Freedom Tim Gray,1990-11-09 Part of a series aimed at introducing readers to the intricacies of contemporary debates concerning fundamental political issues. Aiming to offer a comprehensive account of freedom, this work explores the issues of aggregation and distribution, justification, measurement and meaning.

Writing Systems Florian Coulmas,2003 During its long history the problem of reducing language to writing, and conversely that of interpreting written signs as language, has found a variety of solutions which still exist in the form of different writing systems. Written by a leading expert, this new textbook provides an accessible introduction to the major writing systems of the world, from cuneiform to English spelling. Florian Coulmas presents detailed descriptions of the world's writing systems and explains their structural complexities as well as the intricate relationship between written and spoken language. The book also provides a clear and engaging account of the history of writing and its consequences for human thought and literate society. This illustrated textbook includes questions for discussion at the end of each chapter, and an up-to-date explanation of theoretical issues. Clearly organised and engagingly written, it is the ideal textbook for use on courses on writing systems.

Commonwealth of Letters Peter J. Kalliney,2013-07-26 Commonwealth of Letters examines midcentury literary institutions integral to modernism and postcolonial writing. Several organizations central to interwar modernism, such as the BBC, influential publishers, and university English departments, became important sites in the emergence of postcolonial literature after the war. How did some of modernism's leading figures of the 1930s-such as T.S. Eliot, Louis MacNeice, and Stephen Spender-come to admire late colonial and early postcolonial literature in the 1950s? Similarly, why did late colonial and early postcolonial writers-including Chinua Achebe, Kamau Brathwaite, Claude McKay, and Ngugi wa Thiong'o-actively seek alliances with metropolitan intellectuals? Peter Kalliney's original and extensive archival work on modernist cultural

institutions demonstrates that this disparate group of intellectuals had strong professional incentives to treat one another more as fellow literary professionals, and less as political or cultural antagonists. Surprisingly, metropolitan intellectuals and their late colonial counterparts leaned heavily on modernist theories of aesthetic autonomy to facilitate their collaborative ventures. For white, metropolitan writers, T.S. Eliot's notion of impersonality could help recruit new audiences and conspirators from colonized regions of the world. For black, colonial writers, aesthetic autonomy could be used to imagine a literary sphere uniquely resistant to the forms of racial prejudice endemic to the colonial system. This strategic collaboration did not last forever, but as *Commonwealth of Letters* shows, it left a lasting imprint on the ultimate disposition of modernism and the evolution of postcolonial literature.

Constitutional Debates, Rhetoric, and Political Philosophy in Spain's Parliamentary History Francisco J.

Bellido,2024-03-29 This book examines the conceptual contributions of constituent representatives in Spain during the nineteenth and twentieth centuries. The Spanish Parliament has been the stage for the political modernisation of the country. Constitutional debates have historically led to the gradual acknowledgement and broadening – usually unevenly – of citizens' rights. At the same time, constitutional debates have created opportunities to design institutions and settle legal mechanisms to enforce rights and distribute state resources. The book identifies and analyses rhetorical and conceptual innovations produced in such debates from a historical perspective.

How to Count Animals, More Or Less Shelly Kagan,2019 Shelly Kagan argues for a hierarchical position in animal ethics where people count more than animals do, and some animals count more than others. In arguing for his account of morality, Kagan sets out what needs to be done to establish our obligations toward animals and to fulfil our duties to them.

The Contemporaneity of Modernism Michael D'Arcy,Mathias Nilges,2015-10-23 At a juncture in which art and culture are saturated with the forces of commodification, this book argues that problems, forms, and positions that defined modernism are crucially relevant to the condition of contemporary art and culture. The volume is attuned to the central concerns of recent scholarship on modernism and contemporary culture: the problems of aesthetic autonomy and the specific role of art in preserving a critical standpoint for cultural production; the relationship between politics and the category of the aesthetic; the problems of temporality and contemporaneity; literary transnationalism; and the questions of medium and medium specificity. Ranging across art forms, mediums, disciplines, and geographical locations, essays address the foundational questions that fuse modernism and the contemporary moment: What is art? What is the relation between art and the economy? How do art and technology interpenetrate and transform each other? What is modernism's logic of time and contemporaneity, and how might it speak to the problem of thinking genuine novelty, or the possibility of an alternative to

the current stage of neo-liberal capitalism? What is modernism, and what is its history? The book is thus committed to revising our understanding of what modernism was in its earlier instantiations, and in accounting for the current moment, addressing the problems raised by modernism's afterlives and reverberations in the 20th and 21st centuries. The volume includes essays that consider literature, sociology, philosophy, visual art, music, architecture, digital culture, television, and other artistic media. It synthesizes the most recent thinking on modernism and contemporary culture and presents a compelling case for what happens to literature, art, and culture in the wake of the exhaustion of postmodernism. This book will be of interest to those studying literature, visual art, media studies, architecture, literary theory, modernism, and twentieth-century and contemporary culture more generally.

How Should We then Die? Ewan C. Goligher,2024-04-03 My times are in thy hand. Explains why physician-assisted death is attractive Makes a case for the value of life and wrongness of killing Argues from general revelation and Scripture Helps Christians undercut the logic of euthanasia As more people accept the practice of physician-assisted death, Christians must decide whether to embrace or oppose it. Is it ethical for physicians to assist patients in hastening their own death? Should Christians who are facing death accept the offer of an assisted death? In *How Should We then Die?*, physician Ewan Goligher draws from general revelation and Scripture to persuade and equip Christians to oppose physician-assisted death. Euthanasia presumes what it is like to be dead. But for Christians, death is not the end. Christ Jesus has destroyed death and brought life and immortality through the gospel.

Postmodern Picturebooks Lawrence R. Sipe,Sylvia Pantaleo,2010-04-26 Over the past 15 years, there has been a pronounced trend toward a particular type of picturebook that many would label postmodern. Postmodern picturebooks have stretched our conventional notion of what constitutes a picturebook, as well as what it means to be an engaged reader of these texts. The international researchers and scholars included in this compelling collection of work critically examine and discuss postmodern picturebooks, and reflect upon their unique contributions to both the field of children's literature and to

the development of new literacies for child, adolescent, and adult readers.
