*Bangladesh at Fifty* Mustafa K. Mujeri, Neaz Mujeri, 2020-11-07 This book explores the diverse experience of Bangladesh's development over the last fifty years and provides systematic explanations of its success in socioeconomic development. It also assesses future trends on the basis of past experiences. It is widely acknowledged that Bangladesh provides one of the most striking examples in the study of present day development along with rapid growth and catching up. The analysis highlights the development traps that Bangladesh faced during its journey and the ones that may have to be faced in the coming decades in order to move towards prosperity. The book asserts that explaining Bangladesh's development is not for the simpleminded; any single mono-causal explanation for Bangladesh's development is bound to fall down in the face of reality. This book will be of interest to academics, students, policy makers and development practitioners especially in developing countries—in particular in South Asia and Bangladesh.

**Bangladesh's Graduation from the Least Developed Countries Group** Debapriya Bhattacharya, 2018-09-21 Since the group of least developed countries (LDCs) was identified in 1971, only five countries have graduated from the group, all of which are characterised by small size or population. The projections are that the next decade will see a rapid increase in the pace of graduation, with Bangladesh in particular poised to be one of the largest countries, in terms of its economy and population, yet to leave the group. While previously many LDCs viewed the prospect of graduation with some apprehension, fearing significant erosion of international support, increasingly, the move is being seen as a more positive landmark. This book aims to articulate appropriate strategies and initiatives to help Bangladesh to maintain its developmental momentum and to prepare for a sustainable graduation in 2024. In doing so, the book explores themes such as key analytical issues of the LDC graduation paradigm, smooth transition and structural transformation, and post-graduation challenges and opportunities. Further, against the backdrop of Gross National Income per capita, the Human Assets Index and Economic Vulnerability Index goals required for graduation, the Sustainable Development Goals (SDGs) set by the 2030 Agenda will also be in the process of implementation. Whilst some feel that the two agendas might be in conflict, the book teases out some of the important synergies which can be drawn when LDCs are undertaking the journey of graduation in the era of the SDGs. The book also takes into cognisance the uncertain external environment and the emerging global scenario within which Bangladesh's graduation is to take place. Conceptual discourse around LDC graduation and the particular narrative

around Bangladesh's journey towards LDC graduation will be of interest not only to scholars of Bangladesh, but also to researchers and policymakers with an interest in LDC graduation for other countries facing similar challenges.

*Transforming Bangladesh* Raquib Ahmed, Abdullah Al-Maruf, J. Craig Jenkins, 2023-11-14 This book focuses on the transformation of Bangladesh in respect to its people, geography, economy and environment. The authors discuss current problems such as vulnerability caused by environmental degradation in Bangladesh but also opportunities of this rapidly changing country. The book explains how the country is rapidly transforming from a rural subsistence agrarian based economic system to a new economic partner contributing to global processes. Bangladesh is presented as an example for the changes in the Global South, where a mismatch is often observed in linking resources and activities with environmental sustainability, possibly due to insufficient base-line knowledge. As faster growth is marginalizing resources to increase the GDP, the sustainability of resource exploitation is being questioned. The authors describe the vulnerable situation caused by possible sea-level rise, soil degradation, biodiversity loss, climate extremities, urbanization, and population displacement. This volume offers comprehensive knowledge about the geography and environment of Bangladesh and aims to help readers further investigate the issues and work on solutions. The book appeals to academics, professionals and students at all levels interested in Bangladesh as well as environmental problems and geographical issues in a rapidly transforming country.

The World Bank in Bangladesh The World Bank Bangladesh, 1998 Bangladesh is one of the poorest and most densely-populated countries in the world, yet it has achieved impressive progress since its independence in 1971. With a vibrant economy that has grown at nearly 6 percent per year in the last decade, Bangladesh has seen the number of poor drop by one-third during the same period. In this remarkable journey, the World Bank has enjoyed a strong relationship with Bangladesh that spans four decades. It has supported Government efforts in economic growth, power, infrastructure, disaster management, human development and poverty reduction. Since 1972, the World Bank has committed more than US\$ 16 billion to advance Bangladesh's development priorities. This publication provide a glimpse of the ongoing World Bank projects in Bangladesh and showcase an important partnership aimed at creating opportunities for the disadvantaged, the poor and the vulnerable. It conveys what the World Bank have come to learn through many years of engagement with this dynamic and resilient country—that with strong commitment, sound policies and effective government, Bangladesh has enormous potential to offer its people a better, brighter future.

Is the Bangladesh Paradox Sustainable? Selim Raihan, François Bourguignon, Umar Salam, 2024-01-18 Diagnostic account of how institutions and politics have shaped the development of Bangladesh and reforms needed for further development.

**Bangladesh's Agriculture, Natural Resources, and Rural Development Sector Assessment and Strategy** Asian Development Bank, 2023-03-01 This country sector assessment shows how rapid economic growth and climate change are impacting Bangladesh's agriculture, natural resources, and rural development sector, and outlines ways the Asian

Development Bank (ADB) is helping foster greater food security. With agriculture generating over 40% of jobs, it analyzes changing demand patterns, shows how the pandemic and food price rises have hit the sector, and explores how increasing production and adding value can help reduce rural poverty. It outlines how ADB is focusing on deepening value chains and agricultural commercialization, plus improving rural connectivity and natural resource management, to help improve livelihoods and bolster resilient rural development.

*Teen Lives around the World* Karen Wells, 2019-11-08 This two-volume encyclopedia looks at the lives of teenagers around the world, examining topics from a typical school day to major issues that teens face today, including bullying, violence, sexuality, and social and financial pressures. Teenagers are living in a rapidly changing and increasingly interconnected yet unequal world. Whether they live in Australia or Zimbabwe, they have in common that they are between childhood and adulthood and increasingly aware of how inequality is affecting their lives and futures. This encyclopedia gives a different perspective based on the experiences of teens in 60 countries. Each entry gives the reader a brief sketch of a country to help readers to understand how geography, history, economics, and politics shape teen life. The entries include a country overview and cover the following topics: Schooling and Education; Extracurricular Activities: Art, Music, and Sports; Family and Social Life; Religions and Cultural Rites of Passage; Rights and Legal Status; and Issues Today. Special sidebars, called Teen Voices, appear throughout the text, and include a description of a typical day in the life of a teen in various countries. Students will be able to gain a better understanding of what life is like around the world for their peers and will be able to easily make cross-cultural comparisons between different countries.

**Bangladesh's Macroeconomic Policy** Monzur Hossain, 2020-02-21 This book provides valuable insights on issues pertaining to current macroeconomic policy debates and challenges in Bangladesh. It evaluates various macroeconomic policies and reflects on a future direction in terms of four central themes: (i) Macroeconomic Policy, Growth and Poverty; (ii) Monetary and Fiscal Policy; (iii) International Trade and Finance; and (iv) Finance and Growth. Given its scope, the book will serve as a useful resource for academics and macroeconomic practitioners whose work involves developing countries.

**Fifty Years of Bangladesh, 1971-2021** Taj Hashmi, 2022-04-22 This book, the first historical sociology of its kind concerning Bangladesh, examines the country's what-went-wrong-syndrome during the first fifty years of its existence, 1971-2021. The work is an exception to the traditional studies on modern and contemporary Bangladesh. The study is also a post-history of united Pakistan. Busting several myths, it sheds light on many known and unknown facts about the history, politics, society, and culture of the country. Besides being a twice-born country - liberated twice, from the British in 1947 and from West Pakistanis in 1971 - it is also an artificial entity suffering from acute crises of culture, development, governance, and identity. Hashmi attributes the culture and identity crises to the demographic byproducts of bad governance. In addition to being overpopulated, Bangladesh is also resource-poor and has one of the most unskilled

populations, largely lumpen elements and peasants. According to Marx, these people represent “the unchanging remnants of the past”. The second round of independence empowered these lumpen classes, who suffer from an identity crisis and never learn the art of governance. The proliferation of pseudo-history about liberation has further divided the polity between the two warring tribes who only glorify their respective idols, Mujib and Zia. Pre-political and pre-capitalist peasants’ / lumpen elements’ lack of mutual trust and respect have further plagued Bangladesh, turning it into one of the least governable, corrupt, and inefficient countries. It is essential to replace the pre-capitalist order of the country run by multiple lumpen classes with capitalist and inclusive institutions.

*Efficiency and Volatility Dynamics of Bangladesh's Stock Market* Md Abu Hasan, 2024-02-06 This book contributes to empirical finance by comprehensively analysing an emerging stock market, employing modern econometric techniques. The most central and fascinating area of financial economics is probably the efficiency and volatility of the stock market – however, studies of emerging economies are relatively limited in this area. The rising importance of stock market globalisation has increased interest in emerging markets. This book leads the way for an emerging market perspective, as it explores the issue of efficiency and volatility of the stock market in Bangladesh by employing both univariate and multivariate models, using daily data of past share prices and monthly data of macroeconomic variables and the stock index, respectively. This book offers an understanding of the crucial issues facing developing economies, particularly emerging stock markets with similar characteristics to those of Bangladesh. This book undoubtedly provides valuable information for investors in the stock market, graduate, post-graduate, and PhD students in quantitative financial economics, academics in economics and finance, and policymakers in developing economies.

**Remaking the Wealth of the Nations** Md Shamsul A. Chowdhury, 2018-07-23 This book has found out the reasons as to why the wealth of nations differ from each other? Why the GDP per capita of Canada, and the U.S. were \$43,248.5 and \$56,115.7 respectively in 2015, whereas Mexico was languishing at \$9,005, despite sharing common borders? Why is the per capita of Malawi not identical to Luxembourg or USA? Why the mountains of macro and micro economic studies failed to grow the economy up to expectation? Have the theories of capitalism and communism dissipated into thin air? Should the world think about an alternative option or formula for a better economy? Remaking the Wealth of the Nations has carried out extensive research on different economies, economic theories, ideas, and found out the common causes of economic successes and failures of the economies. Finally, this book has given out appropriate solution through clearly defining and explaining a new formula of Artificial Productivity to help the economists, leaders, and policy makers to remake the economies.

Mental Health in Bangladesh S. M. Yasir Arafat, 2024-03-11 This book is about mental health in Bangladesh. Bangladesh is a densely populated country in South Asia with a population of about 170 million. It has seen significant economic growth

over the last decades, and it has recently improved from being a low-income country to a lower middle-income country. Currently, Bangladesh is facing a double burden of disease, i.e., both communicable and non-communicable. About 60% of the disease burden is incurred by non-communicable diseases. Mental disorders are one of the top five burdens of non-communicable disease in the country. However, psychiatry is a neglected issue in Bangladesh. There are high stigma, services gaps, out-of-pocket expense, low mental health literacy, and extreme scarcity of budget. Academically, it has also been under-addressed and under-researched. Therefore, the editor aims to provide a comprehensive book on mental health in Bangladesh, based on existing evidence and expertise, focusing on academic aspects of community mental health service.

Understanding Fifty Years of Bangladesh Politics Harun- Or-Rashid, 2024-03-13 This book studies the first 50 years of Bangladesh politics since independence. It looks at Bangladesh politics as a unique case for study to analyze and understand the role of institutions, political parties, the election commission, election-time government, judiciary, the media, etc. The volume cross-examines the 1971 War of Liberation and the brutal killing of the republic's founding father in 1975 as the two great divides that crystallized in the political arena between the Awami League on the one side and the BNP and Jamaat-e-Islami on the other. Through deep dives on major historical events and key political developments that have since shaped Bangladesh's entire society and politics, it then delves into topics including the parliament, electoral integrity, civil society, and politics as they take on a confrontational course. An incisive study on major struggles, achievements, and challenges faced by Bangladesh in the 20th century, this volume will be of great interest to scholars and researchers in political science, democracy, modern history, and South Asia studies.

**Governance in Bangladesh** Md. Nurul Momen, Jannatul Ferdous, 2023-04-08 This book adopts the multidimensional nature of innovation as its point of focus and offers a comprehensive analysis of contemporary governance issues in Bangladesh. Each chapter views those issues from its own disciplinary perspective, but all share a common focus on the current process in the governance of innovation. The authors show how the processes of innovation and public service delivery are influenced while there is simultaneously a striving for a digital Bangladesh. The book presents innovation as a complex phenomenon with multidisciplinary viewpoints affecting its governance. As well, new practices, developments, and empirical research are shown here. The aim is to point out the most persistent difficulties in public administration and public service delivery, with an emphasis on how to deliver public service in Bangladesh in a sustainable manner. Although significant transformations have been made recently for a better organized public sphere, public services still must be more closely in line with what citizens need rather than what service providers are prepared to deliver. This published work speaks strongly to a wide-ranging audience, from scholars of governance and innovation management to academics, researchers, and postgraduate students interested in public service delivery innovations in Bangladesh and South Asia. Indeed, the book serves as a text and valuable resource for postgraduate courses in politics, business administration, economics, political

science, development, and governance in South Asia.

**Islamic Economic Co-operation** Masudul Alam Choudhury,1989-09-15

**Advancing Gender Equality in Bangladesh** Rieky Stuart, Aruna Rao, David Kelleher, Sheepa Hafiza, Carol Miller, Hasne Begum, 2017-07-14 In 1994, BRAC, the world's largest NGO, made headlines by putting women's rights centre stage in Bangladesh, one of the poorest countries in the world. The Gender Quality Action Learning (GQAL) Programme was one of the very first large-scale efforts to mainstream gender equality and aimed to weave objectives of gender equality throughout its own microfinance, education and health services. Advancing Gender Equality in Bangladesh describes the history, implementation, and outcome of this major 20-year initiative and discusses the lessons learnt throughout the fight to achieve gender equality outcomes in an effort to provide a tangible framework for future organizations interested in promoting gender equality and social inclusion. At a time when many gender equality programmes are still relatively young, this book offers a unique opportunity to track 20 years of intervention within a theoretical and cultural context and provides a platform for ongoing discussion about the roles of empowerment and gender transformation as agents for social change. This book provides an in-depth analysis of how strategies for change have operated in practice and will be of considerable interest to students, researchers and practitioners of international development, gender studies and social justice theory as well as those interested in a new practical methodology of the gender role framework.

**The Odds Revisited** K. A. S. Murshid, 2022-11-10 Explains Bangladesh's record of 'outlier' development through a multi-sectoral approach combining economics, politics, and history.

**Research Anthology on Cross-Disciplinary Designs and Applications of Automation** Management Association, Information Resources, 2021-10-29 Throughout human history, technological advancements have been made for the ease of human labor. With our most recent advancements, it has been the work of scholars to discover ways for machines to take over a large part of this labor and reduce human intervention. These advancements may become essential processes to nearly every industry. It is essential to be knowledgeable about automation so that it may be applied. Research Anthology on Cross-Disciplinary Designs and Applications of Automation is a comprehensive resource on the emerging designs and application of automation. This collection features a number of authors spanning multiple disciplines such as home automation, healthcare automation, government automation, and more. Covering topics such as human-machine interaction, trust calibration, and sensors, this research anthology is an excellent resource for technologists, IT specialists, computer engineers, systems and software engineers, manufacturers, engineers, government officials, professors, students, healthcare administration, managers, CEOs, researchers, and academicians.

**Sustainable English Language Teacher Development at Scale** Ian Eyres, Tom Power, Robert McCormick, 2018-09-06 This book offers a thorough and comprehensive review of the lessons learnt from the award-winning 'English in Action'

English language teacher development programme, which ran in government primary and secondary schools across Bangladesh from 2008 to 2017. Over the course of nine years the programme involved 51,000 teachers and 20 million school students, demonstrably raising standards of teachers' classroom practice and students' English language attainment, and won the British Council ELTON Award for Local innovation (2013) and Times Higher Education Award for International Impact (2107). The sixteen chapters explore the programme in detail, looking at both the successes and the challenges encountered throughout its course, including the strategies used to address the challenges. The key innovative factors of the programme include: · a positive choice to build on the existing context, such as the lives and experiences of local teachers and the demands of a nationally determined curriculum; · teacher learning taking place in the teachers' own classrooms; · a focus on learning the 'how' of communicative language teaching through reflective practice and peer support; · the use - within a carefully constructed pedagogy - of affordable, readily-available mobile phone technology; · the use of mediated authentic video · a model of teacher development at very large scale that provided a successful alternative to the 'cascade' model; · a partnership with government institutions to ensure that improved practices are maintained beyond the life of the Programme.

**Electricity Access, Decarbonization, and Integration of Renewables** Sebastian Groh, Lukas Barner, Georg Heinemann, Christian von Hirschhausen, 2022-11-02 This Open-Access-Book covers different aspects of the low-carbon energy transformation in a unique manner, with a particular focus on two regions, South Asia and Sub-Saharan Africa. The first part of the book provides useful insights on changes and reforms in the energy sector of Bangladesh, while the second part illustrates the low-carbon energy transformation in South Asia and the third part covers lessons from Sub-Saharan Africa. In all of these regions, the energy sector is undergoing major changes, driven by the four D's: Decarbonization, decentralization, digitization, and democratization. Major overhauls are taking place at all levels: The country level, where energy mixes are rapidly changing, the corporate level, where large state-owned and private companies are challenged and new actors are emerging, and the local level, where technical and regulatory change has made citizen engagement and community power an option to replace or at least complement centralized supply structures.
