

The Alien Hunter 2

Bryan Senn

Alien Hunter, Star Trooper David Scholes, 2012 A humanoid alien designated an Alien Hunter Class 5 and formerly a Star Trooper, Gladiator, and Mercenary is dumped on Earth by the Universal forces of nature. The so called Hand of God. With his Earth liaison officer Chicago detective Chris McInnes in tow, the displaced visitor starts a one alien war against corruption, crime, and terrorism on Earth. Both human and alien. Based on the author's monthly Alien Hunter series published by the Golden Visions science fiction magazine throughout 2011.

Alien Hunter: Underworld Whitley Strieber, 2014-08-05 Alien Hunter: Underworld, the searing sequel to Alien Hunter from bestselling author Whitley Strieber Flynn Carroll works for the most secret police unit on the planet, seeking the most brilliant and lethal criminals who have ever walked free: thieves and murderers from another world. As part of a top secret CIA alien communications project, Flynn's unit has been tasked with tracking down rogue agents from the planet Aeon. While Aeon claims to be a free planet desiring open communications with humanity, Aeon criminals have committed a series of brutal and bizarre murders on Earth. Flynn has been forbidden to take lethal action against the alien murderers—but as the bodies begin to pile up, something must be done. Flynn finds himself cut off from his team, struggling to unearth Aeon secrets while protecting Earthling civilians from the deadly creatures. But as Flynn gets closer to the truth, he finds himself facing not only some of the most dangerous and frightening criminals ever seen on Earth, but also questions about his own existence. In order to crack the case, Flynn must come to grips with the greatest mystery he has yet confronted: who—or what—is he?

X-VENTURE TERRAN DEFENDERS 02: THE ALIEN HUNTER Air Team, Fresh from their Chilean comeuppance, Rain, Sean, and Stone's zeal for alien action is quickly dampened when sent to make contact with sewer dwelling Mexican midgets! Shy and silent, the Gopher Mean pose no threat, but something else does! Who or what is after these tiny trash throwing tykes? Why are they being terrorised this way? Squaring off against the enigmatic coated man, questions must wait as our heroes face the fight of their lives against the unstoppable fury of THE ALIEN HUNTER!

Hunters Whitley Strieber, 2016-03 Previously published as Alien hunter--Cover.

Armor Hunters #2 Robert Venditti, 2014-07-09 SURRENDER THE ARMOR OR EARTH WILL DIE! Following the shocking final moments of the previous issue, the Armor Hunters have made their intentions clear, and unless X-O Manowar

is turned over to them immediately, thousands of innocents will become additional casualties of this already brutal war. Valiant's most formidable heroes are about to go on the offensive, but the Armor Hunters have another trick up their sleeve, and this one will change the battle forever. Who will live? Who will die? The world will know what it feels like to be POWERLESS as Valiant's massive summer crossover continues!

The Alien Hunter's Prize: A Standalone Alien Rebellion Romance Skyla Stone, Read this steamy fated mates series by sci-fi romance author Skyla Stone. For fans of science fiction romance authors Cara Bristol, Tasha Black, and Ava Rose... Aliens might be real, but the little green men aren't so—little. My whole life, since I can remember has been about science. Which means when I got a chance to conduct my research in actual space, there was no way I was turning that down. After all, space is the newest frontier, more accessible than ever, and I've always wanted to explore. But working for NASA, my interest in aliens has always been purely theoretical. When I've talked about signs of life in the universe, it was organisms. Small ones. Not the ripped, demanding, horned aliens that my best friend is always reading about. Now, though, my ship has crashed. My crew is dead. And the seven-foot-tall green alien standing in front of me? He's definitely horned, ripped, demanding to know why I'm on his planet—and not small in the least. And I'm pretty sure I'm about to find out in just how many ways that's true. Captured is a standalone, quick-read novella set on the jungle planet Zaxellia, where the aliens are green, possessive, all horned up--and looking for their forever mates. They just don't expect them to be human. Let the adventures in space begin.

Honored by the Alien Hunter Ashlyn Hawkes, A standalone instalove alien romance from author Ashlyn Hawkes. A surprise visit. A promise kept. Can desperation turn into love? Eve has been settling on Kuria nicely when her parents surprise her for a visit. Too ashamed to admit that she hasn't found the Novan love of her life, she blurts out the first name she can think of. Irid doesn't mind pretending to be with Eve... until he realizes he's not pretending. When her family returns to Earth, will he be able to convince Eve that his feelings are real? Trigger warning: this book includes some dark themes like consent and assault, but love will always win. No cliffhanger. Keywords: alien abduction romance, science fiction romance, scifi romance, paranormal romance, science fiction, standalone, happy end, happy ending, alpha male, fantasy romance, urban fantasy, steamy romance, happily ever after, romance, ebooks to read and download, scifi romance, alien abduction, alien romance, collection, box set, boxed set, Zenobia Renquist, Kate Rudolph, Starr Huntress, Sedona Venez, Regine Abel, Roxie Ray, Lee Savino, Renee Rose, Milly Taiden, Ava Hunter, Ruby Dixon, Jenny Foster, Elizabeth Stephens, Margo Bond Collins, Stasia Black, Lisa Lace

Curses! Dotti Enderle, 2011-01-01 When the local museum hosts the exhibit for the mummy of Egyptian king, Tuturtikum, Malcolm and Dandy become victims of the king's curse, and the only way to lift it is to get rid of Tuturtikum's ghost.

Science Fiction Television Series Mark Phillips, Frank Garcia, 2014-05-12 Whether rocketing to other worlds or

galloping through time, science fiction television has often featured the best of the medium. The genre's broad appeal allows youngsters to enjoy fantastic premises and far out stories, while offering adults a sublime way to view the human experience in a dramatic perspective. From *Alien Nation* to *World of Giants*, this reference work provides comprehensive episode guides and cast and production credits for 62 science fiction series that were aired from 1959 through 1989. For each episode, a brief synopsis is given, along with the writer and director of the show and the guest cast. Using extensive research and interviews with writers, directors, actors, stuntmen and many of the show's creators, an essay about each of the shows is also provided, covering such issues as its genesis and its network and syndication histories.

Boy Trouble Diana G. Gallagher, 2009-09 Claudia faces a problem when her longtime crush, Brad, asks for her help on his homework and the new, cute boy at school wants to take her on a date on the same night.

The Most Dangerous Cinema Bryan Senn, 2013-11-01 People hunting people for sport--an idea both shocking and fascinating. In 1924 Richard Connell published a short story that introduced this concept to the world, where it has remained ever since--as evidenced by the many big- and small-screen adaptations and inspirations. Since its publication, Connell's award-winning *The Most Dangerous Game* has been continuously anthologized and studied in classrooms throughout America. Raising questions about the nature of violence and cruelty, and the ethics of hunting for sport, the thrilling story spawned a new cinematic subgenre, beginning with RKO's 1932 production of *The Most Dangerous Game*, and continuing right up to today. This book examines in-depth all the cinematic adaptations of the iconic short story. Each film chapter has a synopsis, a How Dangerous Is It? critique, an overall analysis, a production history, and credits. Five additional chapters address direct to video, television, game shows, and almost dangerous productions. Photographs, extensive notes, bibliography and index are included.

Game Design Foundations Roger E. Pedersen, 2003 Targeted for beginner to intermediate game designers, this handbook has step-by-step, easy-to-follow instructions on how to express concepts into a real game.

The Aliens Are Here Fraser A. Sherman, 2022-10-20 Aliens: They have taken the form of immigrants, invaders, lovers, heroes, cute creatures that want our candy or monsters that want our flesh. For more than a century, movies and television shows have speculated about the form and motives of alien life forms. Movies first dipped their toe into the genre in the 1940s with Superman cartoons and the big screen's first story of alien invasion (1945's *The Purple Monster Strikes*). More aliens landed in the 1950s science fiction movie boom, followed by more television appearances (*The Invaders*, *My Favorite Martian*) in the 1960s. Extraterrestrials have been on-screen mainstays ever since. This book examines various types of the on-screen alien visitor story, featuring a liberal array of alien types, designs and motives. Each chapter spotlights a specific film or TV series, offering comparative analyses and detailing the tropes, themes and clichés and how they have evolved over time. Highlighted subjects include *Eternals*, *War of the Worlds*, *The X-Files*, John Carpenter's *The Thing* and *Attack of the 50-*

Foot Woman.

Forest and Stream ,1907

The Liquid Cool Series Box Set 2 Austin Dragon,2017-12-05 The Thrills Continue! It's Blade Gunner Meets The Maltese Falcon. Liquid Cool is the action-packed (and funny), cyberpunk/sci-fi detective series. Nearly 1000 pages includes The Electric Sheep Massacre (Book 4), I, Alien Hunter (Book 5) and A.I. Confidential (Book 6)!! In the sci-fi/cyberpunk detective series, author Austin Dragon shows why you never want to meet a cyborg in a dark alley. There is plenty of gritty action, suspense, thrills, and even a few laughs. It's cyberpunk reimaged—an ever-rainy world of colossal skyscrapers, hovercars, flashy neon streets, and futuristic mechanization. Metropolis isn't a bad place, but it isn't a good one either. Uber-governments and megacorporations fight for control of the fifty-million-plus supercity, but so does crime. We meet Cruz, our private eye (and unlikely hero), in this super-city with a million victims and perpetrators. Watch out for tech-tricksters, analog hustlers, and digital gangsters—psychos, samurais, and cyborgs aplenty. Visitors have a way of becoming permanent attractions. Welcome to the high-tech, low-life world of Liquid Cool.

A People's History of Environmentalism in the United States Chad Montrie,2011-10-06 This book offers a fresh and innovative account of the history of environmentalism in the United States, challenging the dominant narrative in the field. In the widely-held version of events, the US environmental movement was born with the publication of Rachel Carson's *Silent Spring* in 1962 and was driven by the increased leisure and wealth of an educated middle class. Chad Montrie's telling moves the origins of environmentalism much further back in time and attributes the growth of environmental awareness to working people and their families. From the antebellum era to the end of the twentieth century, ordinary Americans have been at the forefront of organizing to save themselves and their communities from environmental harm. This interpretation is nothing short of a substantial recasting of the past, giving a more accurate picture of what happened, when, and why at the beginnings of the environmental movement.

War of the Worlds John L. Flynn,2005-06 Earth invaded by Mars! Millions incinerated by heat ray! Panic grips nation as Martian tripods advance on Washington! Remember the headlines? They said it wouldn't happen here, and then, wave after wave, the Martians attacked the Earth with a vengeance. H.G. Wells' great novel, *The War of the Worlds*, chronicled the first wave. Then Orson Welles' 1938 radio broadcast, followed by George Pal's 1953 movie. The Martians kept coming! This book is a tribute to Wells and those radio, television, comic book, and film adaptations that have been inspired by it. This second edition includes material on the Steven Spielberg blockbuster (with Tom Cruise), the two Pendragon adaptations, *Mars Attacks*, *Independence Day*, *The Great Martian War 1913-1917*, *War of the Worlds: Goliath*, the 2019 BBC miniseries, the 2019 8-part Fox-Studio Canal series, and plenty more...
