Grammar in ELT and ELT Materials Graham Burton, 2023-06-06 This book investigates the content of the grammar syllabus typically employed in mainstream English Language Teaching. Using a mixed-methods approach, the author examines how the syllabuses used in coursebooks are actually constructed, how they evolved and how valid their contents are as a basis for teaching. The research reported consists of a broad exploration of primary sources in order to outline the evolution of ELT pedagogical grammar; ten interviews with key ELT authors and publishing professionals, which allows for the investigation of the decision-making processes underlying the choice of grammar content in ELT teaching materials; and finally, the presentation of case studies which examine three areas of grammar, analysing the evolution of their treatment in ELT materials (both historical and contemporary) and comparing their current treatment to data on real learner use. This book contributes to the literature on syllabus design and pedagogical grammar and builds on existing research into materials design. It will be of interest to researchers and professionals working in the fields of applied linguistics, pedagogical grammar, curriculum design and materials design.

Survival October-November 2021: The Limits of Power The International Institute for Strategic Studies (IISS), 2023-04-21 Survival, the IISS's bimonthly journal, challenges conventional wisdom and brings fresh, often controversial, perspectives on strategic issues of the moment. In this issue: · Anatol Lieven argues that realist support for prudence and restraint in foreign policy does not equate to chauvinism, isolationism and opposition to international cooperation · Toby Dodge assesses that the United States' attempt to comprehensively transform Afghanistan was based on its erroneous presumption that the liberal-peacebuilding model was universally applicable · Audrey Kurth Cronin contends that the logic of fighting terrorists far from the US homeland no longer holds, as the US faces resource constraints and rising domestic terrorism · Jens Ringsmose and Sten Rynning analyse the potential priorities and scope of NATO's next Strategic Concept, and how it can bridge the Alliance's political-military divide And eight more thought-provoking pieces, as well as our regular Book Reviews and Noteworthy column. Editor: Dr Dana Allin Managing Editor: Jonathan Stevenson Associate Editor: Carolyn West Assistant Editor: Jessica Watson
