Dejan Arsenovski

English for accounting Muhammad Basri Wello, Lely Novia, Asriati, 2022-03-30 When customers pay their bills, the person in charge receives copies of the payment receipt vouchers. Payment vouchers are documents that show that money was received from customers for invoices. They show that the payment was received. The records of payment receipt vouchers are called customer payment histories. By looking at the customer payment history records, the person in charge of sale knows if customers pay their bills on time. Each customer has a credit limit. The credit limit is the most that customer can owe and still buy from the company. If a customer owes more than the limit, the salesman cannot approve an order. However, the credit manager can approve the order if he thinks the customer will pay. Often the credit manager will call the customer and ask for some payment before the order is shipped or dispatched.

Communication in Accounting Education Richard M.S. Wilson, F. Elizabeth Gray, Lynn Hamilton, 2016-04-14 Accounting, often described as the language of business, requires a diverse set of written, listening and oral communication skills if those who practise it are to be effective. Given the pace of change relating to, for example, the evolution of international

accounting standards and the demands for greater transparency, accountants must be clear, responsive, and audience-focussed communicators. Employers of accountants consistently comment on the need for their new graduate recruits and trainees to have strong written, oral, and interpersonal communication skills. In this light accounting educators face the challenge of designing and delivering programmes that reflect professional expectations on the part of employers and clients, and educating students on how to make informed communication choices in order to achieve desired results and to build good working relationships. The chapters in this book deal with such topics as accounting students' perceptions of oral communication skills; competence-based writing skills; and the development of listening skills. This book was originally published as *Accounting Education: an international journal*.

Developing Language Competence through English for Specific Purposes in English-Medium University Settings Marta Aguilar-Pérez, Balbina Moncada-Comas, Dietmar Tatzl, 2024-11-12 This book explores the interplay between English for specific purposes (ESP) and English-medium instruction (EMI), the complementary ways in which EMI and ESP are implemented in different contexts, as well as teaching and assessing challenges. Furthermore, it considers teaching practices used by ESP professionals and the kind of support given to EMI through ESP. The book makes a valuable contribution to the growing body of research around EMI and ESP by offering a combined study of the presence, practices, roles and impact of English in EMI and ESP in internationalised universities. Looking at the interplay between these two types of instruction, this volume provides an opportunity for researchers and practitioners to explore how universities can (1) benefit from ESP and EMI to enhance international skills among lecturers and students in an inclusive way, (2) examine the impact of ESP and EMI on the internationalisation of Higher Education institutions, and (3) assess the outcomes that result from institutionally bundling ESP and EMI as complementary internationalisation actions in a sustainable manner.
