*** Tereza Østbø Kuldova, Jardar Østbø, Thomas Raymen, 2024-01-30 The world has been bombarded in recent years with images of the luxurious lives and wealth of corrupt oligarchs and kleptocrats, amassed at the expense of ordinary people. Such images exploit our feelings of injustice, are taken as indicative of moral decay, and inspire a desire to purge our economies of dirty money, objects, and people. But why do anti-corruption efforts routinely fail? What kind of world are they creating? Looking at luxury art, antiquities, superyachts, and populist politics, this book explores the connection between luxury and corruption, and offers an alternative to the received wisdom of how we tackle corruption.

**Behavior Space** Alexander Manu, 2016-04-15 Behavior Space proposes that corporations do not design products or services anymore: they design behavior spaces. Facebook is not a product, not a technology, but a behavior space. Innovation is the creation of a new behaviour space. The product or service is simply the catalyst that enables a new behavior space to emerge. The size of the behaviour space footprint, represents the potential value a product or service offers; the greater the value potential, the greater the monetization potential. Alexander Manu illustrates how these new concepts are transforming design and product development so that the process changes from a static and product-centred approach to one that is

entirely centred on the user and their behaviours that emerge as they interact with what they have bought. He provides a new language to describe the way in which the physical, intellectual and emotional features of products and services achieve a relationship between the user and the brand. And he explains the concept of Play Value, which underpins the attraction for customers and depends on compelling experiences that are challenging, rewarding and absorbing; that never frustrate and that encourage repeated use. Designers and brand managers seeking to understand and exploit commercially the fundamental changes in consumers that are driven by technology, experience and social interaction will find Behavior Space a wonderful place to start.
