Latín II. Materiales didácticos. Bachillerato Ministerio de Educación,

Studiosa Roma Joan Gómez Pallarés, 2003 Studiosa Roma es el fruto de muchos años de trabajo y de lectura: nace de la preparación de las clases de literatura latina, y de la lectura de primera mano tanto de aquellas obras y autores que se intentaba explicar, como de lo que habían escrito sobre ellos otros estudiosos de la cultura romana. Es, por tanto, un libro que nace y que tiene como destino natural las clases y a quienes las frecuentan.. Se trata de un manual que abarca el ámbito geográfico delimitado por el uso de la lengua latina y el espacio cronológico que media entre las primeras manifestaciones literarias y el siglo VI dC. Como manual, es un libro al que acudir para encontrar claves de explicación, más que detalles exhaustivos de cuanto se trata en él. Reflexiona sobre la producción literaria en latín desde la perspectiva del género literario, entendida y ofrecida tal como era entendida por la contemporaneidad, no por la historia de la literatura o de la filología clásica. Es un libro que ofrece indicaciones sobre la transmisión textual de las obras y autores estudiados, sobre las ediciones donde leerlos, sobre la bibliografía secundaria que los ha analizado antes, sobre las biografías, sobre las obras en un contexto de género; con el afán de hacer públicas, además de las notas de lectura del autor, sus herramientas, las que le han servido durante años, y sirven todavía, para preparar las clases. Es un libro, en fin, que también ofrece pautas para que el estudiante se sitúe con soltura en la compleja selva de instrumenta bibliográficos que sirve a nuestras disciplinas.. A ti, lector, toca en adelante decidir si el trabajo que llega ahora a tus manos ha alcanzado alguno de los objetivos que su autor se había propuesto.

Compendio de Literatura Universal Eva Lydia Oseguera Mejía,2014 El propósito de esta obra es que, a través de la lectura analítica, el estudiante reconozca el valor de las grandes obras de la literatura universal para que logre afinar su sensibilidad estética y enriquecer su visión del arte y que además sea capaz de relacionarlas con su contexto histórico, social y cultural. Sin perder de vista este objetivo se ha preparado una nueva edición que amplía el estudio de la literatura clásica. Se ha actualizado para hacer una revisión completa de la literatura del pasado siglo XX. En la tercera edición se han integrado cuadros, imágenes, se actualizaron datos, y se introdujo color a la obra. Se incluyen un marco histórico, social y geográfico y la producción literaria más relevante de cada época y cada nación, así como los escritores más representativos, y el análisis y comentarios de las obras estudiadas. La mentoría en el proceso de enseñanza-aprendizaje Quintero Hernández, Gustavo,2016-10-10 Las disputas en tomo al reconocimiento y pleno ejercicio de los derechos de los pueblos indígenas sobre sus tierras, han sido históricamente transversales a las relaciones entre estas poblaciones, el Estado y el resto de la sociedad colon1biana. Si bien hoy, tras un largo proceso de reivindicaciones, los pueblos indígenas cuentan con un 1narco normativo y jurisprudencial nacional e internacional que reconoce estos derechos; tales disputas, y en particular aquellas por el control y ad1ninistración de la tierra y sus recursos naturales, vienen en un incremento proporcional al decidido avance de un modelo de desarrollo sustentado en gran 1nedida en la explotación y aprovechamiento de estos recursos. La investigación cuyos resultados presenta este texto se planteó caracterizar las disputas configuradas y desarrolladas en el marco del ordenamiento jurídico e institucional de la Constitución Política de 1991, que han llevado a la existencia de una brecha entre el reconocimiento de los derechos territoriales de los pueblos indígenas y su eficacia en Colombia. En cuatro capítulos está caracterización se presenta partiendo de una aproximación a los antecedentes históricos de estas disputas y su expresión en el derecho nacional e internacional, y luego, a través de un análisis crítico en el que se aborda su posterior configuración en el marco de la vigencia del actual ordenamiento constitucional, a instancias de la expedición de las norn1as, la formulación de las políticas y el control judicial constitucional; dando cuenta de su inherente vínculo con tensiones del orden social, político, económico, cultural y ambiental.
