**Synesthesia** Aya Takano, 2022-11-08 Pop art and manga join forces in this highly anticipated monograph Painter, illustrator, sci-fi writer, and manga artist Aya Takano is one of the main artists of Kaikai Kiki, the artistic production studio created in 2001 by Takashi Murakami. Inspired by all art forms--ranging from erotic stamps of the Edo Period to Impressionism and from Osamu Tezuka to Gustav Klimt--the artist has built a universe all her own. A universe that is made of infinite worlds, and all a means of escaping reality, gravity, and its restraints to ultimately attain a certain form of transcendence. Synesthesia, her first monograph, explores all the layers of her multifaceted career.

**Dismantling the Patriarchy, Bit by Bit** Judith K. Brodsky, 2021-09-09 In Dismantling the Patriarchy, Bit by Bit, Judith K. Brodsky makes a ground-breaking intellectual leap by connecting feminist art theory with the rise of digital art. Technology has commonly been considered the domain of white men but-unrecognized until this book--female artists, including women artists of color, have been innovators in the digital art arena as early as the late 1960s when computers first became available outside of government and university laboratories. Brodsky, an important figure in the feminist art world, looks at various forms of visual art that are quickly becoming the dominant art of the 21st century, examining the work of artists in such media as video (from pioneers Joan Jonas and Adrian Piper to Hannah Black today), websites and social networking (from Vera Frenkel to Ann Hirsch), virtual and augmented reality art (Jenny Holzer to Hyphen-Lab), and art using artificial intelligence. She also documents the work of female-identifying, queer, transgender, and Black and brown artists including Legacy Russell and Micha Cárdenas, who are not only innovators in digital art but also transforming technology itself under the impact of feminist theory. In this radical study, Brodsky argues that their work frees technology from its patriarchal context, illustrating the crucial need to transform all areas of our culture in order to achieve the goals of #MeToo, Black Lives Matter (BLM), and Black and Minority Ethnic (BAME) representation, to empower female-identifying and Black and brown people, and to document their contributions to human history.

Chiho Aoshima, Mr., Aya Takano , 2006 Trois jeunes artistes japonais, issus du groupe Kaikai Kiki dirigé par Takashi Murakami, émergent sur la scène internationale de l'art contemporain : Chiho Aoshima, Mr. Et Aya Takano. S'inspirant

largement de la culture et de la tradition japonaises, ils réalisent des œuvres qui s'inscrivent résolument dans l'incroyable vitalité du Japon d'après-guerre, marqué par le développement des nouvelles technologies et des mangas. Virtuoses du dessin et de la peinture, tous trois nous emmènent dans des univers féeriques peuplés de personnages hybrides hauts en couleurs qui, sous des dehors joyeux et ludiques, nous entraînent rapidement vers des sujets beaucoup plus sérieux, notamment la vie, la mort, le sexe.

All These Liberations Susan Cahan, Thelma Golden, Lorna Simpson, Lowery Stokes Sims, 2024 A dynamic look at the vast creative production of contemporary women artists from around the globe A celebration of the work of women artists of color, this book explores the ways in which struggles for freedom and equality are deeply intertwined with shared feminist practices, art techniques and movements, and the notion of diaspora through the extraordinary collection of social activist and patron Eileen Harris Norton. Featuring work by Sonia Boyce, Maya Lin, Julie Mehretu, Shirin Neshat, Adrian Piper, Faith Ringgold, Kara Walker, Carrie Mae Weems, and many others, All These Liberations draws out the intimate connections among artist, collector, and the social worlds that surround them. For nearly five decades, Harris Norton has championed both artists and curators of color, helping to reshape museum practice and the surrounding art market. Essays in this volume by art historians and curators address vital political, social, and personal issues, as well as topics such as spirituality, domestic life, memory and historical trauma, the body, intimacy, power dynamics, and violence toward women. The book also features an interview with Harris Norton by Thelma Golden, director and chief curator at the Studio Museum in Harlem; a foreword by artist Lorna Simpson; and a roundtable conversation among leaders in the art world discussing Harris Norton's impact on their careers and on the careers of contemporary women artists globally. Pattern Factory Ayako Terashima, 2009-09-22 Pattern Factory shines a light on unconventional contemporary patterns created by cutting edge illustrators and graphic designers and showing how these unique patterns are created, applied to products, and presented in stores. With full-color illustrations throughout, it showcases more than 100 images by artists and designers who create distinct and unique patterns and graphics. It features selected designers and artists who have shown

originality in the range of their products as well as in their print designs, and brings an insight into their creative processes with interviews and photos of their working environments. The book will be a useful resource for artists, illustrators, fashion designers/enthusiasts, and graphic designers, and will attract textile and crafts lovers to an under-represented area of popular contemporary visual culture. When we hear the word pattern in the design world, we often associate it with textiles. But this book is not just about textile design, it is about how patterns started to be recognised as art or graphic icons individually, especially in the last decade. This is partly to do with the recent trend towards commercial collaboration that occurs when artists are asked by brands to apply their artwork to various products such as bags, mineral water bottles, and cars. It also reflects how streetwear brands such as Supreme and Stussy have had a strong influence over teenagers and on subcultures such as the skate scene of the 90's. Many of those who grew up with these influences now have disposable incomes that allow them to buy unique homeware products, clothes, designer toys and other limited edition, visually unique, products. But with these new designs comes a reappreciation of handmade items and craftsmanship that can be seen in the way some of the most influential modern designers work using traditional methods. And consumers have responded positively to this sort of uncompromising and personalised style.

*Vision and Society* John Clammer, 2014-03-26 The sociology of art is now an established sub-discipline of sociology. But little work has been done to explore the implications not of society on art, but of art on the nature and principles of sociology itself. *Vision and Society* explores the ways in which art (here mainly understood as visual art) structures in fundamental ways the constitution of society, the relations between societies and the ways in which society and culture should be theorized. Building initially on an unfulfilled project by the French sociologist of art Nathalie Heinich to derive a sociology from art, this book pushes this idea in unconventional directions. Rethinking the relationships between the study of art and the study of sociology and anthropology, this book explores how this rethinking might impact sociological theory in general, and certain aspects of it in particular – especially the study of social movements, social change, the urban, the constitution of space and the ways in which human social relationships are mediated and expressed.

**Animation: A World History** Giannalberto Bendazzi, 2015-11-06 A continuation of 1994's groundbreaking *Cartoons*, Giannalberto Bendazzi's *Animation: A World History* is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over

fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, Animation: A World History encompasses the history of animation production on every continent over the span of three centuries. Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history. Key Features: Over 200 high quality head shots and film stills to add visual reference to your research Detailed information on hundreds of never-before researched animators and films Coverage of animation from more than 90 countries and every major region of the world Chronological and geographical organization for quick access to the information you're looking for
