Knowledge Representation and Inductive Reasoning Using Conditional Logic and Sets of Ranking Functions S.

Kutsch, 2021-02-09 A core problem in Artificial Intelligence is the modeling of human reasoning. Classic-logical approaches are too rigid for this task, as deductive inference yielding logically correct results is not appropriate in situations where conclusions must be drawn based on the incomplete or uncertain knowledge present in virtually all real world scenarios. Since there are no mathematically precise and generally accepted definitions for the notions of plausible or rational, the question of what a knowledge base consisting of uncertain rules entails has long been an issue in the area of knowledge representation and reasoning. Different nonmonotonic logics and various semantic frameworks and axiom systems have been developed to address this question. The main theme of this book, Knowledge Representation and Inductive Reasoning using Conditional Logic and Sets of Ranking Functions, is inductive reasoning from conditional knowledge bases. Using ordinal conditional functions as ranking models for conditional knowledge bases, the author studies inferences induced by individual ranking models as well as by sets of ranking models. He elaborates in detail the interrelationships among the resulting inference relations and shows their formal properties with respect to established inference axioms. Based on the introduction of a novel classification scheme for conditionals, he also addresses the question of how to realize and implement the entailment relations obtained. In this work, "Steven Kutsch convincingly presents his ideas, provides illustrating examples for them, rigorously defines the introduced concepts, formally proves all technical results, and fully implements every newly introduced inference method in an advanced Java library (...). He significantly advances the state of the art in this field." - Prof. Dr. Christoph Beierle of the FernUniversität in Hagen

P.O. Box Love Paola Calvetti, 2012-01-31 A charming epistolary novel that chronicles the love story between Emma and Frederico, former high school sweethearts who meet again thirty years later. At Dreams & Desires, 50-year-old Emma's quaint bookshop in Milan dedicated to romantic fiction, the passionate bookseller serves coffee and tea to her customers and completes order slips in pen rather than using a computer. One day, she finds a mysterious handwritten note stuck between the pages of a novel. The message is from her high school sweetheart Frederico, who is now a successful architect in New York and whom she hasn't seen in thirty years. When she finally meets Frederico again, Emma is convinced that her life is about to turn into a romance novel - an intercontinental fairy tale between Milan and New York, between two post office boxes and two lovers that are separated by the Atlantic Ocean and half a life. But Frederico is married, and their epistolary romance, punctuated by once-a-year sojourns on the island of Belle Ile, seems to have no future. Paola Calvetti's *PO Box Love* is an ode to old-fashioned relationships (the ones that last a lifetime), old-fashioned habits (such as writing letters by hand in

fountain pen) and old-fashioned notions (such as politeness, and the great lost art of conversation), and will enchant readers of such perennial favorites as *84 Charing Cross Road* by Helene Hanff and *Same Time Next Year* by Bernard Slade.

Why Your Weirdness Is Wonderful Laurie Wallin, 2014-03-18 What if who you are right now is exactly who God meant you to be? What if the weirdest, most annoying things about you are actually—for a purpose? Often we lament about how we relate to God and to the world. We over-think things, worry too much, put things off, argue too much, talk too much, or any number of other griefs. We fight who we are and beg God to make us different. But what if our greatest strength, biggest gift, and most potential is hidden in the very thing we seek to hide from the rest of the world: our weirdness? In *Why Your Weirdness Is Wonderful*, author and certified life coach Laurie Wallin reveals strategies for anyone struggling to find a calling or to find and live their dream. It teaches us to stop fighting ourselves and start following God, not just in spite of, but by embracing our “weirdness.”

Extravagant Brady Boyd, 2020-12-01 From the senior pastor of New Life Church, a “timely, thought-provoking, inspiring, and uplifting” (*The Gazette*, Colorado) book that redefines the notion of extravagance by using the parable of the Good Samaritan to demonstrate how to live a truly compassionate and selfless life of giving freely without expecting anything in return. We all know people in our lives who have “yes” faces. They are calm but energetic, present but still purposeful with their time. They’re genuine in their desire to know about you—how you’re doing, what you’re up to, how you feel. Even with full lives of their own, they somehow still have the energy to inquire about others. These are extravagant people. In *Extravagant*, Pastor Brady Boyd shows us that by constantly offering up our time, talents, and hearts we can live life more like these exceptional people. Drawing on the parable of the Good Samaritan, he encourages us to stop living a life driven by selfish desire and start building lasting relationships that will be spiritually fulfilling. Discover how to begin this transformation by ceasing to be a passerby and become one who pauses in the course of daily life. By embracing the spirit of generosity, Pastor Boyd shows us that the path to a happier life is by living closer to God’s vision and building a community that will be there in times of need. “Boyd’s illuminating insights are a perfect primer for living a more self-aware, spiritually fulfilling life” (*Shelf Awareness*) and just the remedy we need in today’s fractured culture and troubled times.
