Audiobooks, Literature, and Sound Studies Matthew Rubery, 2011-05-09 This is the first scholarly work to examine the cultural significance of the talking book since the invention of the phonograph in 1877, the earliest machine to enable the reproduction of the human voice. Recent advances in sound technology make this an opportune moment to reflect on the evolution of our reading practices since this remarkable invention. Some questions addressed by the collection include: How does auditory literature adapt printed texts? What skills in close listening are necessary for its reception? What are the social consequences of new listening technologies? In sum, the essays gathered together by this collection explore the extent to which the audiobook enables us not just to hear literature but to hear it in new ways. Bringing together a set of reflections on the enrichments and impoverishments of the reading experience brought about by developments in sound technology, this collection spans the earliest adaptations of printed texts into sound by Charles Dickens, Thomas Hardy, and other novelists from the late nineteenth century to recordings by contemporary figures such as Toni Morrison and Barack Obama at the turn of the twenty-first century. As the voices gathered here suggest, it is time to give a hearing to one of the most talked about new media of the past century.

Digital Audiobooks Iben Have, Birgitte Stougaard Pedersen, 2015-08-11 Audiobooks are rapidly gaining popularity with widely accessible digital downloading and streaming services. This book engages with the digital form of audiobooks, framing audiobook listening as both a remediation of literature and an everyday activity that creates new reading experiences that can be compared to listening to music or the radio. Have and Stougaard Pedersen challenge the historical notion that audiobook listening is a compensatory activity or a second-rate reading experience, while seeking to establish a dialogue between sound studies and media studies, comparative literature, aesthetics, and sociology.

Literacy Moments Jacqueline Witter-Easley, 2019-06-05 In the course of any given day in an early-elementary classroom, a variety of situations present themselves through which a thoughtful teacher could develop teachable moments.

This book provides teachers with the tools to consider those teachable opportunities as literacy moments: brief, authentic, joyful encounters with texts in all forms. Here, teachers learn to nurture joyful readers by infusing their classrooms' daily lives with authentic literacy moments every day. The book is organized into three sections, each section containing three chapters. The first section's chapters focus on creating a literacy moments learning environment, addressing both the affective and physical domains, as well as the need for teachers to undergo a mindset shift in cultivating their personal reading habits. The second section's chapters emphasize literacy moments for the foundational skills of word recognition and vocabulary development. Here, readers explore the integration of popular culture and the arts into their physical domain, as well as methods for creating and effectively using a print-rich environment. The last section's chapters target literacy moments for developing critical thinking through comprehension processes. The chapters focus on intentionally incorporating literacy moments in each stage of the reading process: pre-reading, during reading, and post-reading.

101 Letters to a Prime Minister Yann Martel, 2012-10-30 A compendium of 101 book recommendations from Booker Prize-winning author Yann Martel (Life of Pi) to Prime Minister Stephen Harper—each with an accompanying letter, together probing the question: what sort of mind, nourished by what, do we want our leaders to have? Politely and unfailingly, every two weeks for almost four years, Yann Martel sent Canadian Prime Minister Stephen Harper a book and accompanying letter. He completed the project in 2011 with 101 book recommendations. Now, from the mailbox of the Prime Minister's Office to your bookshelf comes a list of essential reading for all Canadians. This largely one-sided correspondence from the "loneliest book club in the world" (Stephen Harper never personally responded to Yann Martel's gifts) is a valuable compendium for bibliophiles and those who follow the Canadian political scene. Smart, subversive, signed, sealed, and now available to you . . . even if your address is not 80 Wellington Street.
