**So Many Books, So Little Time** Sara Nelson,2004-10-05 “Will make many readers smile with recognition.”—The New Yorker “Readaholics, meet your new best friend.”—People “This book is bliss.”—The Boston Globe Sometimes subtle, sometimes striking, the interplay between our lives and our books is the subject of this unique memoir by well-known publishing correspondent and self-described “readaholic” Sara Nelson. The project began as an experiment with a simple plan—fifty-two weeks, fifty-two books—that fell apart in the first week. It was then that Sara realized the books chose her as much as she chose them, and the rewards and frustrations they brought were nothing she could plan for. From Solzhenitsyn to Laura Zigman, Catherine M. to Captain Underpants, the result is a personal chronicle of insight, wit, and enough infectious enthusiasm to make a passionate reader out of anybody.

**In-Between Fiction and Non-Fiction** Michelangelo Paganopoulos,2019-01-15 This volume invites the reader to join in with the recent focus on subjectivity and self-reflection, as the means of understanding and engaging with the social and historical changes in the world through storytelling. It examines the symbiosis between anthropology and fiction, on the one hand, by looking at various ways in which the two fields co-emerge in a fruitful manner, and, on the other, by re-examining their political, aesthetic, and social relevance to world history. Following the intellectual crisis of the 1970s, anthropology has been criticized for losing its ethnographic authority and vocation. However, as a consequence of this, ethnographic scope has opened towards more subjective and self-reflexive forms of knowledge and representations, such as the crossing of the boundaries between autobiography and ethnography. The collection of essays re-introduces the importance of authorship in relationship to readership, making a ground-breaking move towards the study of fictional texts and images as cultural, sociological, and political reflections of the time and place in which they were produced. In this way, the contributors here contribute to the widening of the ethnographic scope of contemporary anthropology. A number of the chapters were presented as papers in two conferences organised by the Association of Social Anthropologists of the UK and Commonwealth

at Jawaharlal Nehru University, New Delhi, entitled "Arts and aesthetics in a globalising world" (2012), and at the University of Exeter, entitled "Symbiotic Anthropologies" (2015). Each chapter offers a unique method of working in the grey area between and beyond the categories of fiction and non-fiction, while creatively reflecting upon current methodological, ethical, and theoretical issues, in anthropology and cultural studies. This is an important book for undergraduate and post-graduate students of anthropology, cultural and media studies, art theory, and creative writing, as well as academic researchers in these fields.

*Critical Reflections on Audience and Narrativity* Valentina Marinescu, 2014-09-01

*Tragedies of Spirit* Theodore George, 2012-02-01 In *Tragedies of Spirit*, Theodore D. George engages Hegel's *Phenomenology of Spirit* to explore the philosophical significance of tragedy in post-Kantian continental thought. George follows lines of inquiry originally developed by Nietzsche, Heidegger, Gadamer, and Derrida, and takes as his point of departure the concern that Hegel's speculative philosophy forms a summit of modernity that the present historical time is called to interrogate. Yet, George argues that Hegel's larger speculative ambitions in the *Phenomenology* compel him to turn to the resource of tragedy in order to give voice to issues of incommensurability, discontinuity, otherness, strife, and crisis. From this standpoint, Hegel's interest in the tragic proves to be more pervasive and to run deeper than has previously been recognized. The author shows that Hegel's reliance upon the tragic not only stretches and tests assumptions of speculative philosophy, but also illuminates original insights into human finitude. While situating Hegel's approach to tragedy as part of a broader response to Kant, George also contextualizes Hegel's interest in tragedy with reference to figures in German Idealism and Romanticism, such as Schelling, Hölderlin, and Schlegel.

Values in Sex Education Mark Halstead, Michael Reiss, 2003-09-02 Sex education is rarely out of the news. Despite this, there exist surprisingly few studies of the principles, policies and practice of sex education. This book provides such an examination, focusing on the values to which children are exposed in sex education. Sex education inevitably involves the transmission of values, regardless of whether this is intended by teachers. Throughout the book, academic and professional literature on both values and sex education is reviewed and discussed. The authors look at the implicit liberal values, which underpin programmes of sex education, and at the challenges presented by the diversity of values in contemporary society. The book also considers: \* Why values are central to sex education \* Children's voices and children's values \* Religious and family values \* Achievable aims for school sex education \* How to help young people to reflect critically on the influences to which they are exposed and on their own developing sexual values \* How to build values into practical approaches to sex

education at both primary and secondary levels. This timely book will help all those involved in sex education to steer a path between controversial and often opposing views and will be essential reading for students on PGCE and BEd courses. It will also be a valuable resource for teachers and professionals involved in teaching sex education such as teachers of personal and social education, form tutors, heads of year, school nurses, health workers and academics.

**Reclaiming the Tomboy** Erica Joan Dymond, Jennifer Harrison, Holly Wells, 2022-07-11 With the tomboy figure currently operating in a liminal space between extinction and resurgence, *Reclaiming the Tomboy: The Body, Identity, and Representation* is an unabashed celebration of her rebellious, independent, and pioneering spirit. This collection examines the tomboy as she appears throughout history, in the arts and in real-life. It also addresses how she has changed over the centuries, adapting to the world around her and breaking new boundaries in new ways (sometimes with a simple selfie). While this collection addresses the claim of the tomboy as being antiquated or even problematic, it more vigorously offers examples of where she is thriving and benefiting from her tomboy identity. Ultimately, this book underscores the tomboy's legacy as well as why she is still relevant, if not needed, today.

**The Open-Hearted Way to Open Adoption** Lori Holden, 2013-03-28 Prior to 1990, fewer than five percent of domestic infant adoptions were open. In 2012, ninety percent or more of adoption agencies are recommending open adoption. Yet these agencies do not often or adequately prepare either adopting parents or birth parents for the road ahead of them! The adult parties in open adoptions are left floundering. There are many resources on why to do open adoption, but what about how? Open adoption isn't just something parents do when they exchange photos, send emails, share a visit. It's a lifestyle that may feel intrusive at times, be difficult or inconvenient at other times. Tensions can arise even in the best of circumstances. But knowing how to handle these situations and how to continue to make arrangements work for the child involved is paramount. This book offers readers the tools and the insight to do just that. It covers common open-adoption situations and how real families have navigated typical issues successfully. Like all useful parenting books, it provides parents with the tools to come to answers on their own, and answers questions that might not yet have come up. Through their own stories and those of other families of open adoption, Lori and Crystal review the secrets to success, the pitfalls and challenges, the joys and triumphs. By putting the adopted child at the center, families can come to enjoy the benefits of open adoption and mitigate the challenges that may arise. More than a how-to, this book shares a mindset, a heartset, that can be learned and internalized, so parents can choose to act out of love and honesty throughout their child's growing up years, helping that child to grow up whole.

*The Prosimetrum of the Íslendingasögur* Brynja Þorgeirsdóttir, Stefanie Gropper, Judy Quinn, Alexander Wilson, 2024-12-02 Verse quotation is intrinsic to the literary style of the medieval Icelandic corpus of *Íslendingasögur* (sagas of Icelanders), one of the most important vernacular literary genres of the European Middle Ages. The essays collected in this volume

demonstrate that the combination of prose and verse constitutes a distinctive literary aesthetic, and that in the medieval Icelandic literary tradition, it was not a question of choosing between prose and verse as the vehicle for stories about the foundational generations of settlers on the island, but of combining both modes to forge the unique literary form of the saga. Verse quotation has always been recognised as an important aspect of the Íslendingasögur, but to date, the significance of verse to the aesthetic of the narrative has mainly been explored with reference to the sub-genre of the skáldasögur (sagas of poets), in which the proportion of verse to prose is at its highest. The contributions to the volume analyse the Íslendingasögur as prosimetrum – that is, they treat the combination of verse and prose as a salient generic and aesthetic feature of this body of sagas. The contributors are leading scholars in the field of Old Norse studies, and their work represents current research trends in the UK, USA, Iceland, Denmark, and Germany. Their innovative approaches will enable a better understanding on the literary mode of the corpus as a whole, as well as producing fresh insights into the compositional habits of the (anonymous) authors of individual sagas.

New Wests and Post-Wests Paul S. Varner, 2013-10-03 The writers of these chapters are often working with changing assumptions about literary and media interpretations of an American West. Here we see critical approaches to a West that never was, a West of myth so enduring that the myth dominates nearly all artistic representation about this place that never was. In this collection, we see critical approaches to a New West, a West that is a state of mind, not a geographical place but a mythic space with no boundaries and no political inevitabilities. These New Western studies accept the idea of a West that includes Canada, Mexico, Alaska, and, in the case of the US, every geographic and historical point west of the historic founding settlements. The West we study today is a post-West, an idea of the West past the traditional views of an old West dominated by white US nationalism and gendered as uncompromisingly masculine. The idea itself of a single West no longer holds validity. We now understand that all renderings of the West are renderings of multiple Wests; Wests constructed by American nationalists, Wests constructed by EuroAmerican writers and filmmakers, Wests constructed by native peoples, or Wests constructed outside the geographical boundaries of the US. This collection presents an eclectic array of new scholarship ranging freely over the New Wests and Post Wests, dealing with issues such as the literature of a 1950s California West; eco-crime genre fiction; the West of Edward Dorn and the Beat Movement; images of prostitution in California Gold Rush literature; European perspectives on film representations of the first peoples; the six shooter and the American West; German Westerns and Italian Westerns; *The Authentic Death of Hendry Jones*, by Charles Neider; and films such as *The Treasure of Sierra Madre*, *Into the Wild*, *There Will Be Blood*, and *The Last Picture Show*. A unique aspect of this collection is the range of writers interpreting the American West in film and literature; besides those writing from within the United States, five of the writers provide international perspectives from the United Kingdom, and the Universities of Tunis, Vienna, and Rome. Each chapter includes a review of scholarship on its subject and an extended bibliography for further

research.

**The Oxford Guide to Plays** Michael Patterson, 2007 Anyone with an academic, professional, amateur, or recreational interest in the theatre is likely to want to look up details of particular plays sometimes - perhaps to check on the author, or on when they were first performed, or perhaps to see how many characters they have, and whether or not they would be suitable for their theatre company or drama group to perform. The Oxford Dictionary of Plays provides essential information on the 1000 best-known, best-loved, and most important plays in world theatre. Each entry includes details of title, author, date of composition, date of first performance, genre, setting, and the composition of the cast, and more. A synopsis of the plot and a brief commentary, perhaps on the context of the play, or the reasons for its enduring popularity, follow. Around 80 of the most significant plays - from *The Oresteia* to *Waiting for Godot* - are dealt with in more detail. Genres covered include: burlesque, comedy, farce, historical drama, kabuki, masque, melodrama, morality play, mystery play, No, romantic comedy, tragicomedy, satire, and tragedy. An index of characters enables the reader to locate favourite characters, and trace the trajectory of major historical and legendary characters - such as Iphigenia - through world drama, including in plays that do not have entries in the Dictionary. An index of playwrights, with dates, allows the reader to find all the plays included by a particular author.

**Towards A Definition of Topos** Lynette Hunter, 1991-06-18 Allegories, rhetoric, imagery, commonplaces, clichés and archetypes are discussed in connection with the literary work of authors such as Montaigne, Shakespeare, Jules Verne, Emile Zola and James Joyce.

**Revolutionary Acts** Lynn Mally, 2016-11-01 During the Russian Revolution and Civil War, amateur theater groups sprang up in cities across the country. Workers, peasants, students, soldiers, and sailors provided entertainment ranging from improvisations to gymnastics and from propaganda sketches to the plays of Chekhov. In *Revolutionary Acts*, Lynn Mally reconstructs the history of the amateur stage in Soviet Russia from 1917 to the height of the Stalinist purges. Her book illustrates in fascinating detail how Soviet culture was transformed during the new regime's first two decades in power. Of all the arts, theater had a special appeal for mass audiences in Russia, and with the coming of the revolution it took on an important role in the dissemination of the new socialist culture. Mally's analysis of amateur theater as a space where

performers, their audiences, and the political authorities came into contact enables her to explore whether this culture emerged spontaneously from below or was imposed by the revolutionary elite. She shows that by the late 1920s, Soviet leaders had come to distrust the initiatives of the lower classes, and the amateur theaters fell increasingly under the guidance of artistic professionals. Within a few years, state agencies intervened to homogenize repertoire and performance style, and with the institutionalization of Socialist Realist principles, only those works in a unified Soviet canon were presented.

**Self and Society** Nevitt Sanford, How does his social environment change an individual, and why do these changes occur? Can social institutions be shaped and molded profoundly enough to afford each member of a society his maximum potential for happiness, effective functioning, and complete development? In this new work a distinguished psychologist evolves a theory of personality and society designed to help guide the work of institutions responsible for individual growth and development. Drawing on his vast experience--as an educator, a prison psychologist, a practicing psychoanalyst, and as the director of major studies in child development, personality assessment, the social psychology of higher education, and alcoholism and related problems--Professor Sanford has designed a developmental model intended to guide work in institutions which mold the individual: from family through schools, colleges, child guidance clinics, and mental hospitals. With exceptional lucidity, he examines the central issues in furthering desirable change through intervention in individual and group processes. He achieves notable advances in integrating personality theory and sociological theory: he joins psychoanalytic ego psychologists and other personality theorists in developing a dynamic-organismic theory broader than that of classical psychoanalysis and more in keeping with contemporary social theory. The author's clear style and firm grasp of his subject add further to the significance of *Self and Society*. It will be a stimulating textbook in social psychology, personality, and culture, and will make indispensable reading for behavioral scientists, psychiatrists, and educators, as well as for all professionals who work to promote mental health, education and social welfare. Nevitt Sanford (1909-1995) was professor of psychology and education at Stanford University and director of the Institute for the Study of Human Problems. After leaving Stanford in 1968, he founded the Wright Institute. He has been president of the Society for the Psychological Study of Social Issues, and president of the Division of Personality and Social Psychology of the American Psychological Association. He has been author or coauthor of close to 200 scholarly journals as well as more than a dozen books.

**With Roots in Heaven** Tirzah Firestone, 2024-03-12 A riveting story of how one brave and adventurous woman turned her life upside down for God. Firestone teaches us, through the joys and sorrows of her life, how our ancient traditions are calling out to us for renewal, and how, through faith, honesty, and struggle, we are learning to respond. At age seventeen, Tirzah Firestone left the oppressive home of her Orthodox Jewish parents and set off on a spiritual odyssey. With *Roots in*

Heaven is the story of that journey, a fascinating and moving account of her evolution from rebellious young seeker to renegade rabbi. This is an inspiring, true account of a courageous woman with strong convictions and a passion to know and feel God. It is also a book that goes beyond one person's story of wandering and redemption to explore the dangers of modern religion and the joys and conflicts of intermarriage and raising interfaith children. An unforgettable story of love, sacrifice, and transformation—of grace sought and found—With Roots in Heaven offers hope, wisdom, and encouragement to anyone seeking deeper spiritual meaning in today's world.

**Blue Voyage** Diana Renn, 2015-10-13 An intricately crafted mystery set in the contemporary Middle East. Zan is a politician's daughter and an adrenaline junkie. Whether she's rock climbing or shoplifting, she loves to live on the edge. But she gets more of a rush than she bargained for on a forced mother-daughter bonding trip to Turkey, where she finds herself in the crosshairs of an antiquities smuggling ring. These criminals believe that Zan can lead them to an ancient treasure that's both priceless and cursed. Until she does so, she and her family are in grave danger. Zan's quest to save the treasure—and the lives of people she cares about—leads her from the sparkling Mediterranean, to the bustle of Istanbul's Grand Bazaar, to the eerie and crumbling caves of Cappadocia. But it seems that nowhere is safe, and there's only so high she can climb before everything comes tumbling down.

**The Birds That Audubon Missed** Kenn Kaufman, 2025-05-20 Renowned naturalist Kenn Kaufman examines the scientific discoveries of John James Audubon and his artistic and ornithologist peers in this fascinating “blend of history, science, art, biography, and memoir” (Booklist, starred review) that is “a bird lovers' delight” (Kirkus Reviews). Raging ambition. Towering egos. Competition under a veneer of courtesy. Heroic effort combined with plagiarism, theft, exaggeration, and fraud. This was the state of bird study in eastern North America during the early 1800s, as a handful of intrepid men raced to find the last few birds that were still unknown to science. The most famous name in the bird world was John James Audubon, who painted spectacular portraits of birds. But although his images were beautiful, creating great art was not his main goal. Instead, he aimed to illustrate (and write about) as many different species as possible, obsessed with trying to outdo his rival, Alexander Wilson. George Ord, a fan and protégé of Wilson, held a bitter grudge against Audubon for years, claiming he had faked much of his information and his scientific claims. A few of Audubon's birds were pure fiction, and some of his writing was invented or plagiarized. Other naturalists of the era, including Charles Bonaparte (nephew of Napoleon), John Townsend, and Thomas Nuttall, also became entangled in the scientific derby, as they stumbled toward an understanding of the natural world—an endeavor that continues to this day. Despite this intense competition, a few species—including some surprisingly common songbirds, hawks, sandpipers, and more—managed to evade discovery for years. Here, renowned bird expert and artist Kenn Kaufman explores this period in history from a new angle, by considering the birds these people discovered and, especially, the ones they missed. Kaufman has created portraits of the birds that

Audubon never saw, attempting to paint them in that artist's own stunning style, showing how our understanding of birds continues to gain clarity, even as some mysteries persist from Audubon's time until ours.

*Mark Twain in the Company of Women* Laura E. Skandera Trombley, 1997-02 The field of Mark Twain biography has been dominated by men, and Samuel Clemens himself - riverboat pilot, Western correspondent, silver prospector, world traveler - has been traditionally portrayed as a man's man. The publication of Laura E. Skandera-Trombley's *Mark Twain in the Company of Women*, however, marks a significant departure from conventional scholarship. Skandera-Trombley, the first woman to write a scholarly biography of Mark Twain, contends that Clemens intentionally surrounded himself with women, and that his capacity to produce extended fictions had almost as much to do with the environment shaped by his female family as with the talent and genius of the writer himself. Women helped Clemens to define his boundaries, both personal and literary. Women shaped his life, edited his books, and provided models for his fictional characters. Clemens read and corresponded with female authors, and often actively promoted their careers. Skandera-Trombley seeks to combine a biographical study of Clemens's life with his beloved wife, Olivia (Livy) Langdon, and their three daughters, Susy, Clara, and Jean, with new readings of *Adventures of Huckleberry Finn* and *Personal Recollections of Joan of Arc*. Several crucial areas are investigated: the nature of Clemens's family participation in his writing process, the degree to which their experiences as women during the mid- and late nineteenth century affected his writing, and the extent to which the loss of his family may have impeded and ultimately ended his ability to write lengthy narratives. Skandera-Trombley points out that in marrying Livy, Clemens not only joined a family of substantial means, but also entered one active in the suffragist, abolitionist, and other reformist movements, which had deep roots in the progressive community of Elmira, New York. *Mark Twain in the Company of Women* will be of interest to Twain scholars and readers as well as students in American studies, women's studies, nineteenth-century history, and political and cultural studies.
