Pícaro and Cortesano Felipe E. Ruan, 2011-11-16 In this book on the relationship between pícaro and cortesano, Felipe E. Ruan argues that these two cultural figures are linked by a shared form of deportment centered on prudent self-accommodation. This behavior is generated and governed by a courtly ethos or habitus that emerges as the result of the growth and influence of the court in Madrid. Ruan posits that both pícaro and cortesano, and their respective books, conduct manual and picaresque narrative, tacitly engage questions of identity and individualism by highlighting the valued resources or forms of capital that come to fashion and sustain self-identity. He places the books of the pícaro and cortesano within the larger polemic of early modern identity and individualism, and offers an account of the individual as agent whose actions are grounded on objective social relations, without those actions being simply the result of mechanistic adherence to the social order.

**Cervantes and the Material World** Carroll B. Johnson, 2000 Cervantes and the Material World reveals a recurrent

preoccupation with the clash of two different economic systems: a reenergized feudalism and an incipient capitalism. Overturning the common assumption that Don Quixote, Sancho Panza, and myriad other colorful characters carry out their adventures in a timeless social milieu, Johnson demonstrates how their perspectives and experiences are shaped by the events and crises of their immediate historical context.--BOOK JACKET.

**A Cultural History of Law in the Early Modern Age** Peter Goodrich,2021-03-11 Opened up by the revival of Classical thought but riven by the violence of the Reformation and Counter Reformation, the terrain of Early Modern law was constantly shifting. The age of expansion saw unparalleled degrees of internal and external exploration and colonization, accompanied by the advance of science and the growing power of knowledge. A Cultural History of Law in the Early Modern Age, covering the period from 1500 to 1680, explores the war of jurisdictions and the slow and contested emergence of national legal traditions in continental Europe and in Britannia. Most particularly, the chapters examine the European quality of the Western legal traditions and seek to link the political project of Anglican common law, the *mos britannicus*, to its classical European language and context. Drawing upon a wealth of textual and visual sources, A Cultural History of Law in the Early Modern Age presents essays that examine key cultural case studies of the period on the themes of justice, constitution, codes, agreements, arguments, property and possession, wrongs, and the legal profession.

*An Early Self* Susanne Zepp,2014-11-19 What role has Jewish intellectual culture played in the development of modern Romance literature? Susanne Zepp seeks to answer this question through an examination of five influential early modern texts written between 1499 and 1627: Fernando de Rojas's *La Celestina*, Leone Ebreo's *Dialoghi d'amore*, the anonymous tale *Lazarillo de Tormes* (the first picaresque novel), Montaigne's *Essais*, and the poetical renditions of the Bible by João Pinto

Delgado. Forced to straddle two cultures and religions, these Iberian conversos (Jews who converted to Catholicism) prefigured the subjectivity which would come to characterize modernity. As New Christians in an intolerant world, these thinkers worked within the tensions of their historical context to question norms and dogmas. In the past, scholars have focused on the Jewish origins of such major figures in literature and philosophy. Through close readings of these texts, Zepp moves the debate away from the narrow question of the authors' origins to focus on the innovative ways these authors subverted and transcended traditional genres. She interprets the changes that took place in various literary genres and works of the period within the broader historical context of the sixteenth and seventeenth centuries, demonstrating the extent to which the development of early modern subjective consciousness and its expression in literary works can be explained in part as a universalization of originally Jewish experiences.

*The Other Within* Yirmiyahu Yovel, 2018-06-05 The Marranos were former Jews forced to convert to Christianity in Spain and Portugal, and their later descendents. Despite economic and some political advancement, these Conversos suffered social stigma and were persecuted by the Inquisition. In this unconventional history, Yirmiyahu Yovel tells their fascinating story and reflects on what it means for modern forms of identity. He describes the Marranos as the Other within—people who both did and did not belong. Rejected by most Jews as renegades and by most veteran Christians as Jews with impure blood, Marranos had no definite, integral identity, Yovel argues. The Judaizers—Marranos who wished to remain secretly

Jewish—were not actually Jews, and those Marranos who wished to assimilate were not truly integrated as Hispano-Catholics. Rather, mixing Jewish and Christian symbols and life patterns, Marranos were typically distinguished by a split identity. They also discovered the subjective mind, engaged in social and religious dissent, and demonstrated early signs of secularity and this-worldliness. In these ways, Yovel says, the Marranos anticipated and possibly helped create many central features of modern Western and Jewish experience. One of Yovel's philosophical conclusions is that split identity—which the Inquisition persecuted and modern nationalism considers illicit—is a genuine and inevitable shape of human existence, one that deserves recognition as a basic human freedom. Drawing on historical studies, Inquisition records, and contemporary poems, novels, treatises, and other writings, this engaging critical history of the Marrano experience is also a profound meditation on dual identities and the birth of modernity.

**The Subversive Tradition in Spanish Renaissance Writing** Antonio Pérez-Romero, 2005 The seven texts in this cross-section of fiction and nonfiction reveal a nation at the brink of modernity, embracing revolutionary ideas and reeling in their explosive impact. The opening chapters establish the theoretical framework for Perez-Romero's analysis, describing the intellectual and social environments of medieval Spain and tracing the developments in Spanish historical and literary scholarship that point to the existence of a new path of investigation.--Jacket.

*Early Modern Voices in Contemporary Literature and on Screen* Ambra Moroncini, Aaron M. Kahn, Luca Florentini, Eleonora Lima, Kristina M. Olson, Olivia Santovetti, Davide Dalmas, Gareth Wood, Mark Thornton Burnett, Yujia Jin, Carlotta Moro, Alena Gašparovičová, Victoria Ríos Castaño, 2024-03-13 The “intangible power” of literature, which, in Umberto Eco’s words, “allows us to travel through a textual labyrinth (be it an entire encyclopaedia or the complete works of William Shakespeare) without necessarily ‘unravelling’ all the information it contains”, may be clearly identifiable in our contemporary age of intertextuality and, most importantly, of interdisciplinarity. It suffices to think of the countless film adaptations of Shakespeare’s works, or of the popular appeal of Dan Brown’s global bestsellers, the so-called Robert Langdon book series, which has made original (and contentious) use of literary and artistic masterpieces such as Dante’s *Divine Comedy* and Leonardo da Vinci’s *The Last Supper*. What is more, the investigation of literature’s verballity through the lenses

of cinematic and media perspectives has greatly benefitted from scholarly insights into dialogism, heteroglossia, polyphony, and historiophoty, opening new aural and visual windows of interpretation and knowledge. With these considerations in mind, this book explores the enduring presence of some of the most revolutionary early modern voices and works in our contemporary time. It embraces a rich diversity of literary genres (from poetry to storytelling, novels, fairy tales, and historical colonial chronicles, while also considering musical theatre compositions), and broadens the scope of research to the world of media, with cutting edge insights into contemporary films, TV series, and videogames. It presents innovative scholarly perspectives on how early modern works and themes are explored, remediated and refashioned today to address cultural, political, and social issues germane to our global moment.

**The Oxford Handbook of English Prose 1500-1640** Andrew Hadfield, 2013-07-04 The Oxford Handbook of English Prose 1500-1640 is the only current overview of early modern English prose writing. The aim of the volume is to make prose more visible as a subject and as a mode of writing. It covers a vast range of material vital for the understanding of the period: from jestbooks, newsbooks, and popular romance to the translation of the classics and the pioneering collections of scientific writing and travel writing; from diaries, tracts on witchcraft, and domestic conduct books to rhetorical treatises designed for a courtly audience; from little known works such as William Baldwin's *Beware the Cat*, probably the first novel in English, to *The Bible*, *The Book of Common Prayer* and Richard Hooker's eloquent statement of Anglican belief, *The Laws of Ecclesiastical Polity*. The work not only deals with the range and variety of the substance and types of English prose, but also analyses the forms and styles of writing adopted in the early modern period, ranging from the Euphuistic nature of prose fiction inaugurated by John Lyly's mannered novel, to the aggressive polemic of the Marprelate controversy; from the scatological humour of comic writing to the careful modulations of the most significant sermons of the age; and from the pithy and concise English essays of Francis Bacon to the ornate and meandering style of John Florio's translation of Montaigne's famous collection. Each essay provides an overview as well as comment on key passages, and a select guide to further reading.
