A Complete French Grammar for Reference and Practice Trudie Maria Booth,2010 This comprehensive manual thoroughly covers every aspect of French grammar, from the basic to the most advanced level, and illustrates the grammatical structures with useful, practical and interesting examples. It can be used as a classroom text in intermediate and advanced courses, as well as for reference and self-study.

Variations stylistiques Diane M. Dansereau,2016-02-23 This advanced level course book teaches stylistic variations of modern French grammar using examples from films and interviews as well as other authentic texts. Written entirely in French, it focuses on the most difficult grammar points and their usage, rather than on their formation. Variations stylistiques includes an abundance of oral and written exercises that are practical, relevant, creative, and fun, encouraging students to use the grammar in meaningful contexts. By highlighting the many linguistic variants employed by native speakers, Dansereau provides an engaging alternative to traditional French grammar textbooks. An ancillary Web site features quizzes and other valuable resources for instructors.

Lingolia Übungsgrammatik Französisch Teil 2 Laure Le Cloarec,2021-07-18 Diese Übungsgrammatik erklärt Schritt für Schritt die Bildung und Verwendung der französischen Zeitformen Passé composé, Imparfait und Plus-que-parfait. Der überwiegende Teil des Heftes beschäftigt sich mit der Bildung und Verwendung der Zeitformen Passé composé und Imparfait. Zuerst wird die Bildung für beide Zeitformen einzeln geübt, wobei auch die Besonderheiten und Ausnahmen

besprochen werden. Im zweiten Teil des Heftes steht die Gegenüberstellung der beiden Zeitformen im Fokus: Wann müssen wir im Französischen Passé composé und wann Imperfekt verwenden? Am Ende des Heftes geht es um die Bildung und Verwendung des Plus-que-parfait. Die Übungsgrammatik ist ein ideales Arbeitsmaterial für das Selbststudium sowie für den Einsatz im Französischunterricht mit Schülern und Erwachsenen. Die Lösungen im Mittelteil können leicht herausgetrennt werden. Andere Teile dieser Serie beschäftigen sich mit der Gegenüberstellung der anderen französischen Zeitformen und weiteren Themen der französischen Grammatik.

Sons et sens Anne Violin-Wigent,Jessica Miller,Frédérique Grim,2020-11-01 Sons et sens presents a unique cultural approach to French pronunciation for English-speaking students. Each chapter presents a new cultural topic, such as the French education system, vernacular French, and cooking in the francophone world, in order to enhance students' pronunciation skills within the context of French and francophone culture. Phonetic explanations and rules throughout the textbook are anchored in recent research on French phonology, reflecting contemporary French as well as elements of nonstandard variation from around the francophone world. The authors' approach derives from current research on second language acquisition and pedagogy as well as contemporary research on French linguistics—especially sociolinguistics. The textbook's fifteen chapters include a variety of exercises on sound discrimination, rule formulation, phonetic reading and transcriptions, and conversations. The publisher's website (press.georgetown.edu) provides about 200 sound files and several video files that show how sounds are formed with the body. A teacher's edition contains additional materials, including comments and answers keyed to the student text. Perfect for third year students, Sons et sens should appeal to instructors and students of college-level pronunciation and phonetics courses and serve as a valuable reference in a variety of courses where pronunciation is of importance. The book will also interest students with some background in French who want to perfect their pronunciation on their own.

On tourne! Véronique Anover,Rémi Fournier Lanzoni,2020-02-03 eTextbooks are now available through VitalSource.com! On tourne! is a one-semester, advanced French textbook (5th/6th semester of instruction) designed to be used as a stand-alone text for a course on French and francophone films or for a French conversation course. This textbook could also be used as a supplementary text in an advanced conversation course, a composition course, or a contemporary culture course. On tourne! guides students to analyze and discuss thirteen films from France and the francophone world. Each chapter focuses on a single film and includes pre-viewing activities, vocabulary, information on the cultural and

linguistic nuances of the film, and post-viewing activities and discussion points. Moreover, each chapter contains a review of an essential grammatical structure as well as idiomatic expressions used in the film to highlight their pragmatic function. The films included explore a wide array of themes, ranging from family, food, and fashion to politics, religion, and racial/ethnic identities.

Discours, action et appropriation des langues Francine Cicurel,Daniel Véronique,2002 Cet ouvrage, consacré aux dimensions pragmatiques de l'apprentissage des langues vivantes, réunit des thématiques habituellement dispersées dans le champ des recherches linguistiques sur l'appropriation des langues : l'étude des conduites narratives, des interactions verbales et des activités cognitives en situation. Il explore de nouvelles pistes de travail sur l'appropriation de l'agir communicationnel en langue étrangère.

Les exercices structuraux François Réquédat,1966-01-01T00:00:00+01:00 Aux exercices pièges d'autrefois, qui servaient davantage à mettre en relief les insuffisances et les lacunes des élèves, qu'à faciliter l'apprentissage, se sont substitués - sous l'influence des études linguistiques - des exercices beaucoup plus systématiques, qui conduisent au maniement automatique des principales structures phoniques et grammaticales, et qu'il est convenu d'appeler exercices structuraux. Des recherches, suivies d'expérimentation, ont été conduites au Bureau d'étude et de liaison sur les exercices structuraux, conçus soit comme partie intégrante d'un cours de français, soit comme matériel pédagogique de complément, pour le travail en classe ou en laboratoire de langue. Cette brochure a pour but de mettre à la disposition, des professeurs de français langue étrangère, l'expérience acquise au B.E.L. dans ce domaine. Elle ne présente pas de simples batteries d'exercices, mais bien plutôt des considérations pratiques sur la façon de concevoir toute une gamme d'exercices structuraux, pour répondre à différents besoins, en s'appuyant sur des données linguistiques et sur des critères d'efficacité.

Grammaire participative Christian Meunier,2017-09-22 La Grammaire participative est le livre du professeur accompagnant le livre eGrammaire et le site www.egrammaire.com. Pour chacun des chapitres d'eGrammaire, la Grammaire participative propose des pistes d'explications, des activités permettant le travail quasi-autonome en groupes des apprenants, avec retour à la classe pour confronter les résultats obtenus par les groupes et permettre à l'enseignant de guider les élèves dans leur apprentissage. Les objectifs sont d'habituer l'apprenant au travail en groupe, dans lequel il défendra ses idées par l'argumentation et apprendra à accepter les idées des autres quand il y adhérera. Il apprendra ainsi à prendre en main son apprentissage et à se responsabiliser. Les groupes travaillent avec un cahier de l'apprenant téléchargeable pour chaque leçon sur Le site eGrammaire. Ce cahier permet le travail selon les principes et la philosophie de la grammaire participative. De nombreux exercices proposés peuvent être faits sur ordinateur, lequel corrigera et commenterà les réponses. Ainsi, les apprenants sont actifs, l'ordinateur soutient leur travail, et l'enseignant contrôle le travail des apprenants, qu'il guide et qu'il contrôle. Cette forme d'apprentissage correspond bien aux dernières découvertes des neurosciences, qui préconise la participation de l'apprenant, l'exercice et l'exploitation de la correction.
